Awarded a Gold Medal at the Pan American

VAUGHAN'S CANNAS

Awarded the GRAND PRIZE at the St. Louis World's Fair.

WE are careful about Canna growing at Western Springs. We buy all the new ones, grow them with our own stock and discard a lot of poor ones each year. We have won highest awards at Four Great Fairs: Chicago, Omaha, Buffalo and St. Louis, receiving for our flower beds of these and other plants in the plaza between the Horticultural and Agricultural Buildings, **The Grand Prize,** one of the **seven only** awarded to American Exhibitors in Horticulture. Our present Canna list is most complete, and you can obtain the very best kinds from us.

Our Bed of King Humbert at St. Louis, (Gold Medal Awarded).

VAUGHAN'S NOVELTY CANNAS

Prices Quoted are for 3 inch Pot Plants

OUR EXPERIENCE WITH CANNAS For over 15 years we have made the culture of Cannas one of our main specialties. We grew, last year in our place at Western Springs **over 10 acres** of standard sorts and novelties, besides 3,000 seedlings. We ought to know something about Cannas. We know that a great many so-called novelties are being sent out every year whose only claim for existence in many instances is a new name only. We also know, and had to pay dearly for this knowledge, that ignorant and unscrupulous growers give most any name to their stock of Cannas, as long as the color is only somewhere near correct. To them **any** red is a Chicago, **any** yellow a Florence Vaughan, etc. **Our Cannas are true to name,** and furthermore, the stock we use for propagation has been specially selected on points of vigor, true type, color, evenness of height and size of flowers, and our stock can all, with good right and reason, be called "Improved." Cannas will not all propagate alike, no matter how carefully the selection is made, and a true Chicago or Egandale, for instance, cannot be grown and furnished at as low prices as some common red. We request our customers to take these facts into consideration when comparing prices. **The Best is Always the Cheapest.**

Canna King Humbert The New Giant-Flowered Cannal.) One of the Gold Medal varieties at the World's Fair at St. Louis, and central figure in our "Grand Prize" bedding display. The grandest type of Canna, flower and plant, yet produced. The flower is a bright orange-scarlet, streaked with crimson. The foliage is bronze with brownish-green stripes; large, thick and leathery; in fact, the finest of all Cannas. **Price, 3 inch pot plants, each 35c.; doz., $3.50; 100, $25.00.**

Papa Nardy New French Canna. Height 4 to 5 feet. Green foliage. A strong grower and free-flowering habit; large rounding flowers of a beautiful purplish-crimson. Flower spikes large and numerous and are carried well above the foliage. A great show when massed, on account of its attractive color and free-flowering habit. It is without doubt one of the best Cannas today. **Each, 30c.; doz., $3.00; per 100, $20.00.**

St. Louis (Vaughan's Seedling, 801.) 5 feet. Foliage dark bronze; flower crimson-scarlet, petals large, rounded, with glossy surface. Plant robust grower with 3 to 5 spikes. The dry flowers fall off promptly, making it an ideal bedder. The dark bronze foliage with scarlet flowers contrast well. We have grown it 4 years and it has been greatly admired by all Canna experts. **Each, 30c.; doz., $3.00; per 100, $20.00.**

Milwaukee (Vaughan's Seedling, 100). 3½ feet; foliage green; flower rich, dark maroon. We find it the darkest of all Cannas. The flowers are large and form well shaped trusses which show off the flowers to advantage. **Each, 15c.; doz., $1.50; per 100, $10.00.**

DAHLIAS

ASIDE from the Paeony there is no flower or plant which has again come so prominently before the public than the Dahlia. The renewed interest taken in them, both by the florists and amateurs is marvelous. However, this is not to be wondered at. The Dahlia of today is as different and better in every way to the old stiff show Dahlia of ten to twenty years ago, as the Crozy Cannas are superior to the old, small-flowered type. The new Dahlias are not only more graceful in shape, many sorts resembling Japanese Chrysanthemums but they also bloom earlier. They are most profitable, both for cut-flowers and plant sales. There will be a great demand for Dahlias next season and it will pay **up-to-date florists** to have a good stock of **these up-to-date varieties.**

Petals of great substance, giving it a shipping quality not possessed by any other variety. The plant is a strong, healthy grower, averaging about five feet in height and bushy. An early and profuse bloomer The fine shapely flowers are set on very long, stout but graceful stems. "Sylvia" is distinctly a Florists' Dahlia, having all the qualities essential to the trade use. BOSTON FERN

NEW NEPHROLEPIS SCOTTII

Of much dwarfer and bushier growth than the Boston Fern. The fronds droop gracefully and are not as long and coarse as the Boston. It is a rapid grower, and to see it in all stages of growth from a runner in the bench to a 14-inch pot specimen will convince you that it will be in great demand as a house fern.

THE NEW FERN, NEPHROLEPIS PIERSONI

The photograph of the frond on this page gives a very good idea of the feathery, plume-like fronds, although one has to see the plant in growth to appreciate its beauty and value. The fronds grow broad and heavy, measuring at least six inches across when fully developed, increasing in beauty as they develop. We have a large stock of well-shaped, bushy, pot-grown stock in all sizes.

THE NEW FERN, NEPHROLEPIS ELEGANTISSIMA

A sport from the Piersonii Fern, but is much more beautiful. It is as different from Piersonii Fern as that is from the Boston. The small side pinnæ are again subdivided, producing an exquisite and beautiful effect, changing the entire character of the fronds, which measure less than half the length and about twice the breadth of the fronds of the Piersonii Fern. The fronds also assume an entirely different form, the side pinnæ standing at right angles to the mid-rib of the frond, making the frond appear double.

BABY RAMBLER

NEW ROSE, BABY RAMBLER

The Everblooming Dwarf Crimson Rambler

This new Rose which was sent out under the name of Mme. Norbert Levavasseur, is a cross between Crimson Rambler and Glory Polyanthas, retaining the color of the former with the exceedingly free-flowering habit of the latter, as well as its dwarf growth. The plants are very vigorous, grow to a height of about 24 inches. The foliage is dark, glossy, profuse and remarkably free from insects and fungus. The flowers are borne in clusters, 30, 40 and 50 flowers to a cluster. They are in every way just like those of the Climbing Crimson Rambler, and are produced perpetually. We have closely watched this new Rose in our greenhouses since November, 1903 and they have never been without flowers from that time until the present day. We had a large bed in our grounds at Western Springs, and there the plants were constantly in bloom until November, even in the hottest weather. This is a remarkable record. We have grown thousands of varieties of Roses, but have never before met one that possessed all these remarkable qualities combined. As a florist pot Rose it is of greater value than the Crimson Rambler. The grower will be able to handle Mad. Levavasseur from December until July. If the plant is not sold with the first crop of flowers, cut them off and wait a few weeks and you will have another crop of flowers. It is also a Rose for bedding out. No garden, no matter how small or large, should be without it. There is no Rose that equals it in freedom of bloom and perpetual blooming qualities.

NEW GLADIOLUS PRINCEPS

PRINCEPS Has received an Award of Merit and Diploma of Honor at American Institute Fair, New York, 1901 and 1902, and Award of Merit, Royal Horticultural Society, London, Eng., 1901, and Gold Medal, St. Louis World's Fair, 1904.

THE BEST AND LARGEST GLADIOLUS IN EXISTENCE

NEW GLADIOLUS PRINCEPS.

THIS magnificent variety, grown and developed by Dr. Van Fleet, of whom we purchased his entire stock, and introduced by us in 1903, is *the largest and most effective and graceful of all Gladioli.* It grows from 3½ to 4 feet high under ordinary garden conditions; its handsome foliage is a grand setting for the brilliant *Amaryllis-like blooms* which open more widely than any other variety, a characteristic it receives from *G. cruentus*, the mother species. The color is *rich crimson with intense shadings in the throat, and broad white blotches across the lower petals.* The flowers range from *5 to 6 inches in diameter*, and can be grown to nearly 8 inches under stimulating culture. The petals are very wide and much rounded, forming an almost circular flower. From three to six of these immense and brilliant blooms are expanded at a time on each spike, which often produces 16 to 18 flowers during its development. *Princeps* is a most striking variety and the rate of increase is such that in time it can be produced in large quantities for bedding purposes as well as for cutting and exhibition. It endures the sun and wind well, and opens perfectly to the last bud in water. It blooms normally in August, but may be had late in October by delaying planting it. It forces splendidly.

GLADIOLUS MIXTURES

It is a well-known fact that some varieties of Gladiolus multiply much more rapidly than others and as a result Gladiolus grown in mixture, unless very carefully watched, will deteriorate very rapidly. Recognizing this fact we make all of our mixtures of these bulbs ourselves, using named varieties and mixtures of proven merit, by this method we can safely guarantee our customers satisfaction when buying our mixtures.

RAINBOW MIXTURE

We believe this to be the best mixture of Gladiolus ever offered to the public at a nominal price. We have composed the same from the choice varieties mentioned on this page, also including the famous Childsii, Lemoines and Nanceianus sorts. Florists who want a fancy mixture for retailing can make no mistake in buying this. **Per 100, $2.75; 1000, $25.00.**

VAUGHAN'S XXX FLORIST MIXTURE

This mixture is made up from named white and light varieties and mixtures of light colors only, and is designed to meet the demand of our florist customers for a mixture suitable to be used for cut flowers. We have offered this mixture for a number of years, and the increasing demand shows that it fills the bill. **Per 100, $1.75; per 1000, $15.00.**

VAUGHAN'S FLOWER SEED NOVELTIES and SPECIALTIES for 1905

SCHIZANTHUS WISETONENSIS

Schizanthus Wisetonensis

This wonderfully show plant deserves to be widely known and cultivated. Attaining a height of about 16 inches, branching freely and yet of a compact, pyramidal form. It throws well above its charming feathery foliage a multitude of large panicles of beautiful blossoms. These lovely Schizanthus, literally covered as they are with their dainty little flowers, make excellent pot and market plants.

Pkt. (40 seeds) **20c., 3 for 50c.**

Schizanthus, or Butterfly-Flower.

Schizanthus Hybridus Grandiflorus.
THE POOR MAN'S ORCHID.

Only a few annuals can compare with the profusion of bloom of this charming novelty, and none is more easy to cultivate. It attains a height of about 12 inches, grows quite compact and pyramidal, and literally covered with beautiful large, orchid-like flowers. It grows well if sown in the open ground in March-April, where it is to bloom, but it may also be sown in frames and transplanted later into the garden or pots, and if sown in August-September, several plants together in a pot cultivated in a cool greenhouse or conservatory, they will make a splendid show in winter. **Pkt., 10c; ¼oz., 25c.**

Rudbeckia Fulgida Variabilis

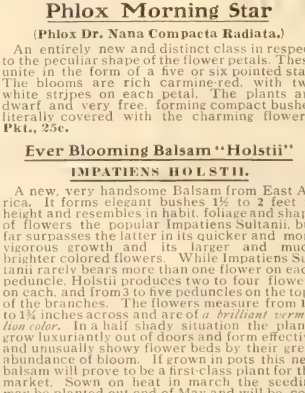
Exceedingly pretty hybrids of this hardy perennial, forming well-branched bushes with erect flower stems. The individual flowers, 2½ to 3 inches in diameter, show peculiar colorings and markings, these are partly purplish-brown striped and tinted on golden-yellow or bronze ground, partly brown with yellow tips or yellow turning into brown. The conical disc is of a deep purple. Fine cut flowers. **Pkt., 15c.**

New Climbing Nasturtium

"BLACK PRINCE"

Absolutely the darkest shade of climbing Nasturtium. The expanding flowers are of deep blackish purple, deepening later into velvety black. The foliage is also very dark and of bluish lustre, like the Dwarf Nasturtium. Empress of India, etc. **Pkt., 10c.; oz., 20c.**

The New Cactus Aster



PATRICK HENRY

This is one of the best white Asters to cut. The plants grow about 16 inches high; the flowers are pure white, measure about 4½ inches across and are double to the center. The petals are twisted or rather rolled like those of a Cactus Dahlia, hence its name. The plants bloom early, about with the Giant Comet Asters.
Pkt., 25c; ½oz., $1.00.

Lucifer

The New Single Black-Leaved Dahlia.

A most unique new sort. The leaves especially on the upper surface, are of a metallic black-brown hue, while the flower stalks are absolutely black. The single flowers are of medium size, of a glowing dark scarlet, center deep blood red. They are produced very abundantly, on long stiff stems, which throw them well above the foliage, forming a most brilliant contrast with it. The plants grow about three feet high, and are as effective as Cannas, either as single plants or in beds. It comes almost entirely true from seed. **Pkt.,** (10 seeds) **15c.**

Phlox Morning Star

(Phlox Dr. Nana Compacta Radiata.)

An entirely new and distinct class in respect to the peculiar shape of the flower petals. These unite in the form of a five or six pointed star. The blooms are rich carmine-red, with two white stripes on each petal. The plants are dwarf and very free, forming compact bushes literally covered with the charming flowers. **Pkt., 25c.**

Ever Blooming Balsam "Holstii"

IMPATIENS HOLSTII.

A new, very handsome Balsam from East Africa. It forms elegant bushes 1½ to 2 feet in height and resembles in habit, foliage and shape of flowers the popular Impatiens Sultanii, but far surpasses the latter in its quicker and more vigorous growth and its larger and much brighter colored flowers. While Impatiens Sultanii rarely bears more than one flower on each peduncle, Holstii produces two to four flowers on each, and from 3 to five peduncles on the tops of the branches. The flowers measure from 1½ to 1¾ inches across and are of *a brilliant vermillion color.* In a half shady situation the plants grow luxuriantly out of doors and form effective and unusually showy flower beds by their great abundance of bloom. The flowers and this new balsam will prove to be a first-class plant for the market. Sown on heat in march the seeding may be planted out end of May and will be continuously in bloom from June until the frost destroys them. Novelty of sterling merit.
Pkt., 20c; 3 for 50c.

Siberian Helmet Flower

Scutellaria Baicalensis Coelestina.

A new hardy herbaceous perennial, which grows about 20 inches high, forms dense bushes which are covered with beautiful flowers in July and August. The color is a lovely lavender with a light spot on the lower lip of the flower. In shape the single flowers resemble those of Salvia Patens. The spikes are splendid for cut-flowers. The plant prefers a sunny location and is not particular as to soil. **Pkt., 15c.**

VAUGHAN'S NEW POPPY "SANTA ROSA."

The "Santa Rosa"

Vaughan's New Poppy.

Our growers who sow Poppy seed by the acre, say.—Your "Santa Rosa" is an exceptionally fine mixture of Shirley Poppies, by far the best we have seen

We introduced this famous new Poppy last season, having purchased Mr. Burbank's entire stock of the same. It is a new strain of Shirley Poppies, originated and improved by Luther Burbank. This new strain combines all the delicate beauty in color of the original Shirley and Shirley types, and with these the whole flower in all of its petals is beautifully crimpled as illustrated above. **Pkt., 10c; ½oz., 25c; oz., 40c**

Giant Blue Maurandia

A splendid addition to our list of tender climbers, and as most of our customers are familiar with the well known Maurandia Vine it is only necessary to say that this new sort has finer deep blue flowers double the size of the type, equally free flowering, of as easy growth, and especially adapted for low trellises, window boxes, hanging-baskets, etc. **Pkt., 15c.**

New Mignonette Machet

"WHITE PEARL."

Of the vigorous branching Machet type and very free. The long erect stalks carry enormous dense spikes of white flowers which stand well above the undulate foliage and with their white and red stamina form a grand effect. We can recommend this new giant Mignonette as a most valuable novelty. **Pkt., 15c; 2 for 25c.**

New Double Hybrid Hollyhocks. Ever Blooming

Bloom from Seed the First Year.

This new strain possesses all the virtues of the double old-fashioned Hollyhocks with the additional advantage of *blooming from seed the first year.* Plants started from seed sown in March or April in the house or hot bed, transplanted may into their permanent place, will bloom in August and continue until late in the fall. The plants branch out freely, grow to a respectable height and are not as easily attacked by the Hollyhock fungus and therefore retain their fresh bright green leaves until late.
Pkt., (25 seeds) **20c; 3 for 55c.**

New Tobacco Plants

ORCHID-FLOWERED TOBACCO.

Nicotiana Sanderae.

This hardy plant, with its rosy-carmine flowers, produces a startlingly beautiful effect in the garden. Such an intensely glowing rosy carmine color is unknown in any plant of similar character; and either in flower beds, shrubbery borders, or in the wild garden—in fact, in any position among annuals of any color or kind of foliage. The care given to the most ordinary annual will suit this new Nicotiana admirably.

THE BEST IN AMERICA

ASPARAGUS PLUMOSUS NANUS.

We are Headquarters on the Seeds of this.

Our Position in the Flower Seed Business

WE handle Flower Seeds in large quantities and have most of the popular sorts grown on contract by reliable growers in Europe and this country. We are personally acquainted with them and have repeatedly inspected their cultures. In many cases we furnish our own specially selected stock seed.

These facts and conditions place us in practically the same position as the larger European Houses as to costs, etc., with the additional advantage that through intimate knowledge of American tastes, conditions and requirements we are perhaps better able to supply mixtures in the proper proportions of popular shades and colors.

We can make early deliveries, since we have many of the seeds that require early sowing sent to us as they mature.

WE not only offer really good novelties, but with them, our own specialties and many kinds little known in this country, which we deem of special value and worthy of introduction to our trade. Our years of practical experience in this country and Europe, continually reinforced, place us in the best possible position to satisfy the most critical lovers of Gardening.

VAUGHAN'S ASTERS.

THE CARLSON ASTERS

Our Aster seed is raised by *experienced* and *reliable* seed growers, in many cases from our own stock seed, and should not be compared to stock raised in the South or by experimenters who use no care and lack experience.

VAUGHAN'S UPRIGHT BRANCHING ASTER

"THE CARLSON."

A selection of the Pæony Flowered type, this new Aster is now the favorite in the Chicago cut-flower market. The flowers are large and firm, the stems long and stiff and the colors are decided and pleasing. The plants grow about 36 inches high and come into bloom before the Branching Asters.

Our seed of this is saved from plants that were not blighted and were grown for the seed only. There is also a lot of seed in the market that is saved from inferior flowers, the best having been sold for cut-flowers.

HOHENZOLLERN ASTER.

The finest type of the Giant Comet or Ostrich Feather type of Asters. Much larger than the Giant Comet, the petals longer and more curled and twisted, and produced in greater abundance. Borne on long stems, which makes them cut-flowers par excellence.

Hohenzollern, White. This is considered the grandest Aster ever introduced. Plant tall-growing, branching and bearing on very long stalks, flowers on stalks of from 1½ to 2 feet in length, measure up to 8 inches across, being densely double, finely curled and bearing the greatest resemblance to a large-flowered Japanese Chrysanthemum. Unequalled as a cut-flower and highly effective for tall beds and groups. **Trade pkt., 25c.; ¼ oz., 40c.; oz., $1.40.**

NEW LARGE-FLOWERING CALLA.

Calla Devoniensis.

BLOOMING CALLAS FROM SEED IN 1 YEAR.

The most beautiful and best Calla up to date, without a doubt. It is equally valuable for pots and cut. It produces from 3 to 4 times as many flowers as the older sorts.

The seedlings come true and will bloom profusely the first year. This Calla came from England about 6 years ago and is a great improvement on C. Aethiopica. Its willingness to bloom is phenomenal, while its culture is of the simplest.

One-year-old plants often produce from 6 to 8 flowers which are of great beauty. They are pure white, large and are borne on stout stalks. They are also good keepers. If sown at intervals of 4 to 6 weeks this Calla can be had in bloom all the year. **100 seeds, 75c.; 1000 seeds, $6.00.**

NEW EVER-BLOOMING ASTER, "IDEAL."

This new Aster produces, perhaps, more salable cut flowers to a plant than any other kind. The plants grow from **16** to **18** inches high and are in bloom from the beginning of August to the end of September almost uninterruptedly. In shape the flowers resemble the Victoria type, except that the petals are looser so as to give the flowers a very graceful appearance. **White, light blue, dark blue, crimson;** each, **trade packet, 15c.; ¼ oz., 30c.; oz., $1.00.**

IMPROVED SHASTA DAISY SEED.

Burbank's 1904 Selection.

DAHLIA, Burbank's Selection. The seed we offer is of L. Burbank's own saving, and he writes: "This seed will produce a greater proportion of large, clear, bright colored, perfect double flowers than any ever before offered; 90 per cent of good flowers can be expected." The colors are salmon, light and dark crimson, deepest purple to maroon and almost black, light straw, deepest yellow and a few white, mostly of the Cactus type this season. **Pkt.** (100 seeds), **50c.**

NEW DAHLIA, "20th Century." The New Orchid Flowered Dahlia. The flowers are very large, single, 4½ to 6 inches in diameter, of perfect form and exquisite finish. The color is intense rosy-crimson with white tips and white disc around the the yellow center. The color contrasts are exquisitely lovely and can be compared with the beautiful orchids. The flowers have stems 2 to 3 feet long, keeping a long time after being cut in perfect condition. **Pkt.** (100 seeds), **30c.**

NEW CLIMBING NASTURTIUM.

Mad. Gunther's Hybrids.—For richness and variety of colors these Hybrids have no equals among Nasturtiums. There are shades of rose, salmon, brightest rose, pale yellow, either as self-colors or spotted and striped. The foliage is mostly dark and contrasts very effectively with the rich colors. They are climbers and continuous bloomers. It is impossible to describe all the different colors, but some of the most striking are as follows: White, shaded carmine on the edges, with deep maroon throat; golden-yellow, shaded brown on edges; yellow, shaded and mottled with carmine; white, with red blotches; shrimp pink, with deep maroon throat; shrimp pink, self color; rose, bright rose, bright yellow, orange, etc. **Oz., 10c.; ¼ Lb., 30c.; Lb., 70c.**

VAUGHAN'S SPECIAL MIXTURE OF ..... **CLIMBING NASTURTIUMS.** VAUGHAN'S SPECIAL MIXTURE OF ..... **DWARF NASTURTIUMS.**

There is no mixture of Nasturtiums equal to these two. We know it. Everything that is choice (including all the varieties on this page) is found in these mixtures, and we stake our reputation on their quality as well as on that of Vaughan's International Pansies, Vaughan's Petunias, "Vaughan's Best" Verbena, Phlox and all other flower seeds.

VAUGHAN'S PANSIES.

NEW PANSY PSYCHE.

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. Trade Pkt., 50c.; ⅛ oz., 75c.; ¼ oz., $1.35; oz. $5.00.

PSYCHE. Not one of the many Pansy varieties has such a winning appearance as Psyche. The plant is perfect in habit and very floriferous. Each flower is elegantly curled and undulated and in every respect a beauty in form and color. The characteristic five velvety violet blotches or eyes are surrounded by a broad white edge. Comes true from seed. Trade Pkt., 50c.; ⅛ oz., 80c.; oz., $5.00.

BRIDESMAID. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty with the finest Apple-blossom, and most strikingly setting off the dark blotches of the center. Trade Pkt., 25c.; ⅛ oz., 50c.; oz., $3.75.

RUBY. This new variety embraces the richest shades of red colors from scarlet, scarlet-orange, wine-red to rose. Originating from the Giant Cassier class it possesses the same regular dwarf habit of the plants and the large size and fine form of the flowers. Trade Pkt. (250 seeds) 25c.

GIANT PRETIOSA. The flowers of this novelty are similar to those of the Masterpiece Pansy, each petal is marked with a very large blotch of deep violet color, these blotches are surrounded by a brilliant crimson rose background and the ground color is margined with a pure white edge. A very effective and bright variety, and we are sure that this novelty will please our customers. Trade Pkt. (250 seeds), 25c.

NEW ORCHID-FLOWERED PANSIES. A most interesting type of Pansies of the Giant Flowered Class, containing a mixture of the most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals are marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and sort of plaited, which gives the flowers their resemblance to orchids. The colors range in the terra cotta shadings as well as in the flesh, orange, rose, pink and lilac. Trade Pkt. (250 seeds), 25c.

VAUGHAN'S "ELITE" MIXTURE OF PANSIES. This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors, nor any other of the well-known kinds. It is comprised of the cream of four Pansy specialists' choicest and most expensive mixtures and such new and novel kinds as listed above. It is a mixture that will please everybody who knows and likes Pansies and can appreciate quality in color, shape, size and substance, in fact everything that makes a perfect Pansy. Trade Pkt., 50c.; ⅛ oz., $1.00.

AUGHAN'S INTERNATIONAL PANSIES

The Christmas Pepper.

For several years we have made a specialty of this Pepper at our greenhouses, where we have grown several thousands in a season. They are ready for the market in October and November, lasting until Christmas, and the plants have sold like the proverbial "hot cakes." The plants grow about 12 to 15 in. high and are covered with their scarlet fruit which stays on for months. It is a selection from the Celestial Pepper, but is now entirely distinct from it; the fruit is smaller, more chunky and the plants grow more compact, while the foliage as shown in our illustration, and therefore present themselves to best advantage. This Pepper is of easiest culture. It is one of the prettiest pot plants and everybody can be successful with it. Complete cultural directions are printed on each package. **250 seeds, 25c.; 1000 seeds, 75c.** The seed we offer is of our own saving.

CHINESE PRIMROSE—TYPE OF INTERNATIONAL STRAIN.

NEW
PRIMULA-BUTTERCUP.

A free-flowering yellow primrose coming into full bloom for Thanksgiving and Christmas trade, and continues covered with bloom during winter and spring. The buttercup primrose is unquestionably a fine thing. Those who had it on sale the past season regard it as one of the best flowering plants they have ever handled. It makes a fine house plant, and gives general satisfaction. It grows freely from seed, requires the same treatment as the Chinese primrose and makes a famous pot plant.

This primrose is so floriferous that it is necessary to keep the flower buds pinched out until about the first of October, in order to get the plant to make growth instead of all bloom.

By planting five or more seeds to the pan, according to the size required, you can have magnificent specimens. These should be made up during September, to give the plants time to fill the pan and cover it entirely with yellow blossoms. 250 seeds, 15c.; 1000 seeds, 50c.

PRIMULA OBCONICA GRANDIFLORA.

Vaughan's International Primula Mixture.

This mixture is composed of the most salable colors of Single Flowering Chinese Primulas, the best whites, pinks and reds, with a sprinkling of other colors enough to give a large variety of colors, the most important shades predominating. We have taken special pains to make this mixture as complete as possible and unreservedly recommend it to everyone. **Pkt. of 250 seeds, 50c.; 5 pkts. 1250 seeds, $2.00; per 1-16 oz., $2.50.**

Grand Rapids Forcing Cucumber

This originated with Mr. Davis, the raiser of the Davis Wax Bean and Grand Rapids Forcing Lettuce. It embodies his ideas of a greenhouse Cucumber, in regard to size, shape, color and productiveness. This cucumber is the result of many years of selection and of reselection. We secured Mr. Davis' entire stock of seed, which is very small, although we paid a very handsome price for the same. It is a very shy seeder. This Cucumber has been shipped for several seasons to some Chicago commission men who have always found for it a ready sale even in preference to home grown stock.

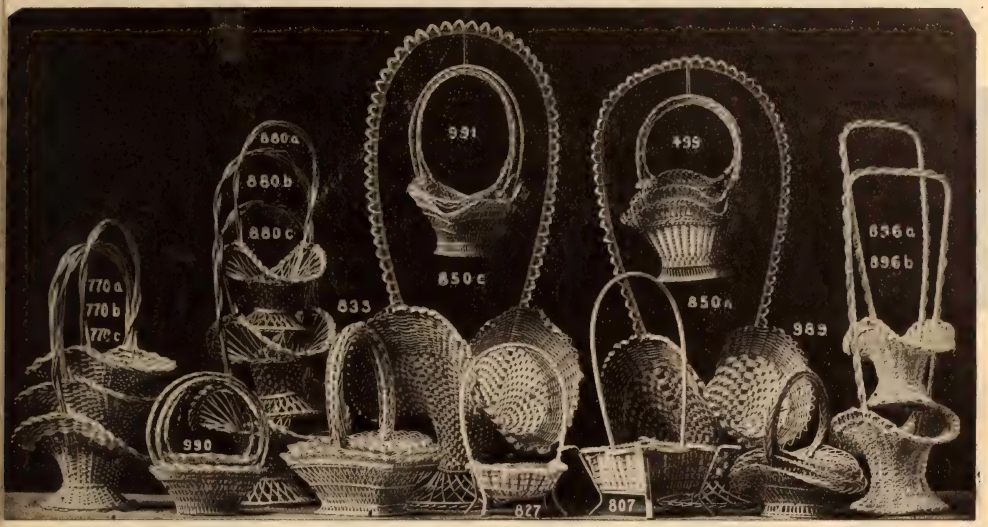
NEW CELERY, "SNOW WHITE"

A pure white, self-blanching variety without a rival in purity of color. In vigor of growth ease of blanching, size, richness of flavor, crispness and purity it is ideal. It grows solid all kinds of soil; keeps better than many standard varieties. Single stalk sometimes weigh 2½ pounds and quite frequently two pounds each.

Pkt., 10c; ½ oz., 15c; oz., 25c.; 2 oz., 40c; ¼ lb., 75c; lb., $2.50, postpaid

LETTUCE, GRAND RAPIDS FORCING

Vaughan's Selected Stock.



This grand forcing variety stands more neglect in the way of watering and ventilation, will grow more weight on the same ground, and stand longer after maturity than the Black Seeded Simpson. It is of handsome appearance, a strong grower, and not apt to rot, and will keep from wilting longer while exposed for sale than any other. Its upright habit admits of very close planting. A quick grower. **Price, oz., 10c; ¼ lb., 30c; lb., $1.00; 5 lbs., $4.25.**

LETTUCE, BLACK SEEDED SIMPSON

Vaughan's Selected Stock.

This is by far the most popular sort among the Chicago gardeners. It forms large, loose leaves of ideal color; the leaves are large, thin, very tender, and of very good quality. It is one of the best sorts for use under glass as well as for early outdoor planting. Our seed of this has been most carefully selected and we sell large quantities to market gardeners. **Price, oz., 10c; ¼ lb., 30c; lb., 80c; 5 lbs., $3.75.**

FLOWER BASKETS.

We make large importations of all best Florists' stock, and have always on hand a desirable list of **Newest Patterns** as well as all **Standard Styles.** It is impossible to show cuts of all these changing shapes, but customers leaving part of their orders to our own selection may depend on receiving handsome and salable novelties.

VAUGHAN'S "ROSE-GROWER" BONE MEAL

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis. Ammonia, 4½ to 5½ per cent; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

Sprayers.

One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 75 lbs. to the square inch, which obviates any danger of bursting. Splendid for spraying pot plants in stores, etc. Always ready for use and never gets out of order. We have used one in our store for the past year and know we cannot do without it. Price: Galvanized tank, $5; brass tank, $6.

THE FOUNTAIN.

AUTO SPRAY.

Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, $4.50; with Auto Pop, $5.50; solid copper reservoir, $6.00; with Auto Pop, $7.00; Brass Extension Rod, in 2-foot lengths, each, 35c.; Galvanized Extension Rod, in 2-foot lengths, 25c.

CLARA CEMETERY VASE.

It is one of the most useful as well as handsome articles ever placed on the market. Of beautiful solid mounted glass, 12 inches high. It takes the place of all the old tin cans, bottles and like unsightly receptacles often used in the cemetery where only the attractive and ornamental should be seen. The lower end is sharp pointed so it can be embedded about six inches in ground and stand firm. It will hold sufficient water to keep the flowers fresh and sweet, and will accommodate flowers with long as well as short stems. The vase is bell-shaped and the top has a diameter of about five inches.

THE VAUGHAN GREENHOUSE BARROW.

We have had numerous calls for a wheelbarrow which could be used in greenhouses; the ordinary barrow being too wide for that purpose, and we had built for us a special barrow which will fill this want to perfection. It is strongly built, very neat affair, of the following dimensions:

Box, 14 in. wide at the wheel end.
16 in. wide at handle end.
12 in. deep.

The bottom of the box is matched and glued together, and there is no crack against which a shovel might run. The wheel is of steel, 17 inches high, with a 2½-inch tread; the axle is 15 inches wide. The barrow is 20 inches wide over all, and is made of the very best material, nicely painted and varnished. The legs are reinforced by iron straps. We consider it the very best barrow of the kind in existence. Price, $4.50.

THE GLOBE GARDEN WHEELBARROW.—Measurement of box, 30 inches long, 19 inches wide at wheel, 24 inches at handles. Price: with steel wheel $3.6

The No. 6 "Iron Age" Combined double Wheel Hoe, Hill and Drill Seeder. This tool is without question the most practical and complete combined garden tool ever offered the public—the ease and simplicity of adjustment, the lightness combined with great strength, the accuracy by which it drills or hills the seed, and the small amount of power required to operate it, are the important features The wheel is made of steel, 16 inches high, the frame of pipe, coupled to malleable castings. In each form, whether a Seed Drill, a Double Wheel Hoe, or a Single Wheel Hoe, it is equal to any tool or tools made especially for the one purpose. No 1 "Iron Age" Double & Single Wheel Hoe. Wheel Hoe form of the No. 6 opposite. One great advantage which this double Wheel Hoe possesses is, that it can be made into a practical Single Wheel Hoe in a moment's time. As a double wheel it may be used astride the row and thus cultivate both sides of the row at the same time.

The wheels are 16 inches high, enabling the Wheel Hoe to run easily and without yielding to the inequalities of the soil as a low wheel will do. The frame being made of pipe coupled to malleable castings, gives great strength together with lightness. Price, complete, **$6.50.** A Seed Drill attachment may be applied for sowing in rows only, or sowing both in rows and hills. **$3.50** and **$4.50** respectively. This tool with side hoes only (Iron Age No. 3), **Price, $3.75.**

No. 15 "Iron Age" Combined Single Wheel Hoe, Hill and Drill Seeder. Combined in this tool is the best Hill and Drill Seeder and Single Wheel Hoe ever offered the public. It places the seed in hills or drills. Price, **$10.00** As a Hill and Drill Seeder only (No. 16), **$7.50.**

This will avoid delay which is very annoying. We cannot be expected to ship goods to those whose good standing is not known to us. For reference please name wholesale seedsmens or other well-known business men with whom you have had dealings—such information will be held in confidence.

Our Responsibility; While we always aim to have the best SEEDS, BULBS AND PLANTS which each season affords from reliable houses, we cannot and do not guarantee any of them to flower or produce a crop of flowers at the price given, or will we be responsible for the crop. We assume our customers to be acquainted with these conditions and if the stock is not accepted on such conditions it must be returned at once and any money paid will be refunded. Live plants and like perishable stock should be sent by express; we cannot assume any responsibility whatever for safe arrival when ordered by freight. The remedy for loss must lie between the buyer and the Railroad Company, but we will gladly render all the aid we can.

We prefer not to send goods C. O. D., but when wanted in that manner some money must accompany order. PERISHABLE stock, plants, etc., are **Positively** NOT SENT C. O. D.

LOW EXPRESS RATES ON PLANTS.

We ship plants by all express lines to any part of the country Under the ruling of the leading express companies plants packed closed boxes or baskets are now being carried at the "GENERAL SPECIAL" rate, which means a reduction of 20 per cent. from the regular merchandise rate. Boxes weighing less than 100 pounds are charged at pound rates, but the minimum charge is 45c. For example, if the general rate is $5.00 per 100 lbs., a box containing 25 lbs. will cost $1.00, which is a saving of 25c.

L. LONGIFLORUM GIGANTEUM.

JAPAN LILIUM LONGIFLORUM.

MULTIFLORUM Type.

The true variety under this name will produce more flowers per bulb than other types, but it is difficult to secure true stock of this unmixed with other grades. Our Japan growers promise that our stock shall contain 80 per cent true type.

PRICES:	6 to 8 inch	Per 100, $4 00.	Per 1000, $32 00

	9 to 10 inch	Per 100, 9 00.	Per 1000, 80 00

GIGANTEUM (Dark Stem.)

While ordinarily considered later than other varieties of Longiflorum, it has proven with our customers as early as any, and when shipped and planted fairly late has formed fine plants even in growth and fairly early in season. The type is free flowering and true. The dark stems readily prevent mixture in the growing crop.

LILIUM CANDIDUM. *"THICK PETALED."*

It is known to most growers of this Lily that there are two strains. The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true **"Thick Petaled"** bulbs and they have given our customers excellent satisfaction.

ELEGANTISSIMA

THE NEW FERN

NEPHROLEPIS ELEGANTISSIMA

The photograph of the frond on this page gives a very good idea of the feathery, plume like fronds although one has to see the plant in growth to appreciate its beauty and value.

A sport from the Piersonii Fern, but is much more beautiful. It is as different from Piersonii Fern as that is from the Boston. The small side pinnæ are again subdivided, producing an exquisite and beautiful effect, changing the entire character of the fronds, which measure less than half the length and about twice the breadth of the fronds of the Piersonii Fern. The fronds also assume an entirely different form, the side pinnæ standing at right angles to the mid-rib of the frond, making the frond appear double.

NEPHROLEPIS BARROWSII

An Improved Variety of the Piersonii Fern.

In this new variety we have a dense compact form of the Pierson Fern, in which the fronds are not only shorter and broader, but it grows bushier, and what is most important, its fronds are supported on stout, stiff mid-ribs, which gives the plant a much shaplier form.

Strong Young Plants, each 35c. Doz. $3.50. Per 100 $25.00.

NEW NEPHROLEPIS SCOTTII

Of much dwafer and bushier growth than the Boston Fern. The fronds droop gracefully and are not as long and coarse as the Boston. It is a rapid grower and to see it in all stages of growth from a runner in the bench to a 14-inch pot specimen will convince you that it will be in great demand as a house fern.

NEW VERBENA, ELLEN WILLMOTT

Of recent introduction and one of the most meritorious Novelties amongst the Verbenas. It differs widely from all other Verbenas, being the only one of erect habit, growing from 12 to 18 in. in height and producing large heads of very showy, bright carmine flowers with a dark eye, blooming from the early part of Summer till late in the fall.

When first shown in London and Continental markets where it is highly appreciated, this Verbena proved to be a ready money maker. It makes a fine pot plant, is equally valuable as a cut flower and an excellent bedding plant and no Garden should be without this striking new variety. It is readily propagated from cuttings, and fine pot plants may be had quickly by planting from 3 to 5 rooted cutting into a 5-inch pot. Rooted cuttings or young plants, ready Dec. 1st. BABY RAMBLER

NEW ROSE, BABY RAMBLER.

THE EVERBLOOMING DWARF CRIMSON RAMBLER.

This new Rose, which was sent out by the name of Mme. Norbert Levavasseur, is a cross between Crimson Rambler and Glory of Polyanthus, retaining the color of the former with the exceedingly free flowering habit of the latter, as well as its dwarf growth

The plants are very vigorous, grow to a ***height of about 24 inches.*** The foliage is dark, glossy, profuse and ***remarkably free from insects and fungus.***

The flowers are borne in clusters, 30, 40 and 50 flowers to a cluster. They are in every way just like those of the Climbing Crimson Rambler and are ***produced perpetually.*** We have closely watched this new Rose in our greenhouses since November 1903, and ***they have never been without flowers*** from that time until the present day. We had a large bed in our grounds at Western Springs and there the plants were constantly in bloom until November—even in the hottest weather. ***This is a remarkable record.*** We have grown thousands of varieties of Roses, but have never met one that posesses all these remarkable qualities combined.

The greatest bedding and forcing rose in existence.
It blooms every day of the year in the house. Out of doors from May until November.
It is perfectly hardy and remarkably vigorous and free from insects and fungus.

VAUGHAN'S FLORISTS' FLOWER SEEDS

THE BEST IN AMERICA

ASPARAGUS PLUMOSUS NANUS.

We are Headquarters on the Seeds of this.

Our Position in the Flower Seed Business

WE handle Flower Seeds in large quantities and have most of the popular sorts grown on contract by reliable growers in Europe and this country. We are personally acquainted with them and have repeatedly inspected their cultures. In many cases we furnish our own specially selected stock seed.

These facts and conditions place us in practically the same position as the larger European Houses as to costs, etc., with the additional advantage that through intimate knowledge of American tastes, conditions and requirements we are perhaps better able to supply mixtures in the proper proportions of popular shades and colors.

We can make early deliveries, since we have many of the seeds that require early sowing sent to us as they mature.

WE not only offer really good novelties, but with them, our own specialties and many kinds little known in this country, which we deem of special value and worthy of introduction to our trade. Our years of practical experience in this country and Europe, continually reinforced, place us in the best possible position to satisfy the most critical lovers of Gardening.

FLOWER SEEDS FOR SOWING IN SUMMER

Cinerarias, Primulas, etc., also perennials. We issue a special circular in May. Should you fail to receive one, please write for it, as we have some very desirable novelties to offer.

PLEASE NOTE

Trade packets contain considerable more seeds than ordinary or retail packets, being based on Flosrists' needs for ordinary purposes. Florists invariably get trade packets unless otherwise specified.

VAUGHAN'S ASTERS.

THE CARLSON ASTERS

Our Aster seed is raised by *experienced* and *reliable* seed growers, in many cases from our own stock seed, and should not be compared to stock raised in the South or by experimenters who use no care and lack experience.

VAUGHAN'S UPRIGHT BRANCHING ASTER

"THE CARLSON."

A selection of the Pæony-Flowered type, this new Aster is now the favorite in the Chicago cut-flower market. The flowers are large and firm, the stems long and stiff and the colors are decided and pleasing. The plants grow about 36 inches high and come into bloom before the Branching Asters.

Our seed of this is saved from plants that were not blighted and were grown for the seed only. There is also a lot of seed in the market that is saved from inferior flowers, the best having been sold for cut-flowers.

HOHENZOLLERN ASTER.

The finest type of the Giant Comet or Ostrich Feather type of Asters. Much larger than the Giant Comet, the petals longer and more curled and twisted, and produced in greater abundance. Borne on long stems, which makes them cut-flowers par excellence.

Hohenzollern, White. This is considered the grandest Aster ever introduced. Plant tall-growing, branching and bearing on very long stalks, flowers on stalks of from 1½ to 2 feet in length, measure up to 8 inches across, being densely double, finely curled and bearing the greatest resemblance to a large-flowered Japanese Chrysanthemum. Unequalled as a cut-flower and highly effective for tall beds and groups. **Trade pkt., 25c.; ¼ oz., 40c.; oz., $1.40.**

Hohenzollern, Rose, Crimson, each, trade pkt., 30c.; ¼ oz., 40c.; oz., $1.50.

Hohenzollern Light Lavender, new, **trade pkt., 30c.; ¼ oz., 50c.; oz., $2.00.**

Early Flowering Hohenzollern Aster.

Like the above as to habit and shape of flowers, and about twice as large as those of the Queen of the Market, while just as early as that variety. One of our German seed grower friends writes us. "This is the most perfect of all White Asters up-to-date."

NEW LARGE-FLOWERING CALLA.

Calla Devoniensis.

BLOOMING CALLAS FROM SEED IN 1 YEAR.

The most beautiful and best Calla up to date, without a doubt. It is equally valuable for pots and cut. It produces from 3 to 4 times as many flowers as the older sorts.

The seedlings come true and will bloom profusely the first year. This Calla came from England about 6 years ago and is a great improvement on C. Aethiopica. Its willingness to bloom is phenomenal, while its culture is of the simplest.

One-year-old plants often produce from 6 to 8 flowers which are of great beauty. They are pure white, large and are borne on stout stalks. They are also good keepers. If sown at intervals of 4 to 6 weeks this Calla can be had in bloom all the year. **100 seeds, 75c.; 1000 seeds, $6.00.**

NEW EVER-BLOOMING ASTER, "IDEAL."

This new Aster produces, perhaps, more salable cut flowers to a plant than any other kind. The plants grow from 16 to 18 inches high and are in bloom from the beginning of August to the end of September almost uninterruptedly. In shape the flowers resemble the Victoria type, except that the petals are looser so as to give the flowers a very graceful appearance. **White, light blue, dark blue, crimson;** each, **trade packet, 15c.; ¼ oz., 30c.; oz., $1.00.**

SHASTA DAISY

IMPROVED SHASTA DAISY SEED.

Burbank's 1904 Selection.

Fluted, quilled, curled, fringed, laciniated, semi-double, pure white and lemon yellow, selected varieties. The very cream of the whole Shasta Daisy collection. New types offered for the first time. 300 seeds, $1.00, 1000 seeds, $4.50.

The seed we offer is Mr. Burbank's own selection. Shasta Daisies can be grown out of doors by everybody where it is not cold enough to kill oak trees. They bloom for several months—in California nearly all the year. The flowers are very large and graceful—averaging about four inches, often more, in diameter, with three or more rows of petals of the purest whiteness, on single strong, stiff, wiry stems, nearly 2 feet in length.

VAUGHAN'S SPECIAL MIXTURE OF ..... **CLIMBING NASTURTIUMS.** VAUGHAN'S SPECIAL MIXTURE OF ..... **DWARF NASTURTIUMS.**

There is no mixture of Nasturtiums equal to these two. We know it. Everything that is choice (including all the varieties on this page) is found in these mixtures, and we stake our reputation on their quality as well as on that of Vaughan's International Pansies, Vaughan's Petunias, "Vaughan's Best" Verbena, Phlox and all other flower seeds.

VAUGHAN'S PANSIES.

NEW PANSY PSYCHE.

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. Trade Pkt., 50c.; ⅛ oz., 75c.; ¼ oz. $1.35; oz. $5.00.

PSYCHE. Not one of the many Pansy varieties has such a winning appearance as Psyche. The plant is perfect in habit and very floriferous. Each flower is elegantly curled and undulated and in every respect a beauty in form and color. The characteristic five velvety violet blotches or eyes are surrounded by a broad white edge. Comes true from seed. Trade Pkt., 50c.; ⅛ oz., 80c.; oz., $5.00.

BRIDESMAID. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty with the finest Apple-blossom, and most strikingly setting off the dark blotches of the center. Trade Pkt., 25c.; ⅛ oz., 50c.; oz., $3.75.

"ROSY MORN" A bright purplish crimson margined with a clear white edge. In early spring the color is very deep and rich; as the weather grows warmer, the color gradually turns a pleasing rosy carmine and the silver edge becomes wider. Trade pkt., 25c.

GIANT PRETIOSA. The flowers of this novelty are similar to those of the Masterpiece Pansy, each petal is marked with a very large blotch of deep violet color, these blotches are surrounded by a brilliant crimson rose background and the ground color is margined with a pure white edge. A very effective and bright variety, and we are sure that this novelty will please our customers. Trade Pkt. (250 seeds), 25c.

NEW ORCHID-FLOWERED PANSIES. A most interesting type of Pansies of the Giant Flowered Class, containing a mixture of the most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals are marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and sort of plaited, which gives the flowers their resemblance to orchids. The colors range in the terra cotta shadings as well as in the flesh, orange, rose, pink and lilac. Trade pkt., (250 seeds), 25c.; ⅛ oz., 65c.

VAUGHAN'S "ELITE" MIXTURE OF PANSIES. This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors, nor any other of the well-known kinds. It is comprised of the cream of four Pansy specialists' choicest and most expensive mixtures and such new and novel kinds as listed above. It is a mixture that will please everybody who knows and likes Pansies and can appreciate quality in color, shape, size and substance, in fact everything that makes a perfect Pansy. Trade Pkt., 50c.; ⅛ oz., $1.00.

VAUGHAN'S INTERNATIONAL PANSIES

—THE WORLD'S BEST. This is a combination of as many separate colors, types, blendings and unique kinds as can be found in the world. It has been made up and sold by us for fourteen years; it **is the best general mixture in existence** and is most widely known and popular. It is used by most florists. It received the highest award at the Columbian Exposition and was awarded the gold medal at Omaha in 1898, and a medal at the Buffalo Exposition in 1901. It contains the cream of the Pansies listed on this page and besides 8 different strains, the crack selections of noted Pansy specialists, which we purchase every year especially for this mixture and which cannot be had in any other way. We beat the world on Pansies.

"VAUGHAN'S BEST" LARGE-FLOWERING SINGLE PETUNIA.

The Christmas Pepper.

For several years we have made a specialty of this Pepper at our greenhouses, where we have grown several thousands in a season. They are ready for the market in October and November, lasting until Christmas, and the plants have sold like the proverbial "hot cakes." The plants grow about 12 to 15 in. high and are covered with their scarlet fruit which stays on for months. It is a selection from the Celestial Pepper, but is now entirely distinct from it; the fruit is smaller, more chunky and the plants grow more compact, while the fruit is borne right above the foliage as shown in our illustration, and therefore present themselves to best advantage. This Pepper is of easiest culture. It is one of the prettiest pot plants and everybody can be successful with it. Complete cultural directions are printed on each package. **250 seeds, 25c.; 1000 seeds, 75c.** The seed we offer is of our own saving.

CHINESE PRIMROSE—TYPE OF INTERNATIONAL STRAIN.

NEW PRIMULA=BUTTERCUP.

A free-flowering yellow primrose coming into full bloom for Thanksgiving and Christmas trade, and continues covered with bloom during winter and spring. The buttercup primrose is unquestionably a fine thing. Those who had it on sale the past season regard it as one of the best flowering plants they have ever handled. It makes a fine house plant, and gives general satisfaction. It grows freely from seed, requires the same treatment as the Chinese primrose and makes a famous pot plant.

This primrose is so floriferous that it is necessary to keep the flower buds pinched out until about the first of October, in order to get the plant to make growth instead of all bloom.

By planting five or more seeds to the pan, according to the size required, you can have magnificent specimens. These should be made up during September, to give the plants time to fill the pan and cover it entirely with yellow blossoms. 250 seeds, 15c.; 1000 seeds, 50c.

VAUGHAN'S "ROSE-GROWER" BONE MEAL

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis: Ammonia, 4½ to 5½ per cent; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

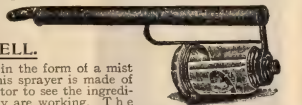
Sprayers.

One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Splendid for spraying pot plants in stores, etc. Always ready for use and never gets out of order. We have used one in our store for the past year and now find we cannot do without it. Price: Galvanized Tank, $5; brass tank, $6.

THE FOUNTAIN.



AUTO SPRAY.

AUTO SPRAY.

Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, $4.50; with Auto Pop, $5.50; solid copper reservoir, $6.00; with Auto Pop, $7.00; Brass Extension Rod, in 2-foot lengths, each, 35c.; Galvanized Extension Rod, in 2-foot lengths, 25c.

THE LOWELL.

For applying insecticides in the form of a mist or vapor. The reservoir of this sprayer is made of glass, which enables the operator to see the ingredients mixing and just how they are working. The glass sprayer will not corrode or rust, and if accidentally broken, can be replaced at once with a Mason Fruit Jar. Price: Each, 75c.; 3 for $2.00.

THE VAUGHAN GREENHOUSE BARROW.

We have had numerous calls for a wheelbarrow which could be used in greenhouses; the ordinary barrow being too wide for that purpose, and we had built for us a special barrow which will fill this want to perfection. It is strongly built, very neat affair, of the following dimensions:

Box 14 in. wide at the wheel end.
16 in. wide at handle end.
12 in. deep.

The bottom of the box is matched and glued together, and there is no crack against which a shovel might run. The wheel is of steel, 17 inches high, with a 2½-inch tread; the axle is 15 inches wide. The barrow is 20 inches wide over all, and is made of the very best material, nicely painted and varnished. The legs are reinforced by iron straps. We consider it the very best barrow of the kind in existence. Price, $4.50.

THE GLOBE GARDEN WHEELBARROW.—Measurement of box, 30 inches long, 19 inches wide at wheel, 24 inches at handles. Price, with steel wheel $3.60

VASES.

FLORISTS' GLAZED FIBRE.

Furnished in deep, rich brown glaze; absolutely water-proof. Largely used for displaying cut flowers. Can be used for many purposes. More desirable than glass or earthen, because they are light, strong and will not break if dropped. They pay for themselves in a short time.

These vases are shipped from Chicago. If wanted from New York add 10 per cent to prices below. These being made by a Western concern, we carried a stock in the same, so as to avoid delay from New York, but the variations are not important.

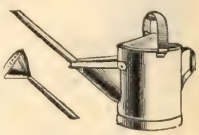
CLARA CEMETERY VASE.



It is one of the most useful as well as handsome articles ever placed on the market. Of beautiful solid mounted glass, 12 inches high. It takes the place of all the old tin cans, bottles and like unsightly receptacles often used in the cemetery where only the attractive and ornamental should be seen. The lower end is sharp pointed so it can be embedded about six inches in ground and stand firm. It will hold sufficient water to keep the flowers fresh and sweet, and will accommodate flowers with long as well as short stems. The vase is bell-shaped and the top has a diameter of about five inches.

Eureka.—The best little hand weeder for loosening soil around plants that we know of. Thin forged steel fingers. Short handled, 25c.; long handled, 35c

This new idea as a weeding device has made itself an immediate favorite with growers wherever it is tried. Does not cut or destroy the roots of plants. The pushing edge is thin enough to work easily through the soil, but is too dull to damage the stems of plants, should it come in contact with them. The inner edge is sharp. Takes out all the weeds; its oval shape permitting the operator to weed behind the plants while standing in front.

Especially adapted for working among Carnations, Roses, etc.

Price each 35 cents.

Awarded a Gold Medal at the Pan-American.

Vaughan's Cannas.

Awarded the GRAND PRIZE at the St. Louis World's Fair.

Our Canna fields at Western Springs when in bloom in August and September make a grand showing. They attract thousands of visitors, both professional and amateurs. We grow all of the standard kinds, all of the novelties, and discard the inferior ones every year as the improved merits of the newer ones are proven. We have won highest awards at four great expositions, Chicago, Omaha, Buffalo and St. Louis. The Grand Prize, one of the seven only awarded to American exhibitors in horticulture; was awarded to us at St. Louis. If you wish for the best and most complete assortment of Cannas write us. You will find them catalogued here.

Vaughan's Canna Stock.

Prices Quoted are for 3-inch Pot Plants.

Our Experience with Cannas. For over 16 years we have made the culture of Cannas one of our main specialties. We grew, last year in our place at Western Springs **over 10 acres** of standard sorts and novelties, besides 3,000 seedlings. We ought to know something about Cannas. We know that a great many so-called novelties are being sent out every year whose only claim for existence in many instances is a **new name.** We also know, and had to pay dearly for this knowledge, that ignorant and unscrupulous growers give most any name to their stock of Cannas, as long as the color is somewhere near correct. To them **any** red is Chicago, **any** yellow a Florence Vaughan, etc. **Our Cannas are true to name,** and furthermore, the stock we use for propagation has been specially selected on points of vigor, true type, color, evenness of height and size of flowers, and our stock can all, with good right and reason, be called "Improved." Cannas will not all propagate alike, no matter how carefully the selection is made, and a true Chicago or Egandale, for instance, cannot be grown and furnished at as low prices as some common red. We request our customers to take these facts into consideration when comparing prices. **The Best is always the Cheapest.**

French Novelty Cannas.

We have selected twelve very fine new Cannas picked from list imported from M. Crozy. They are a good lot, new colors, white, yellow and pink, also bronze-leaved sorts, all with good, big flowers. All have green leaves unless marked otherwise. **Each, $1.00; 6 for $5.00; 12 for $9.00.**

Mlle. Charlotte Mongeot. 3½ ft. Very large, well shaped flowers of beautiful cherry carmine. A free grower and one of the best introductions.

Mme. Paul Schmidt. About 3½ to 4 ft. Immensely large, well made flowers of beautiful red, edges blotched with a deeper shade on each petal. The whole flower being edged golden yellow.

Mlle. Clin. 3 ft. A grand new dwarf white. The very large flowers are of cream color when first open, turning to pure white after being fully open for 5 minutes. This is the whitest Canna ever produced.

Mr. Marius Chapoton. 3 to 3½ ft. A fine large flower. Vigorous grower, fine broad leaves and of good habit.

Victor Lemoine. About 3½ ft. It produces brilliant garnet flowers with purple foliage. Very free flowering.

Georges Birde. 3½ ft. Large flower of a beautiful canary color, slightly spotted carmine, a little heavier towards the center. An unusually good one of this color.

Mlle. Antonia Fichet. 3½ ft. A very large flower of beautiful delicate flesh tint, altogether a new shade in the Crozy kinds, and pronounced one of the best and largest flowers of his novelties.

Ami P. Russier. About 3½ ft. Large, round, well made flower of a beautiful orange, with dark carmine stripes. Good form and in size one of the largest.

Louis Montel. About 3½ ft. Very large well made flowers of a beautiful vermillion bordered yellow. Similar to Queen Charlotte, but much larger.

Sir De Boucharlat. 3½ ft. Large purple foliage and extremely large flowers of a beautiful purple set off with deeper shade of the same color.

Mme. Anthony Combet. 3½ ft. A variety of great merit, large, well shaped, round and substantial flowers of a beautiful salmon color with dark reflex. Extra fine.

Francois Nardy. 3 ft. Very large flowers of carmine red. Free blooming.

King Humbert.

Giant Flowered. Orange Scarlet. Bronze Leaf. This remarkable "Gold Medal" Canna has been the sensation of the past two years. Of all the wonderful flowering and foliage plants introduced, this one takes the lead for size, color and habit. It is a cross between the Orchid flowering and the French or Crozy type, combining the best features of both, the large flowers of one with the free blooming character of the other; the handsome leathery foliage with a strong, noble habit. It has the broadest leaves of all the new kinds.

We were among the first to recognize the fine qualities of this novelty, and have grown a good supply. We have taken the highest awards with it wherever shown in competition. For it we received a gold medal at St. Louis; it was the central figure in our "Grand Prize Exhibit." Be sure to order this one. Each, **60c.**; doz., **$3.50**; per 100, **$25.00.**

KING HUMBERT.

LADY BOUNTIFUL.

VAUGHAN'S DAHLIAS.

The Dahlia of today is as different and better in every way to the old stiff show Dahlia of ten to twenty years ago, as the Crozy Cannas are superior to the old, small-flowered type. The new Dahlias are not only more graceful in shape, many sorts resembling Japanese Chrysanthemums but they also bloom earlier. They are most profitable, both for cut-flowers and plant sales. There will be a great demand for Dahlias next season and it will pay up-to-date florists to have a good stock of these up-to-date varieties.

BURBANK'S NEW DAHLIAS.

We bought the entire stock of Luther Burbank's **new creations in Dahlias.** These will be ready for delivery in healthy pot plants April 15th.

Early orders will be given the preference if stock should become exhausted.

Mr. Burbank, says: "In my own belief after having tested Dahlias for many years, these are the best Dahlias in existence, considering the perfect doubleness, novelty, abundance of bloom, long strong stems, health and vigor of plant. I have selected these out of many thousands during the last 15 years and they are the first I have ever offered.

No. 1. "Burbank." Cactus Dahlia, deep clear dark-red. "The best keeper when cut."

No. 2. "Santa Rosa." Cactus Dahlia, of a lighter shade than No. 1. "A very early, abundant and continual bloomer."

No. 3. "California." Gigantic yellow. "The largest and the best yellow in cultivation."

No. 4. "Estrella." Cactus Dahlia. Snow-white with a trace of lemon-yellow in the heart, 6 feet.

No. 5. "Marigold." A very abundant bloomer, "Gloria" type, fine for cutting. Color, pink, shaded purple, 2 feet.

No. 6. "Mariposa." Flowers pale yellow, very large with perfect center. Blooms are borne on long, strong stems, 3½ feet.

All the Dahlias are of regular double form except "Marigold" which has the usual broad outside petals while the inside ones are narrow, crowded and tubular.

Prices: Any of the above, each **40c.** Any 3 for **$1.00.** Any 12 for **$3.40.** Any 25 for **$7.00.** The set of 6 (one plant each), **$1.70.**

BOSTON FERN

ELEGANTISSIMA

The New Fern

Nephrolepis Elegantissima.

The photograph of the frond on this page gives a very good idea of the feathery, plume like fronds, although one has to see the plant in growth to appreciate its beauty and value.

A sport from the Piersonii Fern, but is much more beautiful. It is as different from Piersonii Fern as that is from Boston. The small side pinnæ are again subdivided, producing an exquisite and beautiful effect, changing the entire character of the fronds, which measure less than half the length and about twice the breadth of the fronds of the Piersonii Fern. The fronds also assume an entirely different form, the side pinnæ standing at right angles to the mid-rib of the frond, making the frond appear double.

Nephrolepis Barrowsii.

An Improved Variety of the Piersonii Fern.

In this new variety we have a dense compact form of the Pierson Fern, in which the fronds are not only shorter and broader, but it grows bushier, and what is most important, its fronds are supported on stout, stiff mid-ribs, which gives the plant a much shaplier form. **Strong Young Plants, each 35c.; Doz., $2.00; Per 100, $15.00; 3 in. pots, each. 30c.; Doz., $3.00; Per 100, $25.00.**

New Nephrolepis Scottii.

Of much dwarfer and bushier growth than the Boston Fern. The fronds droop gracefully and are not as long and coarse as the Boston. It is a rapid grower and to see it in all stages of growth from a runner in the bench to a 14-inch pot specimen will convince you that it will be in great demand as a house fern.

The New Rose, Baby Rambler.

The Everblooming Dwarf Crimson Rambler.

On account of the many sterling qualities of this beautiful new Rose, there will be a tremendous demand for it the coming season. This demand will be further stimulated by the great publicity given it in our Flower Show Exhibitions of it in all western cities last autumn, and by thousands planted on our grounds at Western Springs, where it attracted the attention of every visitor.

Customers will please bear in mind that the plants we offer of this rose (as well as all others) are of extra good quality, well rooted, bushy compact stock, and will not take several weeks to recover from their trip when received by our customers. Having first offered this grand Rose to the American public it is our aim to send out only select plants.

This new French Rose, named Mme. Norbert Levavasseur, is a cross between Crimson Rambler and Glory of Polyanthas, retaining the color of the former with the exceedingly free flowering habit of the latter. The flowers are borne in clusters of 30 to 40, and the foliage is dark, glossy and profuse. During the three years we have grown this plant in our greenhouses it has never been without flowers. A large bed in our grounds was constantly in bloom until November, even in the hottest weather. This is a remarkable record. We have grown thousands of varieties but have never met one that possessed all these remarkable qualities combined.

New Everblooming Rose Etoile De France. This new crimson Hybrid Tea Rose is of French origin and is, we believe, destined to become very popular. Certainly, for outdoor blooming, Etoile de France will surpass any red rose in cultivation and our opinion is that it will become as much of a favorite as La France. It combines vigorous hardiness with rich color, and free flowering qualities. The buds are long, full and beautiful, of a superb velvet crimson color; as the flower expands the center discloses depths of rich vivid cerise. The flowers are very large and double, produced on long stems, retaining their beauty a long time; magnificent upper form with a delicious tea fragrance. Without any exaggeration we may assert that Etoile de France will be appreciated by all lovers of the queen of flowers. Hardy with slight protection.

New Gladiolus Princeps.

NEW GLADIOLUS PRINCEPS.

This giant Gladiolus, a real giant, both in size of flowers and growth of flower stalks was introduced by us in 1903. Produced by Dr. Van Fleet, one of the most able and careful hybridizers in this country. The brilliant scarlet and white blooms are truly Amaryllis-like in their form and size. The color is a rich crimson, with very deep shadings in the throat and broad blotches on the lower petals. The individual flowers are 5½ inches in diameter and sometimes one inch larger. The petals are very wide and rounded, forming an almost circular flower. Usually three fully expanded flowers are on a spike at one time. Spikes will produce 12 to 15 flowers. Stalks of plants grow 4 feet high. Princeps grown in a bed, with all the leading best named varieties of Gladiolus, can be distinguished immediately by its striking appearance. The bulb is a prolific one on growth of offsets so that the buyer may soon expect a good supply from the increase of his own stock. No variety of bulbous flower has attracted so much attention in Europe and America during the last three years as Princeps.

New Giant Flowered Gladiolus

Mrs. Francis King.

We control the entire stock of this variety which is introduced for the first time this season. The color of the flower is a light scarlet of a very pleasing shade which attracts attention at once. The flowers are very large, usually measuring from 3½ to 4 inches in diameter and are borne on long stems with from four to six flowers open at one time.

The petals being of good substance makes it an ideal shipper and as a cut flower it equals any variety we know for the length of time a stem will last after being cut. The growth is very vigorous and the foliage which is plentiful and of a deep green color makes a splendid setting for the beautiful flower. **Each, 15c.; per doz, $1.75; per 100,$12.00; per 1000, $100.00.**

Gladiolus America.

One of the finest varieties ever introduced for florists' use. Color is a beautiful soft flesh pink, very much like "Enchantress" carnation, only slightly tinged with lavender. Growth is very strong and healthy, producing a beautiful dark green foliage and a strong, erect spike of the largest flowers, well set to show to the best advantage. It has created a sensation in the cut-flower markets, selling for more than five times the price of other varieties. **Each, 20c.; per doz., $2.00; per 100, $15.00; per 1000, $100.00.**

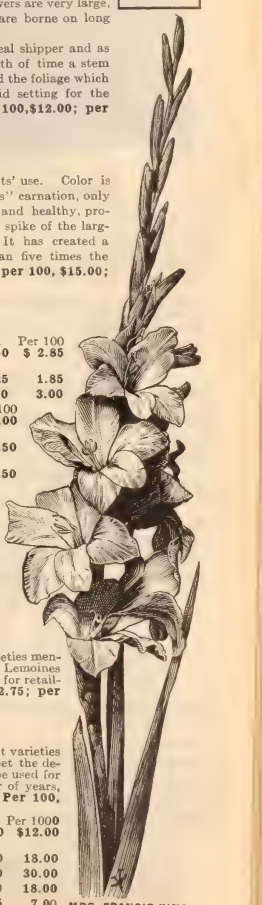
Gladiolus Mixtures

It is a well-known fact that some varieties of Gladiolus multiply much more rapidly than others and as a result Gladiolus grown in mixture, unless very carefully watched, will deteriorate very rapidly. Recognizing this fact we make all of our mixtures of these bulbs ourselves, using named varieties and mixtures of proven merit, by this method we can safely guarantee our customers satisfaction when buying our mixtures.



Rainbow Mixtures.

We have composed this mixture from the choice varieties mentioned on this page, also including the famous Childsii, Lemoines and Nanceianus sorts. Florists who want a fancy mixture for retailing can make no mistake in buying this. **Per 100, $2.75; per 1000, $25.00.**

Vaughan's XXX Florist Mixture.

This mixture is made up from named white and light varieties and mixtures of light colors only, and is designed to meet the demand of our florist customers for a mixture suitable to be used for cut flowers. We have offered this mixture for a number of years, and the increasing demand shows that it fills the bill. **Per 100, $1.75; per 1000, $15.00.**

NEW ANNUAL HOLLYHOCKS.

BLOOM FROM SEED IN 4 MONTHS.

This new strain possesses all the virtues of the double old-fashioned Hollyhocks, with the additional advantage of **blooming from the seed the first year.** Sow in March. The plants branch out freely, grow to a respectable height, and are not as easily attacked by the Hollyhock fungus and therefore retain their fresh, bright green leaves until late. The flowers are double, semi-double or single. Last year we sowed some of this seed in the open ground May 19th, and the plants bloomed from the end of August until frost. **Pkt. (100 seeds). 20c.; 3 pkts. for 55c.**

NEW DOUBLE ANNUAL HOLLYHOCKS, WHITE.

The plants of this new strain will, like the above, bloom the first year and stay in bloom uninterruptedly until late in the season. The plants branch out freely, grow 7 feet. The leaves are long and small, entirely different from those of the old type. Color pure white. **Pkt., 25c.**

LOBELIA, "BEDDING QUEEN."

This new variety is undoubtedly the most remarkable and magnificent of the dwarf Lobelias. The habit of the plant is very dwarf and compact, forming handsome little bushes which are entirely covered with large flowers of the deepest purple, contrasting most charmingly with the pure white eye. Its freedom and duration of bloom is remarkable, the flowers lasting until late in the fall. The best Lobelia for carpet beds, borders and pots. **Trade pkt., 15c.; ¼ oz., 25c.; oz., $1.50.**

MIGNONETTE GOLIATH.

This is by far the best Mignonette in existence, surpassing even our selected strain of Giant Machet. The plants grow in fine pyramidal bushes, the foliage is rich green, contrasting strikingly with the bright red of the flowers. The flower stalks tall and stiff, while the spikes are often 7 inches in length by a diameter of 2 inches at the base. Mignonette delight in very rich (not freshly manured) soil, and require frequent watering. **Trade pkt., 25c.; oz., $1.00.**

Rosy Morn. A bright purplish crimson margined with a clear white edge. In early spring the color is very deep and rich; as the weather grows warmer, the color gradually turns a pleasing rosy carmine and the silver edge becomes wide. **Trade pkt., 25c.; ½ oz., 60c.**

Marechal Niel. The flowers are very large, without any blotches or veins, and are of the same pleasing, delicate cream color as the rose whose name it bears. **Pkt., 10c.**

Siegfried. Of giant size, the flowers are borne on strong stems. They are mostly 5 spotted with a clear white margin. The colors are of rich brown shades such as are found in the English wall flowers. **Trade pkt., 25c.;**

Giant Volcano. Color, bright dark red, each petal being marked with a very large dark blotch. The flowers are of large size and good substance and the edges of the petals are curled like those of "Masterpiece," from which it is a selection. **Trade pkt., 25c.**

Orchid-Flowered. A most interesting type of Pansies of the Giant Flowered Class, containing a mixture of most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals being marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and plaited, resembling orchids. The colors are terra cotta, flesh, orange, rose, pink and lilac. **Trade pkt., 25c.; ½ oz., 70c.; ¼ oz., $1.25; oz., $5.00.**

Vaughan's "Elite" Pansies. This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors. It is comprised of the cream of four Pansy specialists' choicest and most expensive mixtures, and such new and novel kinds as listed above. **Trade pkt., 50c.; ½ oz., $1.00.**

VAUGHAN'S "GIANT PANSY MIXTURE."

Embraces, besides all the above shades and colors, five special strains not listed elsewhere in this Catalogue and which can only be had in this and our International Pansy. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau, the splendid Cassier strain with its delicate veinings. We have spared no expense to secure the newest, richest and finest sorts. **Price, ¼ lb., $14.00; oz., $4.00; ¼ oz.,60c.; trade pkt., 25c.**

VAUGHAN'S PREMIUM PANSIES MIXED.

Embraces all the varieties of the Fancy German Sorts. We have sold this mixture for the past seventeen years, and it has given general satisfaction. **Per pkt., 25c.; ½ oz., 80c.; ¼ oz., $3.00; oz., $5.50.**

IMPROVED GERMAN MIXTURE.

This is a mixture of three strains from different German growers, and is made up mostly of separate colors, with a sufficiently large percentage of white and yellow. **Per large pkt., 10c.; ½ oz., 20c.; ¼ oz., 30c.; oz., $1.00.**

VAUGHAN'S INTERNATIONAL PANSIES.

THE WORLD'S BEST. This is a combination of as many separate colors, types, blendings and unique kinds as can be found in the world. It has been made up and sold by us for fourteen years; it **is the best general mixture in existence** and is most widely known and popular. It is used by most florists. It received the highest award at the Columbian Exposition and was awarded the gold medal at Omaha in 1898, and a medal at the Buffalo Exposition in 1901. It contains the cream of the Pansies listed on this page, and besides 8 different strains, the crack selections of noted Pansy specialists, which we purchase every year especially for this mixture, and which cannot be had in any other way. We beat the world on Pansies. **Price per oz., $10.00; ½ oz., $5.00; ¼ oz., $1.50; trade pkt., 50c.**

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. **Trade pkt., 35c.; ½ oz., 60c.; ¼ oz., $1.00; oz., $4.00.**

PRIMULA OBCONICA GIGANTEA.

The thick leathery, dark- green leaves of this new giant flowered sort are roundish, their edges wavy and 2 in. across. The flower stalks are very strong, almost as thick as a pencil and like the leaf stalks are covered with curly hair. The well-formed flowers, lilac, rose and purple in color, are ½ in. in diameter and clusters 1½ in. across. With good culture this Primula attains giant dimensions and is equally valuable for pots and cut-flowers. Certificated by Royal Horticultural Society. **Pkt. (200 seeds), 25c.; 3 Pkts. for 65c.**

Our seed of Primula Obconica, is from the foremost German specialist of these plants.

"FIREBALL." The Best and Earliest of all the Flowering Sage. Blooms all the Time.

SALVIA SPLENDENS FIRE "BALL."

Of the many sorts of Salvia now cultivated, this splendid novelty undoubtedly is the finest of all. It has larger flowers and is also more free flowering than any other kind. The bushy plant 20 in. high is covered with long broad flower spikes with a great number of flowers of the most fiery scarlet. The plants branch freely and are profuse bloomers, the side shoots often producing 4 to 6 flowering spikes so evenly divided over the foliage and of such erect habit as to hide the foliage. It is the earliest of all, flowering by the beginning of July and continuing without a break until frost. **Pkt., 25c.**

Sweet Peas.

Please Note.—We carry about 80 different kinds of Sweet Peas, but list here only those most suitable for florists.

Any of the following, per oz., 5c., except where noted.

Dorothy Eckford. "The grandest pure white. In addition to its pureness it is a grand giant flower, also robust in growth and stem, with no tendency whatever to tinge or go pink; the plant is very short jointed, and grows an enormous mass of bloom." **¼ lb., 15c.; ½ lb., 20c.; lb., 40c.; 10 lbs., $3.50.**

Florence Fraser. An Improved Blanche Ferry. Color, pink and white; flower stems 12 to 14 inches long and very stout, bearing three or four large blooms. A strong, vigorous grower and a free early bloomer. It surpasses Blanche Ferry in vigor, flower and stem, freedom and earliness. **¼ lb., 20c.; lb., 60c.**

Flora Norton. It is a very bright blue, quite different from Countess of Radnor and kindred varieties, being a brighter blue and clearer color. **Oz., 10c.; ¼ lb., 25c.; lb., $1.00.**

Mrs. Geo. Higginson, Jr. A clear delicate light blue, showing practically no tint of mauve. It is a thing our growers have been working for for years, and while it is not any larger than the old Countess of Radnor, it is particularly fine shade. It is especially valuable for florists, and is a decided novelty. **Oz., 10c.; ¼ lb., 25c.; lb., $1.00.**

COUNTESS SPENCER HYBRIDS.
THE NEW ORCHID-FLOWERING SWEET PEA.

The type and form of these is a complete departure from anything yet introduced. Both the wings and standard are very large, and its graceful form together with the immense size, makes it by far the most attractive variety in existence. There are five or six distinct shades contained in this mixture, but all are of the large flowering type and of the same form. **Oz., 10c.; ¼ lb., 20c.; lb., 60c.**

King Edward VII. A true giant flowering variety, with strong stems and growth, with no inclination to burn in the sun. A fine variety, much brighter than either **Mars** or **Salopian; ¼ lb., 20c.; lb., 50c.**

Knowledge of the Needs of Market Gardeners.

We Make a *Specialty* of Seeds for Market Gardeners and Florists.

ALL of our contracts with our growers are made with the understanding that our seeds are grown for this purpose. It is well known that such stocks need special care. Cabbages when planted out for seed must be selected for uniform heads. Onion bulbs must be of the right shape and color and with small necks. Beets must be smooth, and true in type and color, and so on through the list.

We do not aim to make cheap prices, but to meet the market gardener's requirements according to our standards at the best possible value.

When ordering be sure that we understand exactly the kind of vegetables that your market or your particular trade requires, and we will supply the same. Market gardeners know that every city has favorite varieties in most leading vegetables. One market needs a scarlet Radish, another a white tip variety; one a curled Lettuce, another a smooth leaf; one a dark red Globe Onion, another a round yellow Globe Danvers, and so on through the list.

Write us at any time regarding your needs and we shall be glad to advise you.

BONVALLET'S GIANT ASPARAGUS.

NEW ASPARAGUS.

Bonvallet's Giant.

This new Asparagus brings the highest prices in the Chicago market, and is in great demand for its flavor and its great size and whiteness. Its superior qualities are: **EARLY BEARING** of extra long spears, which are tender and of fine flavor. **LASTING QUALITY.** Since the crown does not divide, it yields large shoots for a longer time than any of the older kinds. **RESISTANCE TO THE ASPARAGUS RUST,** which has been so disastrous to many asparagus beds.

TWO-YEAR-OLD SELECTED ROOTS. Doz., 25c; 25 for 50c; per 100, $1.75; 250 for $3.25; per 1,000, $12.00. If by mail, add 20c per 100 for postage.

Asparagus Seed. The seed should be sown in March or April, just as soon as the ground can be worked, in good, rich, mellow soil; in drills one foot apart, then covered with earth from ½ to ¾ in. deep.

DAVIS KIDNEY WAX.

BEANS--Bush.

GREEN POD VARIETIES.

For another year Bush Beans are scarce. High prices bring out inferior stocks which in ordinary years would be unsalable. Our Beans are all new crop, grown especially for us, and inspected by us for purity. We wish to divide the limited amount of Beans we have as equally as possible among our customers. Therefore, we list these only by the peck. Persons desiring larger amounts should write or call, and if we possibly can we shall quote by the bushel. The question this year is not one of price but supply.

The leaves are very curly and in flavor they are unsurpassed. CROSBY'S EGYPTIAN.

The most desirable sort for small beets for early market, as it is in presentable market shape quicker than any of the others.

VAUGHAN'S IMPROVED LATE FLAT DUTCH.

DANISH BALLHEAD.

EARLY ALLHEAD OR FAULTLESS.

CABBAGE

VAUGHAN'S SURE HEADING SEED

IMPROVED Early Spring

"New Early Flat Head"

Also known as the Eureka Early. This is a cross between Jersey Wakefield and Succession, and its mixed blood is plainly shown in the stock, the leaves indicating the Wakefield growth. By careful selection for five years we have secured an early flat heading variety, having the thick leathery leaves of the Wakefield and producing slightly rounded heads at practically the same date as the pointed Wakefield. The plant is of robust habit, dwarf growing and with but few outside leaves. A very reliable header of best quality. We have great faith in this variety as a truly valuable acquisition for the market gardener's list, and it is giving satisfaction wherever planted by them. **Pkt., 10c.; ½ oz., 15c.; oz., 25c.; 2 oz., 40c.; ¼ lb., 60c.; lb., $2.15.**

Early "Allhead" or Faultless

Our seed is grown on Long Island by the originator. If a gardener or amateur were to plant but **one** variety of cabbage he could get none that would answer all purposes as well as the **Early "Allhead."** For uniformity, reliability of heading, size, earliness and quality it has no equal. It is also very profitable, since the outer leaves are so few, a close planting can be made, and 1,000 more cabbages per acre be grown than from seed of other sorts. **5 lbs. (by express) $9.00; per lb., $2.00; ¼ lb., 60c.; 2 oz., 35c.; oz., 20c.; ½ oz., 15c.; pkt., 5c.; postpaid.**

EARLY JERSEY WAKEFIELD — VAUGHAN'S SELECTED

The best early Cabbage in cultivation. It forms fine solid heads of good size, conical in shape, with very few outside leaves, and of the best quality. We offer this as the earliest strain of this standard variety. **Grown only from selected heads.** Our strain is remarkably pure, warranted to give satisfaction.

Large or Charleston Wakefield

This sort forms uniform solid heads, considerably larger than the Early Wakefield, and matures only a few days later; on clay ground it will mature just as early. Largely planted by gardeners in the South.

EARLY CHANTENAY.

VAUGHAN'S SELECT DANVERS.

CARROTS

FOUR POUNDS TO THE ACRE

Our Carrot Seed is raised by experienced and careful growers who know the importance of selection and isolation and practice it. Our seed is clean, pure and true to name and should satisfy any market gardener, no matter how critical.

Early Chantenay — The Best Bunching Carrot.

This is the best early Carrot in existence, one which market gardeners should plant for their main early crop. The Carrots grow about six inches long, are stump rooted, very smooth, deep red, fine grained, sweet and sugary, and not apt to crack open while growing. An excellent table sort and a heavy cropper. Our seed is most carefully selected. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.; 5 lbs., $2.75.**

GUERANDE, OR OXHEART

A thick Carrot, 5 inches long and very blunt at the lower extremity. It grows very rapidly and the roots attain a weight of more than a pound. It is tender, of good flavor and of a deep red color, and is a variety we can recommend to all market gardeners. **Oz., 10c.; ¼ lb., 20c.; lb., 60c.; 5 lbs., $2.75.**

Vaughan's Selected Danvers

The Best Carrot for every purpose

For over 20 years have we sold this selected stock, and we never have enough seed to supply the demand. All the gardeners in Chicago know it, and plant no other if they can get ours. It is the most uniform in existence, always of good color, a splendid yielder and of excellent flavor. It is one of the easiest Carrots to harvest, will yield more tons to the acre than any other. We are proud of being the owners and distributors of this Carrot. It is one of the specialties which has made Vaughan's Seeds synonymous with "Best Seeds." **Oz., 10c.; ¼ lb., 25c.; lb., 85c.; 5 lbs., $4.00.**

CAULIFLOWER, VAUGHAN'S EARLIEST DWARF ERFURT.

CAULIFLOWER

No seed is more important than this, as every gardener knows. It is one of the seeds in buying which price should never be questioned.

VAUGHAN'S EARLIEST DWARF ERFURT

Vaughan's Earliest Dwarf Erfurt combines all pedigree points—earliness, purity of color, dwarf habit, fine grain. This seed will produce cauliflowers worth the highest market price. It cannot be sold cheap for above reasons; but the shrewdest gardeners find it the most profitable. **Lb., $30.00; ¼ lb., $8.50; oz., $2.50; ½ oz., 75c.; pkt., 25c.**

Extra Early, or Second Erfurt A very fine strain, producing large white firm heads, close and of excellent quality. **It is dwarf, extra early, and always certain to head,** for early or late. We sell this largely to gardeners, who prefer it to Snowball. **Lb., $20.00; ¼ lb., $5.00; oz., $1.50; ½ oz., 50c.; pkt., 10c.**

Danish Snowball This is a grand second early. It is the result of long, careful selection, and uniformly produces even, regular heads. Through many seasons it has proved itself reliable, and gardeners can trust it every time. **Lb., $20.00; ¼ lb., $5.00; 2 ozs., $2.75; oz., $1.50; ¼ oz., 40c.; pkt., 10c.**

Large Early Erfurt This is a vigorous growing variety, with large, white, firm heads. It is the very best sort for a second crop. **¼ lb., $2.50; oz., 75c.; ½ oz., 40c.**

CAULIFLOWER, VAUGHAN'S NEW SNOWBALL.

CAULIFLOWER

Vaughan's New Snowball

The Best for Early and Late Summer and Fall Crops. Always Sure to Make a Solid White Head.

We know of no better type of this variety—**very early, smoothly rounded heads,** fine grained, compact, even in size. This variety, while a first early, is better adapted generally to fall use than the large late sorts commonly used for that purpose. **We stake our reputation on its merits against all comers.** All we want is that our customers try it—everyone who uses cauliflower, according to his needs—from packets to pounds. The habit of the plant is close growing and compact, and plants can be set closely together, from 18 to 21 inches. Every plant which did not produce a **perfect head** was discarded when selecting our stock plants for seed. Our customers have found it, by careful tests, fully equal to the best Cauliflower which they have ever grown. "Vaughan's New Snowball" is put up in packages as follows: Pkts., ¼ oz., ½ oz., 1 oz., and ¼ lb., sealed with our trade-mark and with distinctive paper and printing. **Price, pkt., 25c.; ¼ oz., 65c.; ½ oz., $1.25; oz., $2 00; ¼ lb., $8.00; lb., $32.00.**

WHITE PLUME, VAUGHAN'S SELECTED STOCK.

CELERY

"Winter Queen" This is without doubt the most valuable variety of Celery for Winter and Spring use. It is also much stouter, thicker and heavier, with **double the amount of heart of any known Celery.** The plant is of close habit and blanches to a beautiful cream white. Ribs perfectly solid, crisp and of a delicious nutty flavor. Grow Winter Queen once and you will always grow it. **½ oz., 12c.; oz., 20c.; ¼ lb., 45c.; lb., $1.50.**

Vaughan's Giant Golden Heart **The best Celery for Winter storage.** Ever since we introduced this Celery it has gained in public favor and rightly so, for it is not only the best keeper, but **it is large, solid, as sweet as a walnut and of a beautiful golden color.** It is a selection from the Dwarf Golden Heart; grows much larger than its parent. **Lb., $2.00; ¼ lb., 50c.; 2 ozs., 30c.; oz., 20c.; ½ oz., 12c.**

White Plume, Self-Blanching—Vaughan's Selected Stock We have not yet found a Celery that is as early and of as good a flavor, as crisp and tender, as our selection of this sort. We sell large quantities of this seed to market gardeners, who find it **uniformly white and free from green or hollow stalks.** It is not a good keeper, but it is excellent for Fall and early Winter use. **Lb., $2.00; ¼ lb., 50c.; 2 ozs., 30c.; oz., 20c.; ½ oz., 12c.**

WHITE PLUME—Regular Stock. Lb., $1.50; ¼ lb., 40c.; 2 ozs., 25c.; oz., 15c.; ½ oz., 10c.

Golden Self-Blanching—Vaughan's Selected Stock **This is the best Celery for early use.** The stalks are much broader and heavier than those of the **White Plume,** and greatly superior in quality. It is ready for use nearly as early, producing dwarfer and much larger bunches of broad, heavy stalks, blanching to a **deep golden yellow.** The handsome color, crispness, tenderness, freedom from stringiness and nutty flavor of this variety make it only necessary to be tried in order to establish it as the **standard of excellence as an early sort. Lb., $3.50; ¼ lb., $1.00; 2 ozs., 60c.; oz., 35c.; ½ oz., 20c.**

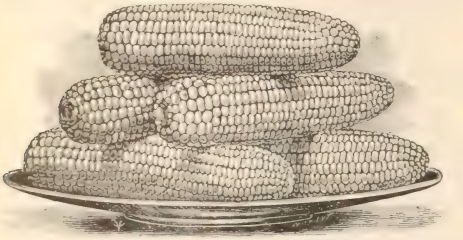
"Earliest of All" It is the earliest of all, being ready in June. The flesh is pure white and very tender. When full grown the roots equal those of the giant sorts in size and are **never woody.** On account of its rapid growth, this sort is most admirably adapted to late planting. **½ oz., 12c.; oz., 20c.; 2 oz., 35c.**

Giant Prague **Prager Riesen Sellerie.** This is unquestionably the largest and best Celeriac in existence. The roots are very large, almost globe-shaped, smooth. Flavor is excellent. **Lb., $1.50; ¼ lb., 50c.; oz., 15c.; ½ oz., 10c.**

"Delicatess" Produces perfectly smooth oval roots without any side roots, which **never rust. Pkt., 10c.; 2 for 15c., oz., 35c.**



Vaughan's Celery Manual The only practical and complete guide to **Celery Culture** ever published. By a practical grower of 20 years' experience; revised and published by J. C. Vaughan. **Price, postpaid, 50c.** This treatise will be sent free with a Celery Seed order of $3.00, or with any general order for other seeds amounting to $5.00, if requested.

For 10 years I have purchased my main supply of seeds from you and I have never had a single failure with your seeds. **They have always been satisfactory and just as represented.** O. G. BISHOP, Pontiac, Michigan.

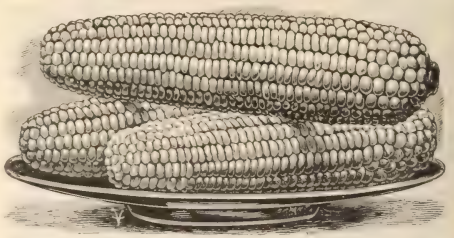
Vaughan's Extra Selected

SWEET CORN.

Please Note: Our Sweet Corn, like all our Garden Seeds, is grown from specially selected pedigree stock seed, and our prices must not be compared to those of "picked up" stock, raised by inexperienced growers who do not understand or practice such selection or isolation of the kinds.

MAMMOTH WHITE CORY.

Mammoth White Cory. One of the largest and best extra early varieties. Each stalk furnishes two or more large, fine shaped ears, which are fit for use before those of any other sort. The ears are twelve-rowed, very symmetrical and handsome, with no opening between the rows at the base. The grain is large, broad, very white, and of remarkably good quality for such an early sort. The size and beauty of this variety gives it ready sale even when the market is over-stocked. **Qt., 20c; ½ pk., 40c; pk., 75c; bu., $3.00.**



Improved Early Champion. **The Earliest Large Sweet Corn.** Produces ears 12 in. long in 60 days. This new variety is without question the earliest large Sweet Corn yet introduced, being only a few days later than the first early small sorts. Ears nearly as large as the Mammoth 12 rowed; pure white kernels, with medium sized white cob; very sweet, tender and full of milk; yielding two and three ears to the stalk. The best kind for early and late planting. **Qt., 20c; ½ pk., 10c; pk., 75c; bu., $3.00.**

STOWELL'S EVERGREEN.

Stowell's Evergreen. To supply the right seed of this favorite late variety has been our careful effort for many years. Seed grown near the Eastern Atlantic Coast has always shown by its flavor and shriveled ripened kernels the highest percentage of sugar known. Long, deep kernels are also a characteristic of selected seed of Stowell's. We plant such seed to raise our crops. We invite a comparison of the stock we offer with that offered by lower priced houses.

MUSK MELONS

Special Prices on 5, 10 and 20 Pound Lots.

Vaughan's Original Osage

This famous Melon is our own introduction, and we take special pride in maintaining the quality and superiority of our stock. We pay many times the prices given ordinary seed growers to get our seed raised in the best locality and then selected from merchantable early Melons. Seed obtained from culls left in the field after marketing is over can be bought cheaply, but is high at any price. However, seed taken from early choice market melons must bring a high price, though really a hundred times cheaper than the other. Salmon flesh, high table quality; during the last season was the best Melon on the Chicago Market. Our strain is dark skinned, but moderately netted.

Vaughan's Selected Stock Lb., $2.50; ¼ lb., 75c.; 2 oz., 45c.; oz., 25c.

Ordinary Seed—Entire field grown for seed, but seed not chosen from special Melons. **Lb., $1.00; ¼ lb., 30c.; oz., 10c.; 10 lbs., $9.00.**

Special Shipping Osage Slightly more netted than original type; especially selected for shipping. **Lb., $1.60; ¼ lb., 50c.; oz., 15c.**

Netted Gem—Rocky Ford.—Selected Stock This seed is carefully grown selected and saved at Rocky Ford under the care and supervision of one of the most careful shippers. It is well known that much seed offered as Rocky Ford stock has been saved by local growers from surplus or cull Melons by men who know nothing of the responsibility of the seed business. Careful planters should avoid this kind of stock. **Price: Per lb., 60c.; ¼ lb., 25c.; 2 ozs., 15c.; oz., 10c.**

Oval Netted Gem, Patoka Strain This strictly choice stock is selected by Paul Rose, the famous Melon grower, from a large crop grown by him for the shipping trade. It is the most perfect, even and uniform shipping strain that can be found. It is even more uniform in type than any of the special Rocky Ford selections that we have seen. With every order we send free a condensed essay on Melon Growing with notes from Mr. Rose's own experience. **Per lb., $1.00; ¼ lb., 30c.; oz., 10c.; 5 lbs., $4.50.**

Regular Stock—Grown by the best seed growers. First-class. No gardener need hesitate to plant. **Lb., 70c.; ¼ lb., 20c.; oz., 10c.; 5 lbs., $3.00; 10 lbs., $5.75.**

Round Netted Gem This is the true original type of Netted Gem, originated in Philadelphia; but our grower has improved it by weeding out, as far as possible, the oval type. **Price: Per lb., 60c.; ¼ lb., 20c.; oz., 10c.; 5 lbs., $2.50; 10 lbs., $4.25.**

Tip Top Selected Stock. A melon we recommend to every lover of this luscious fruit and to every gardener who grows for the market. It is a yellow fleshed Melon of the very best quality; every Melon produced, big or little, early or late in the season, is a good one. They are sweet, juicy of finest flavor, eatable to the very rind. It is a strong grower and a heavy yielder and of handsome appearance. **Lb., $1.00; ¼ lb., 30c.; oz., 10c.**

Extra Early Hackensack This is a selection of the old Hackensack, which it resembles, but it is fully **10 days earlier.** The Melons weigh from 4 to 10 lbs. and are of excellent flavor. Those who grow for market should remember that it is one of the **best, as well as the earliest,** hardiest and most prolific of Netted Musk Melons. **Lb., $1.00; ¼ lb., 35c.; 2 ozs., 25c.; oz., 15c.**

Hackensack. Lb., 90c.; ¼ lb., 30c.; 2 ozs., 15c.; oz., 10c.

Vaughan's Paul Rose, or Petoskey

The best and most uniformly high quality table Melon introduced in ten years. No other seeds of Paul Rose Melons can equal our selection in quality, appearance, and evenness of type, because other growers have not the same knowledge or painstaking interest in perfecting the type. We say for Paul Rose Melon Seed come to headquarters. It will pay you. "This is a cross of the Osage with the Netted Gem, and combines the sweetness of the former with the fine netting of the Gem. It has also the firmness of meat and cheesy structure peculiar to the Osage. In this respect it is superior to any Melon in existence, because of this thick, solid flesh, free from stringiness, which does not become watery or 'break down' in keeping, retaining its form twice as long as any other shipping Melon. Ripens about 10 days earlier than the Osage. Flesh, reddish-salmon; outside green, netted like Gem." **Price:** Originator's Selected Stock Seed (Northern Michigan grown), **per lb., $1.35; ¼ lb., 40c.; 2 oz., 25c.; oz., 15c.**

Vaughan's Regular Stock: **Lb., 80c.; ¼ lb., 25c.; 2 oz., 15c.; oz., 10c.; 5 lbs., by express, $3.50.**

Emerald Gem Color, dark green; flesh, thick and of a delicate salmon color. For table quality it ranks very high; it is **one of the sweetest** melons grown. **Lb., $1.00; ¼ lb., 30c.; oz., 10c.**

Vaughan's Chicago Market **This we consider the best Nutmeg** for earliness of maturity, large and uniform size, thickly netted skin, small seed cavity, deep green flesh, juicy, delicious flavor and freedom from rot. **Lb., 70c.; ¼ lb., 25c.; oz., 10c.**

Mushrooms

The increase in the demand for this rich flavored Agrarius is wonderful, and yet the prices are not only maintained, but increased. We have been most successful in supplying with satisfaction our Imported English Spawn (Vaughan's Special) to market growers. For this purpose and to have a fresh supply always on hand, we make five importations yearly. We now supply annually, East and West, scores of wholesale Mushroom caves, sheds or greenhouses with their entire planting stocks of spawn.

Pure Culture "Garden City" Spawn The highest development in the art of spawn making. This new method of breeding the spores of Mushrooms in air tight tubes, so that the exact sort may be reproduced and the extent of the inoculation of the bricks positively known, will, it is believed, soon supersede others. By this selection of varieties the inferior yielding kinds are avoided. We now offer the Cream Brown variety which increases the yield from ½ to 1 lb. per square foot over other kinds. **Pure Culture Spawn, price per brick, 35c.; 5 lbs., $1.25, postpaid. By express or freight, 10 lbs., $1.25; 25 lbs., $2.75; 100 lbs., $10.00.**

Virgin French Mushroom Spawn These compressed tablets, about 3½ inches long and 1 inch thick, produce one type only of the best and whitest Mushroom. Full directions with each order. **Price, per tablet, 30c; per dozen, $3.00; prepaid.**

Water Melon

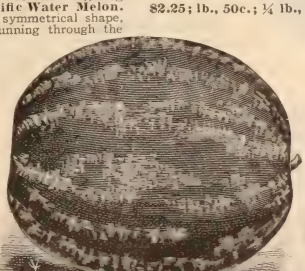
Kleckley's Sweet A large, oblong Melon, 20 inches in length by 10 to 12 inches in diameter, somewhat tapering at the ends. The skin is dark green, flesh bright scarlet, ripening close to the skin, the rind being only about one-half inch in thickness. The large, solid heart does not crack open when ripe. The flesh is sweet and sugary. The Melon is better for home use than for shipping, and we believe it is the best Table Melon to-day. Monte Cristo is identical. **5 lbs., $2.50; lb., 60c.; ¼ lb., 20c.; oz., 10c.**

McIver's Wonderful This is one of the sweetest Water Melons of all. The Melons attain a great weight, are of a very handsome appearance, **never crack** or lose their fine flavor in the wettest season. **Oz., 10c.; lb., 60c; ¼ lb., 20c.; 5 lbs., $2.50.**

Cole's Early This is the best **Early Water Melon** for the home market to-day. For sweetness and delicate texture of flesh it has no equal. The rind is thin but brittle, and therefore not suitable for shipping; for the home market we know of none better. Extreme earliness is its great merit. **5 lbs., $2.65; lb., 60c.; ¼ lb., 20c.; oz., 10c.**

Improved Kolb's Gem The seed of this is saved from large, smooth melons of adarker mottled green than the Kolb's Gem. The melons show a yellow blotch on the bottom. It is fully a week earlier in ripening, besides growing larger and a heavier yielder. **10 lbs., $3.25; 5 lbs., $1.75; lb., 40c.; ¼ lb., 15c.; oz., 10c.**

Triumph It is a cross between Duke Jones and Kolb's Gem. It has the handsome appearance of the former and the shipping qualities of Gem; **very early,** very prolific, deliciously sweet, and of enormous size. It possesses all the qualities that go to make up a desirable melon. **Lb., 50c.; ¼ lb., 20c.; oz., 10c.**



THE NEW ICEBERG. Lb., 75c.; ¼ lb., 25c.; oz., 10c.

Vaughan's Black Diamond A cross between Kolb's Gem and Hoosier King. Its prominent points of merit are its **extreme size and productiveness. Melons weighing 75 to 90 pounds** are frequent. **It is the most prolific Water Melon.** Its color is a rich, dark green, almost black. Of uniform symmetrical shape, roundish to bluntly oval, and this similarity of shape running through the whole field. **Oz., 10c.; ¼ lb., 20c.; lb., 50c.; 5 lbs., $2.00; 10 lbs., $3.50.**

The Dixie We can recommend it as one of the **best shipping melons** grown. Of very fine appearance, being darker than Kolb's Gem and more beautifully striped; unexcelled for eating. **Lb., 50c.; ¼ lb., 15c.; oz., 10c.; in 5 and 10 lb. lots, 45c. per lb.**

True Ice Cream **The great Home Market Melon.** It has too thin a rind for shipping unless packed in straw. Few, if any, surpass a **True Ice Cream** for quality and productiveness. **Lb., 50c.; ¼ lb., 15c.; oz., 10c.**

Winter Water Melon (Novelty) This Melon is early, earlier than Sweetheart and a very prolific bearer. The flesh is red, of extreme firmness, in fact almost as hard as citron, very brittle and deliciously sweet. In color it is very light green, almost white. The firmness of the flesh causes it to be the longest keeper of the Water Melon family. Placed in a cool place it will keep as long as a Hubbard Squash and still retain its delicious sweetness and flavor. **½ oz., 15c.; oz., 25c.; 2 oz., 40c.; ¼ lb., 60c.; lb., $1.50**

Nitrate of Soda vs. Farm Yard Manure.

Market gardeners are in the habit of using from 50 to 100 tons of stable manure every year. They will tell us that they could no well stop hardening to stop manuring, and they will continue to use year after year such enormous quantities of manure containing no ready formed nitric acid, which is the main source of nitrogen in plants. If they receive the manure for nothing, the labor of hauling it, handling and distributing it costs more than the amount of nitric acid which it naturally yields by decomposition in the soil could be purchased for in the form of nitrate of soda, and in these market gardens the soil is so charged with carbonic acid that it excludes the oxygen and decomposition proceeds very slowly, and to produce the necessary quantity of nitric acid more and more manure must be used. Try nitrate of soda. It acts like magic; it will pay ten times over.

5 lbs., 30c; 10 lbs., 50c; 25 lbs., $1.00; 100 lbs., $3.50.
At Chicago or New York. Prices subject to change without notice.

WE are taking a great deal of pride in our strains of Southport Onions; the white and yellow as well as the red. Our Seed Onions are selected with greatest care, and none are planted except they have all the necessary requirements of the true type. The Onions are almost perfectly globe shaped, with thin necks and clear skins.

We supply the largest market gardeners in Chicago and the west. No market gardener or Onion grower can afford to plant inferior stock, with only cheapness of price to recommend it when seed like ours is to be had, the results of a few ounces often paying twice the first cost of the best seed.

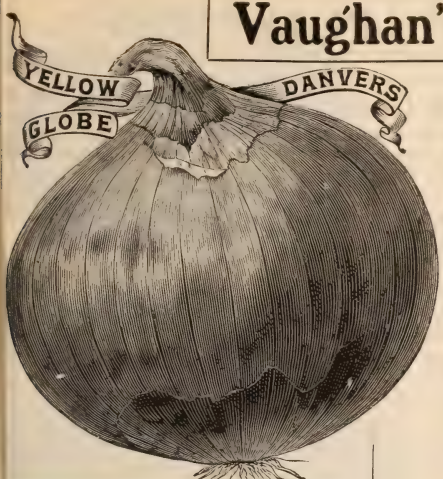
Ohio Yellow Globe. **Vaughan's Special Ohio Grown Seed, finest shaped, best colored and largest cropper of any yellow Onion.** This is an extra fine selection of the best colored, finest shape and heaviest yielding bulbs, entirely distinct from the old type Yellow Globe Danvers. It is earlier, has a smaller neck, is of perfect globe shape and uniform in size and color. **Oz., 20c; 2 oz., 35c; ¼ lb., 60c; lb., $2.15. By express, 5 lbs., $10.25; 10 lbs., $20.00.**

Vaughan's Apple-Shaped Red Globe. **This is the most perfect market type of Red Globe Onion.** Ideal for enclosing the most bulk in the most compact shape. Its color is **absolutely the darkest blood-red.** Its size is equal to any of the largest types of Red Globe. Fifteen years ago this Onion was first planted in the West, under the name of Extra Early Red Globe. Since that time, grown on rich land, carefully selected for size, shape and color, it has been improved a little each year, until we believe it now the very best of its class. ☞This Onion (our seed) produced in 1905 the best crops ever raised in the famous Racine, Wis., onion district. **Oz., 20c; ¼ lb., 70c; lb., $2.50.**

Extra Early Australian Brown Globe. Medium size, excellent keeper and very early. **Oz., 15c; ¼ lb., 45c; lb., $1.40.**

Prizetaker. **Vaughan's Selected Stock.** An excellent keeper, of finest flavor, handsome shape and enormous size, many single Onions having been raised to weigh five pounds and over from seed the first year. The **Prizetaker** grows always to a perfect globe shape, with a bright straw-colored skin; the necks are very small and the Onions always ripen up hard. Ours is American-grown seed. **Oz., 15c; ¼ lb., 40c lb., $1.40; 5 lbs., $6.75; 10 lbs., $13.00.**



White Bermuda. **True Teneriffe Grown.** These are the first early Onions which are shipped north in large quantities, both in Bermuda and our southern states, and imported to our northern markets in the early spring. In the southern part of the United States as well as Bermuda our imported Teneriffe Seed gives the best results. In our northern climate the bulbs are much smaller, but mature early, and retain much of the mild sweet flavor of the imported ones. While these are called White, the Onions are actually of a light straw colored skin, but pearly white, very mild flesh. Shape flat.
We offer seed imported direct from the best growers. **Oz., 15c; ¼ lb., 50c; lb., $1.60.**

Mammoth Silver King. This mammoth variety is one of the largest in existence, averaging from 15 to 22 inches in circumference, often weighing from 2¼ to 4 pounds each. It matures early and is of uniformly large size and fine shape, being flattened, but thick. The skin is of a beautiful silvery white, flesh snowy and tender, of mild, sweet flavor. Its striking size and handsome appearance, as well as mild flavor, recommend it for the fancy market. **Oz., 15c; 2 oz., 25c; ¼ lb., 45c; lb., $1.60; 5 lbs., $7.50.**

SOMETHING NEW.

Early White Welsh Onion. **For Green Onions.** This kind does not form a bulb, but is one of the best kinds for "Green Onions." The plants are perennial and can remain in the ground for years. This is the sweetest of all Onions. **Oz., 25c; 2 oz., 40c; ¼ lb., 75c; lb., $2.00.**

Vaughan's Pedigree Onion Seed.

"FANCY" YELLOW GLOBE DANVERS.

The shape is uniformly round; color, a fine brown, orange yellow. The entire crop ripens down at one time and winters well. No gardener can afford to experiment with doubtful seed. **Oz., 15c; 2 ozs., 25c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.25; 10 lbs, $14.00.**

LARGE RED WETHERSFIELD.

This is the Standard Red Variety and a favorite onion in the east, where immense crops are grown for shipment. Large; skin, deep purplish-red; form round, somewhat flattened; flesh, purplish-white; moderately fine grained, and stronger flavored than any of the other kinds. Very productive, **the best keeper and one of the most popular for general cultivation.** It is more inclined to form large necks, if planted on unsuitable soil, than the Danvers, but it is the best variety on poor or dry soils. **Oz., 10c; ¼ lb., 30c; lb., $1.15; 5 lbs., $5.25; 10 lbs., $10.00.**

Large Yellow Dutch, or Strasburg. **The best Yellow for sets.** We sell hundreds of pounds for that purpose. Flat; flesh white, fine grained, mild and well flavored. **Oz., 10c; ¼ lb., 30c; lb., $1.15; 5 lbs., $5.50; 10 lbs., $10.50.**

This Onion makes **the best and longest keeping sets in the world.** Earliest in the market. **Oz., 10c; ¼ lb., 30c; lb., $1.15; 10 lbs., $10.50.**

Because they produce ectly an Onion ready for market or the household m **four to six weeks earlier** than can be done by sowing of the seed, and the product of the set is ntical with that of the seed. This gives the market rdener ample time to **sell his entire crop** at a high ce, besides enabling him to sow for another crop the ne year.

Vaughan's "Succession" Dwarf Peas

These can all be planted at the same time, and they will be ready for use in succession.

Nott's Excelsior Height, 15 inches. As hardy as the earliest market sorts, but in quality equal to the Little Gem. It outyields that variety and the American Wonder 20 to 30 per cent, and is as early as the latter. The pods are about 3 inches long and each pod contains from 6 to 8 large peas, which are tender and of unusual fine flavor. It not only yields more heavily in bulk of pods than other dwarf varieties of the same season, but also of shelled peas. **Price, by express or freight, at buyers' expense, qt., 30c.; ½ pk., 95c.; pk., $1.85.; bu., $7.25.**

McLean's Advancer A great favorite and largely used by market gardeners, as the large, handsome, well-filled pods containing peas of finest quality for table use, are borne at the top of the stalk, and are easily gathered. Very vigorous in growth; height, 2 feet; seed green, very much wrinkled. About 10 days later than Nott's Excelsior. Our strain is remarkably pure and desirable. Very popular in some sections with canners. **Price: By express or freight, at buyers' expense, qt., 20c.; ½ pk., 50c.; pk., 90c.; bu., $3.50.**

Heroine In every way worthy the great popularity it has already attained. Elegant habit of growth, luxuriant foliage, pods remarkably long and handsome, slightly curved, well filled with large, luscious peas of fine flavor. This fine variety, apparently as good as Stratagem for all purposes, is far superior to that in habit, growing remarkably even and true. Height, 2 feet; seed green and very much wrinkled. About a week later than Advancer. **Price: By express or freight at buyers' expense, qt., 20c.; ½ pk., 65c.; pk., $1.15; bu., $4.50.**

HALF PECK, each, above three, for $1.90; ONE PECK, each, these three, for $3.60.

VAUGHAN'S TRUE STOCK

New Surprise Pea

The Earliest of All the Sweet Wrinkled Peas

THIS remarkable sort is a cross of Earliest of All and American Wonder possessing the quality of the American Wonder and is as early as the Earliest of the Dwarf Peas. The vines grow 24 inches high and need no bushing; the pods are well filled, containing 6 or 7 peas. The peas are not as large as those of the American Wonder, but **Surprise** is a far better cropper and ready for market **7 days before it.** "It is the earliest Pea we have ever tried." The Editor of the "New England Farmer" writes: "Of 33 varieties on trial it was the first to pick and the first to dry down." **SURPRISE** has the hardiness of Earliest of All. It is a far better Pea, and cannot be recommended too highly. It is, ordinarily, **not subject to mildew,** and can therefore be planted again in August for a late crop, a point which market gardeners and private planters will appreciate. **Price: Qt., 20c.; 2 qts., 35c.; ½ pk., 65c.; pk., $1.25; bu., $5.00.**

MAGNUM BONUM PARSNIP

CHAMPION MOSS CURLED PARSLEY.

Vaughan's Magnum Dulce Pepper

Decidedly superior to Chinese Giant or any other variety known to market in size and sweet quality. The result of many years' careful selection by a successful grower. It is fully as prolific as Ruby King, much stronger in growth and foliage as well as larger fruit. The flesh runs from ½ to ¾ inch in thickness, and is exceptionally mild and pleasant in flavor. Fifteen fruits fill a bushel basket. **Pkt., 15c.; 2 pkts., 10c.; 2 for 15c.; oz., 50c.**

If you want the best of all Peppers buy this. It was awarded a Certificate of Merit at the American Institute, September, 1903.

PARSLEY

The Champion is a prize-winning English variety, in appearance like a tuft of finely curled moss, and of a rich deep green color. It is slow to run to seed and very hardy; of easiest growth, a few seeds sown in onion rows use no space. Grows in window boxes. **Lb., 50c.; ¼ lb., 20c.; oz., 10c.**

PARSNIP

Magnum Bonum A very fine and greatly improved strain of Hollow Crown Parsnip, which we can recommend to all marketmen as a **money-maker.** The roots are smooth, not so long as those of the standard sort, somewhat thicker in diameter and much more easily pulled. A very heavy cropper. **Lb., 40c.; ¼ lb., 15c.; oz., 10c.**

Improved Guernsey An improved strain, which has given general satisfaction. The roots do not grow so long as those of the Hollow Crown, but are of greater diameter and more easily gathered. Of excellent quality. **Lb., 35c.; ¼ lb., 15c.; oz., 7c.**

Our Magnum Dulce Pepper (See Description Below)
Should be Grown by Every Gardener.

Vaughan's Improved Sweet Mountain It is a strong grower, very productive. The peppers when young are of a bright deep green color, without any shade of purple; when ripe they are of a very beautiful red; the flesh is thick, sweet and mild. They often grow 6 inches long by 4 inches through. Our strain has been selected with great care for over twenty years. **Lb., $2.00; ¼ lb., 60c.; oz., 20c.; ½ oz., 12c.**

Ruby King Grows 4½ to 6 inches long, by 3½ to 4 inches thick. The peppers are bright ruby red; one of the best for stuffed pickles. The meat or walls are quite thick, crisp and tender. **Lb., $2.00; ¼ lb., 50c.; oz., 20c.; ½ oz., 12c.**

Chinese Giant **Double the size of "Ruby King."** Not only is it early in ripening and productive for so large a pepper, but its size will cause it to sell most readily. The fruits are of thick blocky form and of glossy scarlet. They grow four or five inches broad at the top, and are of equal length. All uniformly large. The flesh is mild and unusually thick; it makes an excellent salad sliced and served like tomatoes. **Pkt., 10c.; ½ oz., 25c.; oz., 40c.**

Cayenne Pickling Of dwarf habit, and does not branch very much, but unlike the ordinary Cayenne, the peppers grow erect on the plant and are about 2½ inches long; just the right size for pickling. **Pkt., 10c.; ½ oz., 15c.; oz. 25c.**

Scarlet Turnip, White Tip

VAUGHAN'S SELECTED STOCK

For outdoor sowing this is the most important sort in the Chicago market, thousands of pounds being annually used. **Our stock of this is the best.** Some years ago we secured stock seed of just the kind that was wanted by the most critical hotel and grocery trade, and had it grown for us, paying an extra price for special and critical selection. This seed is raised from transplanted roots, and is just right in color, size and shape. We have many customers who buy large lots of this, always asking for "as good seed as they had last year." **Oz., 10c.; ¼ lb., 15c.; lb., 40c.; 100 lbs., $35.00.**

SCARLET TURNIP, WHITE TIP, ordinary stock; lb., 30c.; ¼ lb., 12c.

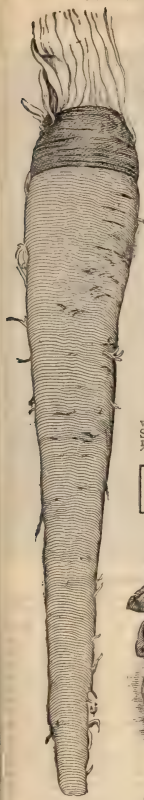
Vaughan's Early Scarlet Globe, White Tip

The best and quickest of the White Tips. An extremely quick growing sort; bright scarlet with a white tip, short tops and thin tails, of excellent quality. **5 lbs., $2.80; lb., 60c.; ¼ lb., 20c.; oz., 10c.**

The "Icicle." The Best Long White Radish

Entirely distinct, long, slender, pure white, the earliest and finest long white. It is ready for use fully as early as the Long Scarlet Short Top, with less foliage, rendering it most desirable for forcing. In the open ground the roots continue brittle, crisp and mild, until they are fully as large as those of the Long Cardinal. It is superior to the finest red ones in quality. Roots pure snowy white, four inches in length and half an inch in diameter; they retain their crispness and fresh, mild flavor until fully six inches long and an inch in diameter. **Oz., 10c.; ¼ lb., 15c.; lb., 50c.**

Early Long Scarlet, Short Top



The standard long variety for market and home gardens. Root long, growing partly above ground; straight, smooth, rich scarlet color; very crisp and a quick grower. Our seed is specially selected. **5 lbs., $1.75; lb., 40c.; ¼ lb., 15c.; oz., 10c.**

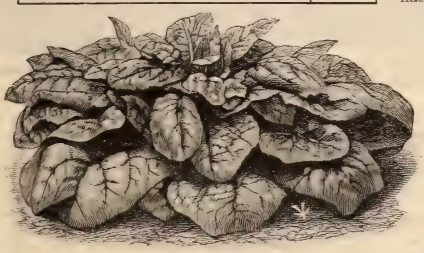
Salsify, or Oyster Plant

MAMMOTH SANDWICH ISLAND SALSIFY.

Sandwich Island Mammoth Grows uniformly to an extra large size, averaging **fully double** the size and weight of the roots of the old variety. The roots, notwithstanding their size, are of superior quality and very delicate flavor. **Lb., $1.00; ¼ lb., 30c.; oz., 15c.**

LONG WHITE SALSIFY. **Lb., 70c.; ¼ lb., 20c.; oz., 10c.**

Scorzonera (BLACK SALSIFY). **Oz., 15c.; ¼ lb., 40c.**



SORREL.

Sorrel—Sauerampfer-Oseille

Of the easiest growth. Sorrel is cultivated for its leaves, which possess a very fine flavor; boiled and served like Spinach. It also makes a delicious soup. **Lb., $1.00; ¼ lb., 25c.; oz., 10c.**

SPINACH

Vaughan's Norfolk Savoy Spinach

This is the variety so highly prized by the large planters about Norfolk, Va. **The leaves, remarkably thick and blistered,** extremely hardy, do not settle in the barrel in shipping as do the other varieties. No seed has caused planters more dissatisfaction than spurious varieties of this, whole crops having been plowed under or abandoned because they were not of the proper kind. Our strain has secured the trade of the largest and best growers in the country. **Lb., 20c.; 5 lbs., 80c.; 10 lbs., $1.40; 25 lbs., $3.25; 100 lbs., $12.00.**

Swiss Chard—A Money Crop

Cut and Come Again Spinach Far superior to the common Beet for **greens and equal to Spinach.** Sown early in the Spring, in rows 16 ins. apart, and the seedlings afterward thinned out to 6 ins. in the rows, it makes rapid growth of leaves, and **is fit for use for greens sooner than any other variety.** For Summer use it is superior to Spinach, because it can be cut throughout the entire Summer and Fall, when no Spinach is to be had. It is of almost the same flavor and it is much easier to wash and prepare for the table. **Lb., 40c.; ¼ lb., 15c.** No vegetable requires less care than this, and it is safe to say that none yields as constantly as this Spinach, producing uninterruptedly from July until Fall.

CUT AND COME AGAIN SPINACH.

SQUASH.

CHICAGO WARTED HUBBARD SQUASH.

Chicago Warted Hubbard Squash

Our strain of the above will produce mainly the type shown in our photo-engraving, which we consider the **ideal Hubbard** for home or for market. For thirty or forty years this Squash has ranked first for a winter keeper. It is shipped thousands of miles in carload lots from west to east every year. With the growing of it in a large way, it was found that the largest, heaviest, dark, rough-skinned specimens are most valuable and most salable. Because of this our selection of Chicago Warted Hubbard has been made. **Lb., 70c.; ¼ lb., 25c.; 2 ozs., 15c.; oz., 10c.; 5 lbs., $3.25; 10 lbs., $5.50.**

Hubbard An extra choice selection. None better in the market. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.; 5 lbs.. $2.75; 10 lbs., $5.10.**

Red or Golden Hubbard A perfect type of the Green Hubbard, except in color, which is a bright, deep orange-yellow, very showy and attractive. Flesh deep golden yellow, much richer in color than Hubbard, fine grained, cooks very dry and is of excellent flavor. Its keeping qualities are fully equal to, while in productiveness it far excels the Green variety. **Lb., 80c.; ½ lb., 25c.; oz., 10c.**

Delicious (fine quality). **½ lb., 65c.; lb., $2.25.**

Vaughan's Summer Crookneck. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.**

Summer Crookneck. **Lb., 50c.; ¼ lb., 15c.; oz., 10c.**

Mammoth White Bush. A very select and profitable strain for market. **Lb., 50c.; ¼ lb., 15c.; oz., 10c.; 10 lbs., $4.50.**

White Bush Scalloped. **Lb., 50c.; ¼ lb., 15c.; oz., 10c.**

Mammoth Golden Bush Scalloped. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.**

Yellow Bush Scalloped. **Lb., 50c.; ¼ lb., 15c.; oz., 10c.**

"Straight-Neck" Summer Squash

Market gardeners who ship early Squash to distant markets know the difficulty of packing the crook-necked variety in boxes to good advantage. In our "Straight-Neck" the bad feature of the crook has been overcome, and by continued selection the size has been increased, more uniformly in shape, improved quality. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.**

VAUGHAN'S TOMATO SEED.

SEE ALSO NOVELTIES.

THE NEW STONE.

VAUGHAN'S IMPROVED STRAIN.

THE Tomato for a Main Crop. Choicest seed. We call this the king of the Livingston kinds, which are the best types of large, smooth, solid "beefy" tomatoes. If asked to select one **main crop, market sort,** we advise this. Color, fine scarlet, stem (calyx) set high, core small and shallow, so that but little is lost when it is taken out of the fruit before slicing. We want to make what we say of this kind definite, because there are very many good kinds, and a long list is confusing. If in doubt, buy the New Stone for market or home use for that matter. ½ oz., 15c.; oz., 25c.; ¼ lb., 60c.; lb., $2.00.

EARLIANA.

THE EARLIEST LARGE SMOOTH RED TOMATO.

This Tomato is not only remarkable for its earliness, but for its very large size, handsome shape and bright red color. Its solidity and fine quality are quite equal to the best medium and late sorts. In some growing sections it is now planted almost exclusively on account of its superiority in earliness, size, uniformity, smoothness and sure-setting of fruits. This is a money-getter and every market gardener should plant it. The growth is compact, fruits being borne in the center in large numbers. The earliest Tomatoes shipped from New Jersey to the New York market are of this variety. ¼ oz., 20c.; oz., 35c.; ¼ lb., $1.00; lb., $3.50.

Acme, Vaughan's Selected Stock. One of the most popular kinds on our list, giving entire satisfaction. A favorite everywhere; large, round, smooth; slight purple tint; **one of the best.** Our seed has been grown with particular care and **we know there is none better.** ½ oz., 12c; oz., 20c; ¼ lb., 60c; lb., $2.00.

The Dwarf Stone Tomato. The largest dwarf in existence. In habit of vine it resembles Dwarf Champion, but is of stronger growth and more erect. The fruit resembles that of the tall "Stone" in color, shape, and is practically same size. The Dwarf Stone is fully double the size of the Dwarf Champion and yet equally as early. The strong upright habit of growth of New Dwarf Stone admits planting at least a half closer each way than usual. The shape of the fruit is perfect, with a good skin, which is free from cracks about the stem end. **Oz., 35c; 2 oz., 60c; ¼ lb., $1.10.**

Cream City. **The First Large Tomato to Ripen.** Remarkably prolific; flesh thick and solid. In this new Tomato we have a variety of exceptional merit, coming into use about a week earlier than Acme. It is perfectly smooth and always round and as large as Perfection. Color is purplish crimson. The Cream City is the most profitable Tomato for the market gardener and trucker, and is unsurpassed for canning purposes. ½ oz., 15c; oz., 25c; 2 oz., 40c; ¼ lb., 60c; lb., $2.40.

Early Michigan. There is no better variety than this for the general market or family use. Vines are large, with large, dark green leaves, vigorous and wonderfully productive. Fruit medium size to large. Color rich red. ½ oz., 15c; oz., 25c; 2 oz., 45c; ¼ lb., 70c; lb., $2.50.

Sutton's Best of All. One of the very best for under glass culture. Productive. Pkt., 10c; ½ oz., 25c; oz.,50c; 2 oz., 80c.

Frogmore Selected Forcing. A free cropping, free setting medium sized variety. Pkt., 15c; ½ oz., 25c; oz., 50c; 2 oz., 80c.

VAUGHAN'S "ROSE-GROWER" BONE MEAL

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

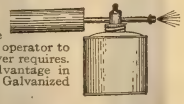
Sprayers.

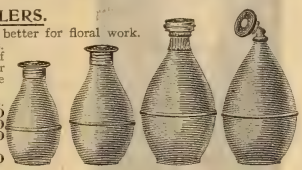
One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Splendid for spraying pot plants in stores, etc. Always ready for use and never gets out of order. We have used one in our store for the past year and now find we cannot do without it. Price: Galvanized Tank, $5; brass tank, $6.

AUTO SPRAY.



THE FOUNTAIN.

AUTO SPRAY.



Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, $4.50; with Auto Pop, $5.50; solid copper reservoir, $6.00; with Auto Pop, $7.00; Brass Extension Rod, in 2-foot lengths, each, 35c.; Galvanized Extension Rod, in 2-foot lengths, 25c.

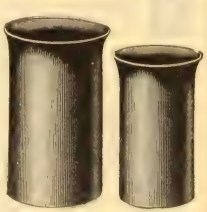
THE VAUGHAN GREENHOUSE BARROW.

We have had numerous calls for a wheelbarrow which could be used in greenhouses; the ordinary barrow being too wide for that purpose, and we had built for us a special barrow which will fill this want to perfection. It is strongly built, and a neat affair, of the following dimensions.

Box, 14 in. wide at the wheel end, 10 in. wide at handle end. 12 in. deep.

The bottom of the box is matched and glued together, and there is no rack against which a shovel might run. The wheel is of steel, 17 inches high, with a 2½-inch tread; the axle is 15 inches wide. The barrow is 20 inches wide over all, and is made of the very best material, nicely painted and varnished. The legs are reinforced by iron straps. We consider it the very best barrow of the kind in existence. Price, $4.50.



THE GLOBE GARDEN WHEELBARROW. Measurement of box, 30 inches long, 19 inches wide at wheel, 24 inches at handles. Price: with steel wheel $3.60

VASES.

FLORISTS' GLAZED FIBRE.

Furnished in deep, rich brown glaze; absolutely water-proof. Largely used for displaying cut flowers. Can be used for many purposes. More desirable than glass or earthen, because they are light, strong and will not break if dropped. They pay for themselves in a short time.

These vases are shipped from Chicago. If wanted from New York add 10 per cent to prices below. These being made by a Western concern, we cannot furnish the sizes exactly as given if shipped from New York; but the variations are not important.

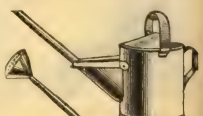
CLARA CEMETERY VASE.



It is one of the most useful as well as handsome articles ever placed on the market. Of beautiful solid mounted glass, 12 inches high. It takes the place of all the old tin cans, bottles and like unsightly receptacles often used in the cemetery where only the attractive and ornamental should be seen. The lower end is sharp pointed so it can be embedded about six inches in ground and stand firm. It will hold sufficient water to keep the flowers fresh and sweet, and will accommodate flowers with long as well as short stems. The vase is bell-shaped and the top has a diameter of about five inches.

Eureka.—The best little hand weeder for loosening soil around plants that we know of. Thin forged steel fingers. Short handled, 25c; long handled, 35c

This new idea as a weeding device has made itself an immediate favorite with growers wherever it is tried. Does not cut or destroy the roots of plants. The pushing edge is thin enough to work easily through the soil, but is too dull to damage the stems of plants, should it come in contact with them. The inner edge is sharp. Takes out all the weeds; its oval shape permitting the operator to weed behind the plants while standing in front.

Especially adapted for working among Carnations, Roses, etc.

Price each 35 cents.

Same as above.

L-LONGIFLORUM GIGANTEUM.

LILIUM LONGIFLORUM JAPAN GROWN.

MULTIFLORUM TYPE.

The true variety under this name will produce more flowers per bulb than other types, but it is difficult to secure true stock of this unmixed with other grades. Our Japan growers promise that our stock shall contain 80 per cent true type.

PRICES:	6 to 8 inch	Per 100,	$3 50	Per 1000,	$30 00
	7 to 9 inch	Per 100,	5 00	Per 1000,	45 00

GIGANTEUM (Dark Stem.)

While ordinarily considered later than other varieties of Longiflorum, it has proven with our customers as early as any, and when shipped and planted fairly late has formed fine plants even in growth and fairly early in season. The type is free flowering and true. The dark stems readily prevent mixture in the growing crop.

PRICES:	6 to 8 inch	Per 100,	$3 00	Per 1000,	$28 00
	7 to 9 inch	Per 100,	6 50	Per 1000,	60 00

	9 to 10 inch	Per 100,	7 50	Per 1000,	67 50

LILIUM HARRISII.

Owing to the very short crop of Bermuda bulbs this season we are only able to offer one size of these.

PRICES:	5 to 7 inch	Per 100,	$4 50	Per 1000,	$40 00

LILIUM CANDIDUM *Thick Petaled.*

It is known to most growers of this Lily that there are two strains. The flowers of each show in substance a marked difference. The better one shows a wider flower, with petals much more firm and greater substance. We import at a much larger cost the true ***"Thick Petaled"*** bulbs and they have given our customers excellent satisfaction.

We have arranged again this year for a large amount of bulbs, but would advise early ordering by our customers in order to be sure of their supply, especially of the larger sizes.

Vaughan's Ferns....	**Boston Ferns**	*NEPHROLEPIS EXALTATA BOSTONIENSIS*

We have five houses full of the most popular fern in all sizes from 2½-inch to 12-inch pots. All our plants are pot-grown, bushy stock; well furnished with fronds from the pot up and cannot be compared with the cheap long-drawn-up lifted stock from the bench.

These popular ***Nephrolepis Ferns*** (Bostoniensis and Piersonii) have proven the best decorative plants of recent introduction. They are all rapid growers, work up fast and are good sellers. Every florist should grow these ferns. We have the finest stock in the West.

The Boston Fern.

The New Fern Nephrolepis Elegantissima

The photograph of the frond on this page gives a very good idea of the feathery plume-like fronds, although one has to see the plant to appreciate its beauty and value.

A sport from the Piersonii Fern, but is much more beautiful. It is as different from Piersonii Fern as that is from Boston. The small side pinnae are again subdivided, producing an exquisite and beautiful effect, changing the entire character of the fronds, which measure less than half the length and about twice the breadth of the fronds of the Piersonii Fern. The fronds also assume an entirely different form the side pinnae standing at right angles to the mid-rib of the frond making the frond appear double.

NEW NEPHROLEPIS WHITMANI

The Improved Tarrytown Fern.

In this we have unquestionably the most valuable Nephrolepis of the Ostrich Plume type yet introduced, not only is it of dwarfer and more compact habit than the ***N. Elegantissima,*** but the pinnae being more deeply divided, gives the plant a much more graceful appearance, while another important point in its favor is the fact that not a single frond has ever reverted to the common Boston Fern.

BABY RAMBLER ROSE.

The Everblooming Dwarf Crimson Rambler.

This new Rose, which was sent out by the name of Mme. Norbert Levavasseur, is a cross between Crimson Rambler and Glory of Polyanthus, retaining the color of the former with the exceedingly free flowering habit of the latter, as well as its dwarf growth.

The plants are very vigorous, grow to a ***height of about 24 inches.*** The foliage is dark, glossy, profuse and ***remarkably free from insects and fungus.***

The flowers are borne in clusters, 30, 40 and 50 flowers to a cluster. They are in every way just like those of the Climbing Crimson Rambler and are ***produced perpetually.***

MRS. WILLIAM H. CUTBUSH.

New Dwarf Perpetual Polyantha Rose.

This charming addition to the Queen of Flowers is in every respect similar to the Baby Rambler, with exception of the color, which is a very pretty delicate pale pink of a most pleasing shade. The truss is very large, producing fifteen to twenty double flowers of good size. It is a most useful variety for pot culture or for bedding purposes, flowering profusely throughout the whole summer and autumn. We cannot too highly recommend this Rose, being certain that it will find a place in every garden.

Strong dormant 1 year plants, ready Jan. 1st, each, 75c.; doz., $8.00, per 100, $60.00.

NEW EVERBLOOMING ROSE

ETOILE DE FRANCE.

This new crimson Hybrid Tea Rose is of French origin and is, we believe, destined to become very popular. Certainly for outdoor blooming, Etoile de France will surpass any red rose in cultivation and our opinion is that it will become as much of a favorite as La France. It combines vigorous hardiness with rich color, and free flowering qualities. The buds are long, full and beautiful, of a superb velvet crimson color; as the flower expands the center discloses depths of rich vivid cerise. The flowers are very large and double, produced on long stems, retaining their beauty a long time; magnificent cupped form with a delicious tea fragrance. Without any exaggeration we may assert that Etoile de France will be appreciated by all lovers of the queen of flowers. Hardy with slight protection.

1 year dormant plants, per doz., $2.00; per 100, $15.00; per 1000, $125.00.

In shape, the flowers resemble the Victoria type, except that the petals are looser so as to give the flowers a very graceful appearance.

NEW ANNUAL HOLLYHOCKS.

BLOOM FROM SEED IN 4 MONTHS.

This new strain possesses all the virtues of the double old-fashioned Hollyhocks, with the additional advantage of **blooming from the seed the first year.** Sow in March. The plants branch out freely, grow to a respectable height, and are not as easily attacked by the Hollyhock fungus and therefore retain their fresh, bright green leaves until late. The flowers are double, semi-double or single. Last year we sowed some of this seed in the open ground May 19th, and the plants bloomed from the end of August until frost. **Pkt. (100 seeds), 20c.; 3 pkts. for 55c.**

NEW DOUBLE ANNUAL HOLLYHOCKS, WHITE.

The plants of this new strain will, like the above, bloom the first year and stay in bloom uninterruptedly until late in the season. The plants branch out freely, grow 7 feet. The leaves are long and small, entirely different from those of the old type. Color pure white. **Pkt., 25c.**

LOBELIA, "BEDDING QUEEN."

This new variety is undoubtedly the most remarkable and magnificent of the dwarf Lobelias. The habit of the plant is very dwarf and compact, forming handsome little bushes which are entirely covered with large flowers of the deepest purple, contrasting most charmingly with the pure white eye. Its freedom and duration of bloom is remarkable, the flowers lasting until late in the fall. The best Lobelia for carpet beds, borders and pots. **Trade pkt., 15c.; ¼ oz., 25c.; oz., $1.50.**

MIGNONETTE GOLIATH.

MIGNONETTE GOLIATH.

This is by far the best Mignonette in existence, surpassing even our selected strain of Giant Machet. The plants grow in fine pyramidal bushes, the foliage is rich green, contrasting strikingly with the bright red of the flowers. The flower stalks tall and stiff, while the spikes are often 7 inches in length by a diameter of 2 inches at the base. Mignonette delight in very rich (not freshly manured) soil, and require frequent watering. **Trade pkt., 25c.; oz., $1.00.**

NEW YORK MARKET.

This is an extra choice strain of Mignonette for greenhouse culture. Our seed is greenhouse grown, raised by a most careful grower.

The plants grow from 2 to 3 feet high and produce flower spikes up to 20 inches long, according to the quality of the soil, weather and treatment. The seed is all saved from selected plants grown from 3 to 5 shoots to a plant and was all saved from the spikes measuring from 10 to 18 inches long.

Packet (about 1000 seeds), 50c.; per oz., $6.00, per ¼ oz., $1.00.

White Pearl. Machet type. The long, erect stalks carry enormous dense spikes of white flowers which stand well above the undulate foliage and with their white and red stamina form a grand effect. **Trade pkt., 25c.**

GIANT BOULOGNE PANSIES.

Vaughan's Pansies.

Boulogne Giants. This is a special selection of a French Pansy grower; the flowers are of the largest size, of great substance and fine form, and are borne on particularly strong stems. They are mostly 3 and 5 blotched, delicately veined, while the colors are rich and varied. Like all high-bred Pansies they are shy seed bearers. **Trade pkt., 50c.**

Bridesmaid. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty the finest Apple-blossom, and most strikingly sets off the dark blotches of the center. **Trade pkt., 25c.; ½ oz., 45c.; ¼ oz., 75c.; oz., $2.60.**

Rosy Morn. A bright purplish crimson margined with a clear white edge. In early spring the color is very deep and rich; as the weather grows warmer, the color gradually turns a pleasing rosy carmine and the silver edge becomes wide. **Trade pkt., 25c.; ½ oz., 60c.**

Marechal Niel. The flowers are very large, without any blotches or veins, and are of the same pleasing, delicate cream color as the rose whose name it bears. **Pkt., 10c.**

Siegfried. Of giant size, the flowers are borne on strong stems. They are mostly 5 spotted with a clear white margin. The colors are of rich brown shades such as are found in the English wall flowers. **Trade pkt., 25c.;**

Giant Volcano. Color, bright dark red, each petal being marked with a very large dark blotch. The flowers are of large size and good substance and the edges of the petals are curled like those of "Masterpiece," from which it is a selection. **Trade pkt., 25c.**

Orchid-Flowered. A most interesting type of Pansies of the Giant Flowered Class, containing a mixture of most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals being marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and plaited, resembling orchids. The colors are terra cotta, flesh, orange, rose, pink and lilac. **Trade pkt., 25c.; ½ oz., 70c.; ¼ oz., $1.25; oz., $5.00.**

Vaughan's "Elite" Pansies. This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors. It is comprised of the cream of four Pansy specialists' choicest and most expensive mixtures, and such new and novel kinds as listed above. **Trade pkt., 50c.; ½ oz., $1.00.**

VAUGHAN'S "GIANT PANSY MIXTURE."

Embraces, besides all the above shades and colors, five special strains not listed elsewhere in this Catalogue and which can only be had in this and our International Pansy. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau, the splendid Cassier strain with its delicate veinings. We have spared no expense to secure the newest, richest and finest sorts. **Price, ¼ lb., $14.00; oz., $4.00; ½ oz.,60c.; trade pkt., 25c.**

VAUGHAN'S PREMIUM PANSIES MIXED.

Embraces all the varieties of the Fancy German Sorts. We have sold this mixture for the past seventeen years, and it has given general satisfaction. **Per pkt., 25c.; ½ oz., 80c.; ½ oz., $3.00; oz., $5.50.**

IMPROVED GERMAN MIXTURE.

This is a mixture of three strains from different German growers, and is made up mostly of separate colors, with a sufficiently large percentage of white and yellow. **Per large pkt., 10c.; ½ oz., 20c.; ½ oz., 30c.; oz., $1.00.**

VAUGHAN'S INTERNATIONAL PANSIES.

THE WORLD'S BEST. This is a combination of as many separate colors, types, blendings and unique kinds as can be found in the world. It has been made up and sold by us for fourteen years; it **is the best general mixture in existence** and is most widely known and popular. It is used by most florists. It received the highest award at the Columbian Exposition and was awarded the gold medal at Omaha in 1898, and a medal at the Buffalo Exposition in 1901. It contains the cream of the Pansies listed on this page, and besides 8 different strains, the crack selections of noted Pansy specialists, which we purchase every year especially for this mixture, and which cannot be had in any other way. We beat the world on Pansies. **Price per oz., $10.00; ½ oz., $5.00; ¼ oz., $1.50; trade pkt., 50c.**

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. **Trade pkt., 35c.; ½ oz., 60c.; ¼ oz., $1.00; oz., $4.00.**

THE HOWARD STAR PETUNIA.

Their ground color is a dark, crimson maroon, with a rich velvety texture. Showing through the ground color are violet veinings. From the center starts the points of a five-rayed star, which broadens half-way up, narrowing to a point at the margin of the flower. The plants are free growers, branching freely and attaining an average height of 18 inches by 24 inches in diameter. They are remarkably prolific bloomers, single plants often having 50 fully expanded flowers at a time. **Trade pkt., 20c.; oz., $1.00.**

CRIMSON FOUNTAIN GRASS.

(Pennisetum Macrophyllum Atrosanguineum.)

A beautiful and very graceful ornamental grass with foliage of a rich, deep coppery-bronze, bearing tawny-crimson plumes. For bordering a bed of Cannas or Caladiums, or alone on the lawn or in a mixed hardy border it is most effective and decorative. 3½ feet. **Trade pkt., 25c.; ½ oz., 50c.**

NEW GIANT-FLOWERED PETUNIAS.

The Petunia is one of the best plants for the summer flower garden, being always in bloom. The large flowered strains are very beautiful.

Queen Louise. Flowers of immense size, 6 inches and over in diameter, of a rich velvety crimson color with broad, white margin and deep yellow throat. A very striking sort. **Pkt., 25c.**

German Empress. Flowers of gigantic proportions, color light lavender with veins of a rich velvety purple. A magnificent sort. **Pkt., 25c.**

Quadricolor. Very large; the color is a most pleasing rose. The flowers are veined for two-thirds of their surface with a network of lustrous carmine, which merges into a deep blood-red towards the expansive throat. A large proportion of the flowers have 5 spatulate graceful markings of a decided yellow, radiating from the center of the flower in the form of a five-pointed star. **Pkt., 25c.**

Rose Queen. Mammoth sized flower, beautifully marbled rose on white ground with a most striking veining of the deepest crimson in the wide-open throat. **Pkt., 25c.**

Salmon Pink. A most charming companion to the above White Star. For conservatory and table decoration it is indispensable.

Blue Star Improved. By careful selection of large blooms for stock we have produced a strain of really Giant Blue Star Primula with much darker blooms; the dark blue flowers harmonize with the pale green foliage. A most valuable Star Primula.

"FIREBALL" The Best and Earliest of all the Flowering Sage. Blooms all the Time.

SALVIA SPLENDENS FIRE "BALL."

Of the many sorts of Salvia now cultivated, this splendid novelty undoubtedly is the finest of all. It has larger flowers and is also more free flowering than any other kind. The bushy plant 20 in. high is covered with long broad flower spikes with a great number of flowers of the most fiery scarlet. The plants branch freely and are profuse bloomers, the side shoots often producing 4 to 6 flowering spikes so evenly divided over the foliage and of such erect habit as to hide the foliage. It is the earliest of all, flowering by the beginning of July and continuing without a break until frost. **Pkt., 25c.**

Vaughan's Giant Branching White Perfection Stock.

A giant form of Princess Alice, obtained by selection; under good indoor conditions it will grow 4 to 5 feet tall, with 10 to 15 spikes, each carrying from 20 to 30 double white flowers of large size. With the originator it has never given less than 80 per cent double flowers. It is a valuable strain for cut-flower purposes. **Pkt., 50c.**

Stock, Intermediate mixed (Early Flowering). **½ oz., 60c.; trade pkt., 25.**

Sweet Peas.

Please Note.—We carry about 80 different kinds of Sweet Peas, but list here only those most suitable for florists.

Any of the following, per oz., 5c., except where noted.

Dorothy Eckford. The grandest pure white. In addition to its pureness it is a grand giant flower, also robust in growth and stem, with no tendency whatever to tinge or go pink; the plant is very short jointed, and grows an enormous mass of bloom. **½ lb., 15c.; oz., 10c.; lb., 40c.; 10 lbs., $3.50.**

Florence Fraser. An Improved Blanche Ferry. Color, pink and white; flower stems 12 to 14 inches long and very stout, bearing three or four large blooms. A strong, vigorous grower and a free early bloomer. It surpasses Blanche Ferry in vigor, flower and stem, freedom and earliness. **¼ lb., 20c.; lb., 60c.**

Flora Norton. It is a very bright blue, quite different from Countess of Radnor and kindred varieties, being a brighter blue and clearer color. **Oz., 10c.; ¼ lb., 25c.; lb., $1.00.**

Mrs. Geo. Higginson, Jr. A clear delicate light blue, showing practically no tint of mauve. It is a thing our growers have been working for for years, and while it is not any larger than the old Countess of Radnor, it is particularly fine shade. It is especially valuable for florists, and is a decided novelty **Oz., 10c.; ¼ lb., 25c.; lb., $1.00.**

COUNTESS SPENCER HYBRIDS.
THE NEW ORCHID-FLOWERING SWEET PEA.

The type and form of these is a complete departure from anything yet introduced. Both the wings and standard are very large, and its graceful form together with the immense size, makes it by far the most attractive variety in existence. There are five or six distinct shades contained in this mixture, but all are of the large flowering type and of the same form. **Oz., 10c.; ¼ lb., 20c.; lb., 60c.**

King Edward VII. A true giant flowering variety, with strong stems and growth, with no inclination to burn in the sun. A fine variety, much brighter than either **Mars** or **Salopian;** ¼ **lb., 20c.; lb., 60c.**

VAUGHAN'S "ROSE-GROWER" BONE MEAL

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent; total phosphoric acid. 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

Sprayers.

One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Splendid for spraying pot plants in stores, etc. Always ready for use and never gets out of order. We have used one in our store for the past year and now find we cannot do without it. Price: Galvanized Tank, $5; brass tank, $6.

AUTO SPRAY.

THE FOUNTAIN.

AUTO SPRAY.

Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. Price: Galvanized iron reservoir, $4.50; with Auto Pop, $5.50; solid copper reservoir, $6.00; with Auto Pop, $7.00; Brass Extension Rod, in 2-foot lengths, each, 35c.; Galvanized Extension Rod, in 2-foot lengths, 25c.

VAUGHAN'S CANNAS.

Awarded the GRAND PRIZE at the St. Louis World's Fair.

Our Experience with Cannas. For over 17 years we have made the culture of Cannas one of our main specialties. We grew, last year in our place at Western Springs **over 10 acres** of standard sorts and novelties, besides 3,000 seedlings. We ought to know something about Cannas. We know that a great many so-called novelties are being sent out every year whose only claim for existence in many instances is a **new name.** We also know, and had to pay dearly for this knowledge, that ignorant and unscrupulous growers give most any name to their stock of Cannas, as long as the color is somewhere near correct. To them **any** red is a Chicago, **any** yellow a Florence Vaughan, etc. **Our Cannas are true to name,** and furthermore, the stock we use for propagation has been specially selected on points of vigor, true type, color, evenness of height and size of flowers. And our stock can all, with good right and reason, be called "Improved." Cannas will not all propagate alike, no matter how carefully the selection is made, and a true Chicago or Egandale, for instance, cannot be grown and furnished at as low prices as some common red. We request our customers to take these facts into consideration when comparing prices. **The Best is Always the Cheapest.**

Early in May and planting time we will have the popular varieties in quantity. When ready to plant, let us make our best terms. Our stock of standard Chrysanthemums includes many not catalogued. Write if in need of such.

Vaughan's Dahlias.

The Dahlia of today is as different and better in every way to the old stiff show Dahlia of ten to twenty years ago, as the Crozy Cannas are superior to the old, small-flowered type. The new Dahlias are not only more graceful in shape, many sorts resembling Japanese Chrysanthemums but they also bloom earlier. They are most profitable, both for cut flowers and plant sales. There will be a great demand for Dahlias next season and it will pay up-to-date florists to have a good stock of these up-to-date varieties.

Three New Paeonia-Flowered Dahlias.

The flowers are semi-double, having 3 to 5 rows of long wide flat petals with shorter inner petals, showing the yellow center. The flowers measure 8 to 10 inches in diameter.

Price: We offer three kinds ready for delivery after April 15th in plants from 2½-inch pots, **each, 40c.; any 3 for 75c.; 12 for $2.50.**

Queen Emma. Lively rose and yellow margined. Very large and strong long stem.

Glory of Baarn. Beautiful rose pink, extra fine.

Germania. Brilliant carmine, 4 rows of petals, compact growth.

Burbank's New Dahlias.

The following descriptions are Mr. Burbank's:

"Burbank." Deep clear dark red with a sheen of purplish crimson, excellent bloomer, never under any circumstances shows the least symptom of an open center no matter how dry the weather or poor the soil. It is also the best keeper when cut. Large Cactus variety.

"Santa Rosa." Cactus form, large, lighter shade of red than "Burbank." This variety is a wonderful bloomer.

"California." Gigantic yellow. Belongs to the show section of Dahlias, but is a new type of plant. Plants stocky, three feet high, very vigorous and handsome. Blooms enormous, of pure rich yellow.

"Estrella" Perpect snow white Cactus with a trace of lemon yellow in the heart, most abundant bloomer.

"Mariposa." A very peculiar salmon purplish combination hue, excessively abundant bloomer. A unique variety, which shows up especially well at night under artificial light. Full double center, drooping habit. Decorative Cactus type.

Price: Small tubers or pot plants, each, 15c; any 12 for $1.25; per 100, $8.00. Large undivided field roots while they last, **each, 50c; per doz., $4.00; per 100, $25.00.**

Vaughan's Ferns . .

Boston Ferns

NEPHROLEPIS EXALTATA BOSTONIENSIS

We have five houses full of the most popular fern in all sizes from 2½-inch to 12-inch pots. All our plants are pot-grown, bushy stock, well furnished with fronds from the pot up and cannot be compared with the cheap long-drawn-up lifted stock from the bench.

These popular **Nephrolepis Ferns** (Bostoniensis and Piersoni) have proven the best decorative plants of recent introduction. They are all rapid growers, work up fast and are good sellers. Every florist should grow these ferns. We have the finest stock in the West.

NEW NEPHROLEPIS WHITMANI

The Improved Tarrytown Fern.

In this we have unquestionably the most valuable Nephrolepis of the Ostrich Plume type yet introduced, not only is it of dwarfer and more compact habit than the **N. Elegantissima,** but the pinnae being more deeply divided gives the plant a much more graceful appearance while another important point in its favor is the fact that not a single frond has ever reverted to the common Boston Fern.

Nephrolepis Scottii.

Of much dwarfer and bushier growth than the Boston Fern. The fronds droop gracefully and are not as long and coarse as the Boston. It is a rapid grower.

Nephrolepis Elegantissima.

A sport from the Piersoni Fern, but is much more beautiful. It is as different from Piersonii Fern as that is from Boston. The small side pinnæ are again subdivided, producing an exquisite and beautiful effect, changing the entire character of the fronds, which measure less than half the length and about twice the breadth of the fronds of the Piersonii Fern. The fronds also assume an entirely different form, the side pinnæ standing at right angles to the mid-rib of the frond, making the frond appear double.

"BABY RAMBLER."

Everblooming Dwarf Hardy Rose.

(MAD. N. LEVAVASSEUR.)

We were the first to offer this grand new hardy Rose in America. We are sending out sturdy, carefully grown plants of splendid value, that have not been raised from over-cultivated or weakened stock plants. Having first offered this grand rose to the American public, it is our aim to send out only the best possible plants.

A PRIZE WINNER. The Grand Silver Medal, Paris. Certificate National Horticultural Society, France. Certificate by the Horticultural Society of London. Certificate by National Rose Society, England. Gold Medal, Orleans, France. Gold Medal, St. Louis.

BABY RAMBLER.

This new French Rose, named Mme. Norbert Levavasseur, is a cross between Crimson Rambler and Glory of Polyanthas, retaining the color of the former with the exceedingly free flowering habit of the latter. The flowers are borne in clusters of 30 to 40, and the foliage is dark, glossy and profuse. During the four years we have grown this plant in our green houses it has never been without flowers. A large bed in our grounds was constantly in bloom until November, even in the hottest weather. This is a remarkable record. We have grown thousands of varieties but have never met one that possessed all these remarkable qualities combined.

Three Grand New Rambler Roses.

NEW RAMBLER ROSE, "LADY GAY."

A seedling from the popular Crimson Rambler, which it resembles in habit of growth and general effect. The flowers are of a delicate cherry pink color, which fades to a soft white. The foliage is very profuse and of a glossy deep green shade. The effect of a plant in full bloom, with the combination of the soft white flower, the cherry pink buds, and the deep green foliage, is indeed most charming. The plant is a vigorous grower and perfectly hardy. The flowers are very numerous and of good size; they are also delicately perfumed. This is a rose of highest merit and far superior in every respect to the Crimson Rambler. This is a new color in a rose, of which no one will become tired. It **forces** well and made a grand display at Boston Rose Show last March.

NEW RAMBLER ROSE, "HIAWATHA."

This seedling which attracts so much attention and evoked many favorable comments when exhibited for the first time at the spring exhibition of the Massachusetts Horticultural Society in March, 1902, is a distinct acquisition to the very popular Rambler class of roses. It is a seedling from Crimson Rambler. The flowers are single, and are of a deep intense crimson shade with the petals shading to a pure white at the base. The foliage is of a light glossy green. The remarkable beauty and the striking effect of a plant in full bloom must be seen to be thoroughly appreciated. Flowers very freely, and it is undoubtedly one of the best of the single roses now extant. It is an excellent plant for **forcing**, and is well suited for climbing or trailing. The plant is perfectly hardy, and the leaves and stems are very tough and less susceptible to the attacks of insects than any other rose in this popular class.

NEW RAMBLER ROSE, "LA FIAMMA."

A grand new rapid growing climbing rose, with dark glossy green foliage and perfectly hardy. When in bloom completely covered with large clusters of large single roses, it is a grand sight. The flowers are crimson and white, outer edge crimson, center white.

Sweetheart. It is a vigorous grower, and similar in habit to the ever popular Crimson Rambler. The color of the bloom when in bud is a bright rose, which fades to a soft white. Blooms are semi-double and average 2½ in. in diameter, delicately fragrant. Foliage, glossy dark green.

RAMBLER ROSE, HIAWATHA.

Two New Baby Ramblers.

PINK BABY RAMBLER ROSE.

This grand new bush rose is in every respect similar to the Baby Rambler rose, with exception of the color, which is a very pretty, delicate pink of a most pleasing shade. The trusses are large, producing 15 to 20 double flowers open at one time. Flowers profusely throughout the summer if planted out of doors, and all winter in the house. It is perfectly hardy. Stock limited. **Each, 35c; 3 for $1.00; per doz., $3.00.**

WHITE BABY RAMBLER ROSE.

In this bush rose we have a true white Baby Rambler, identical with the red and pink Baby Ramblers except in color, which is a pure white. Flowers continually throughout the season and is perfectly hardy with slight protection. Stock limited. **Each, 25c; per doz., $2.50; per 100, $15.00.**

New Rose, "Red Kaiserin."

(Mme. Jules Grolez.)

Kaiserin Augusta Victoria is well known and admittedly the best white summer-blooming rose. In this new rose we offer a **red** Kaiserin Augusta Victoria. We have tested this rose the past season and find it similar to the white in foliage, habit, shape and size of bloom, but the color of the flowers is a beautiful **cherry red.** Stock limited. **2½ in. pots, each, 25c; per doz.: $2.00; per 100, $15.00; 2 yr. old dormant plants, each, 50c; 6 for $2.00: 12 for $3.50; per 100, $25.00.**

New Everblooming Rose Etoile De France. Certainly, for outdoor blooming, Etoile de France will surpass any red rose in cultivation and our opinion is that it will become as much of a favorite as La France. It combines vigorous hardiness with rich color, and free flowering qualities. The buds are long, full and beautiful, of a superb velvet crimson color; as the flower expands the center discloses depths of rich vivid cerise. The flowers are very large and double, produced on long stems, retaining their beauty a long time; magnificent cupped form with a delicious tea fragrance. Without any exaggeration we may assert that Etoile de France will be appreciated by all lovers of the queen of flowers. Hardy with slight protection.

A First-class Novelty—"TAUSENDSCHON."

A New Climbing Rose.

Raised by several crossings between the well known Crimson Rambler, Tea and Polyantha Roses. This beautiful novelty surpasses all other climbing roses of this section, both in growth, foliage and beauty of blooms. The flowers appear in large clusters from the beginning of June till end of July. Each individual flower measures about 1½ inches across, and is of a beautiful soft pink, same color as Clothilde Soupert; later on changing into rosy-carmine. The plant is of strong vigorous growth, absolutely hardy and a most excellent variety to plant wherever a strong climber is desired. Very agreeable, as it is nearly thornless.

The shining dark-green foliage is perfectly hardy and never attacked by any disease or insects. All these good qualifications render it a first-class rose for covering walls, verandas, etc.

Strong 3 in. pot plants, grafted stock, ready May 1st. **Each, 25c; per doz., $2.50; per 100, $20.00.**

We accept no responsibility whatsoever for results in forcing cold storage stock.

Lilium Longiflorum Giganteum.

Forcing cold storage Lilies is now no longer an experiment, and the increasing demand for this class of stock indicates that florists are awakening to the profits to be obtained by forcing a few cases of Lilies during the summer months when bench space is practically earning nothing.

Price, 7 to 9 inch bulbs, per case (300 bulbs), $21.00; 2 cases (600 bulbs), $40.00; 4 cases (1,200 bulbs), $78.00.

8 to 10 inch bulbs, f. o. b. Chicago only, per case (130 bulbs), $12.25; case (225 bulbs), $20.

LILIUM LONGIFLORUM MULTIFLORUM. A freer bloomer than Giganteum and a much more graceful pot plant, but cannot be held in storage quite so late in season. Our bulbs are all packed for storage and in first-class condition.

Price, 7 to 9 inch bulbs, f. o. b. Chicago only, per case (250 bulbs), $12.00; 4 cases (1,000 bulbs), $45.00; per case (300 bulbs), $14.00.

Lilium Speciosum Rubrum.

One of the best Lilies for cold storage purposes, can be forced all the year round and is always a ready seller as a cut-flower. **Price, 8 to 9-inch size, per case** (225 bulbs), **$14.50; 9 to 11-inch size, per case** (125 bulbs), **$11.25.** Storage charges, 10c per case per month from May 1st, 1907.

Lily-of-the-Valley.

London Market Brand. All shipments go by express. Our Cold Storage Valley gives excellent satisfaction, giving strong spikes of bloom with from 12 to 14 bells and plenty of foliage. For the past two seasons our supply has not been equal to the demand and we have had to disappoint some of our customers. We would, therefore, urge that early orders be placed for total quantity that may be wanted during the season. Stock will then be reserved and shipments made as desired.

Price, January to July shipment, per 100 and less than 500, $2.00; 500, $7.50; 1,000, $14.00; 2,000, $27.00.

LILIUM SPECIOSUM RUBRUM.

Vaughan's Gladiolus Princeps.

See illustration, scale one-half natural size.

This "King of all Gladiolus" has become popular beyond every other variety, both in this country and throughout Europe. It has made a class for itself, and you do not have the best of all until you buy it.

The individual flowers are 5½ inches in diameter and sometimes one inch larger. The petals are very wide and rounded, well reflexed, forming an almost circular flower. The color is brilliant scarlet crimson with three broad white blotches on the lower petals. Spikes produce 12 to 15 flowers and grow 4 feet in height. It is exceptionally healthy and its flowering is continuous.

Mrs. Francis King.

New Giant Flowered Gladiolus.

We introduced this new variety in 1906 and everybody who has seen it growing or exhibited, tells us that we have not sounded its praises loudly enough, and that it will surely take a place in the first class for vigor of growth and brilliancy of bloom. Its color is light scarlet of a very pleasing shade which attracts attention at once. The flowers measuring 4 to 5 inches are borne on long stems and 4 to 6 are open on the spike at one time.

Each, 10c; per doz., 75c; per 100, $4.50; per 1000, $40.00.

Gladiolus America.

See illustration, scale one-fifth natural size.

In color it is a soft lavender pink, very light, almost a tinted white, spikes two and three feet long, very large spreading blooms, and luxuriant dark green foliage. It is evidently a favorite with florists already, bringing more than any other variety in the New York cut flower market. When cut it lasts in water a week or more, the blossoms retaining their vigor and delicate coloring to the last.

Each, 15c; per doz. $1.50; per 100, $10.00; per 1000; $75.00.

NEW EVER-BLOOMING ASTER, "IDEAL."

This new Aster produces, perhaps, more salable cut flowers to a plant than any other kind. The plants grow from 16 to 18 inches high and are in bloom form the beginning of August to the end of September almost uninterruptedly. In shape, the flowers resemble the Victoria type, except that the petals are looser so as to give the flowers a very graceful appearance.

NEW WHITE ASTER UNICUM.

This grand new Aster, two feet in height and of vigorous branching habit similar to that of the Hohenzollern Aster, differs essentially in form of flowers from all other large flowering classes. When the buds begin to show color they are composed of very fine, thread-shaped florets, gracefully curled and twisted towards the center, which in unfolding change into long, narrowly-channelled petals regularly expanded in all directions, presenting beautiful, loose flowers of wonderful form. 5 to 6 inches in diameter. Splendid variety for cutting and for exhibition purposes. **Trade Pkt., 50c.; ½ oz., $1.50.**

ELEGANCE ASTER.

THE ONLY BEAUTIFUL SINGLE ASTER.

Single Flowering Dahlias, Chrysanthemums, Paeonias, etc., have come in favor of late, and we feel sure that this new single Aster will be very much admired. The plants are strong and vigorous, are of handsome pyramidal habit, very free blooming and produce their beautiful flowers on long, slender stems. The flowers are from 2 to 3 inches in diameter, with small yellow centers, and last for a week when cut. The petals are broad and wavy, reminding of the Single Japanese Chrysanthemums.

NEW CASTOR BEAN, GIANT BLUE STEM.

(Ricinus Hybr. Panormitanus.)

A cross between Ricinus Cambodgensis and Zanzibarensis gave birth to this splendid hybrid, which inherits its color from the former, and from the latter its gigantic dimensions. Thus the stem and stalks at an early age are covered with a blue bloom, becoming later on quite dark, while the leaves measure 2 to 2½ feet, in South Europe even 3 feet in diameter. The plant has a noble, upright habit, and develops regular branches, while those of the Zanzibarensis mostly hang down and grow more or less irregularly. Wonderfully ornamental; for planting in isolated positions on lawns and for other decorative purposes where large specimen plants are required. **Pkt., 20c.**

COSMOS—Woodside Early Flowering.

NORTHERN GROWN SEED.

The Woodside Early Cosmos is the earliest flowering variety in cultivation, blooming fully two months in advance of the Giant strain. Seeds sown in open ground, in early May, will produce blooming plants in July, and continue a mass of bloom until killed by frosts. It is the result of painstaking selection, from a few plants, several years ago, which showed a decided tendency to earliness. This desirable trait is now so well established, that, instead of a few plants coming early, the Woodside Early Cosmos is uniformly early, and will bloom in any part of the country. Its delicate fern-like foliage and conspicuous crimson, pink and white flowers form a pleasing contrast. The plants grow about four feet tall and bloom freely. For ornamenting the home or church, the cut blooms will be found most desirable, lasting a week or more if kept in water.

The flowers are of good average size and are borne upon long stems, well above the foliage. The white is particularly desirable for florist's use. **Pkt., 15c ; oz., $1.00.**

NEW ANNUAL CHRYANTHEMUM

BRIDAL ROBE.

Of very compact and upright habit and not exceeding 10 inches in height, the sturdy plants throw out their finely feathered foliage from the base and deck themselves with a mantle of extra double pure white flowers. With their short closely-set petals the latter recall the finest forms of very large-fowering double Daisies and appear in such number that a large bed in full bloom may well be compared to a drift of snow. Coming almost true from seeds, it will certainly prove a bedding plant of the very first rank, while also useful for pot culture. **Pkt., 25c.**

NEW CRESTED "VICTORIA" CYCLAMEN.

In habit and freedom of bloom like the Giganteum type. The upper edges of the petals are crested and are of the same color as the base of the flower. A very desirable novelty. **25 seeds, 65c.; 50 seeds, $1.25.**

SHASTA DAISY SEED.

We have a fine lot of clean, plump seed, saved from the best flowers only.

Alaska, flowers very large, pure white, on long stiff stems.

California, flowers very large, similar to above, but the buds and half-opened flowers are of a most pleasing clear pale lemon yellow with two rows of petals. When a day or two old these gradually change to pure white.

Westralia, This is distinguished by its branching habit. Buds and newly opened flowers are of a pleasing cream-color, semi-double, 3 to 4 inches across, and are produced on fairly long stems in great profusion.

Price: Any of above, 1-8 oz., 25c.; oz., $1.25; lb., $16.00.

The 3 colors in even mixture, same price as for separate colors.

EARLY FLOWERING PERENNIAL PINKS.

Dianthus Plumarius Nanus fl. pl.

Of easiest culture, these new early-flowering hardy grass or clove Pinks will soon be found in every yard. The plants grow in compact bushes about 12 inches high, are perfectly hardy, and produce their flowers fully two weeks earlier than the older types. Their freedom of bloom is marvelous; we have counted as many as 500 open flowers and buds on a three-year-old plant. The colors are rich and vivid and the odor delightful. Plants can be lifted and potted when in full bloom without injury. **Trade pkt., 25c.**

GLADIOLUS "PRAECOX."

THE ANNUAL GLADIOLUS.

The seedlings of this new strain will bloom the first year. If the seed is sown by the beginning of March, either in the house or the hot-bed, the first seedlings will commence blooming in August and from that time on new flowers will appear until late in the season. The spikes bear from 3 to 6 open flowers at one time. The flowers are broad and well rounded and measure 4 to 5 inches across. The variety of colors is very great and rich. The seedlings will stand transplanting and will bloom better if treated in that manner.

NEW ANNUAL HOLLYHOCKS.

BLOOM FROM SEED IN 4 MONTHS.

This new strain possesses all the virtues of the double old-fashioned Hollyhocks, with the additional advantage of **blooming from the seed the first year.** Sow in March. The plants branch out freely, grow to a respectable height, and are not as easily attacked by the Hollyhock fungus and therefore retain their fresh, bright green leaves until late. The flowers are double, semi-double or single. Last year we sowed some of this seed in the open ground May 19th, and the plants bloomed from the end of August until frost. **Trade pkt., 25c.; oz., $2.00.**

NEW DOUBLE ANNUAL HOLLYHOCKS, WHITE.

The plants of this new strain will, like the above, bloom the first year and stay in bloom uninterruptedly until late in the season. The plants branch out freely, grow 7 feet. The leaves are long and small, entirely different from those of the old type. Color pure white. **Trade pkt., 35c.; oz., $2.50.**

IMPATIENS HOLSTII, NEW HYBRIDS.

In habit like Holstii, these new hybrids bring flowers in the following new colors: White with center, rosy white, deep purplish violet, orange vermilion, chamois and bright carmine. Are splendid for pots, borders or beds. **Mixed colors. Pkt., 20c.**

LOBELIA, "BEDDING QUEEN."

This new variety is undoubtedly the most remarkable and magnificent of the dwarf Lobelias. The habit of the plant is very dwarf and compact, forming handsome little bushes which are entirely covered with large flowers of the deepest purple, contrasting most charmingly with the pure white eye. Its freedom and duration of bloom is remarkable, the flowers lasting until late in the fall. The best Lobelia for carpet beds, borders and pots. **Trade pkt., 15c.; ½ oz., 25c.; oz., $1.50.**

MIGNONETTE GOLIATH.

MIGNONETTE GOLIATH.

This is by far the best Mignonette in existence, surpassing even our selected strain of Giant Machet. The plants grow in fine pyramidal bushes, the foliage is rich green, contrasting strikingly with the bright red of the flowers. The flower stalks tall and stiff, while the spikes are often 7 inches in length by a diameter of 2 inches at the base. Mignonette delight in very rich (not freshly manured) soil, and require frequent watering. **Trade pkt., 25c.; oz., $1.00.**

NEW YORK MARKET.

This is an extra choice strain of Mignonette for greenhouse culture. Our seed is greenhouse grown, raised by a most careful grower.

The plants grow from 2 to 3 feet high and produce flower spikes up to 20 inches long, according to the quality of the soil, weather and treatment. The seed is all saved from selected plants grown from 3 to 5 shoots to a plant and was all saved from the spikes measuring from 10 to 18 inches long.

Packet (about 1000 seeds), 50c.; per oz., $7.00; per ¼ oz., $1.00.

White Pearl. Machet type. The long, erect stalks carry enormous dense spikes of white flowers which stand well above the undulate foliage and with their white and red stamina form a grand effect. **Trade pkt., 25c.**

True Machet. **Vaughan's Selected Stock.** The seed we offer produces dwarf, vigorous plants of pyramidal growth, with very thick, stout flower stalks. Famed in every way for florists' use and for pots. We have tested this with several of the fancy named strains and always with results favorable to our seed. **Trade pkt., 10c.; ½ oz., 25c.; oz., 50c.; 2 ozs., 75c.; ¼ lb., $1.25.**

Vaughan's New Crop Flower Seeds for Early Sowing.

GIANT BOULOGNE PANSIES.

Vaughan's Pansies.

Boulogne Giants. This is a special selection of a French Pansy grower; the flowers are of the largest size, of great substance and fine form, and are borne on particularly strong stems. They are mostly 3 and 5 blotched, delicately veined, while the colors are rich and varied. Like all high-bred Pansies they are shy seed bearers. **Trade pkt., 50c.**

Bridesmaid. The flowers of this new interesting variety are very large and of fine form. Its ground color is a Rosy White, rivaling in delicacy and beauty the finest Apple-blossom, and most strikingly sets off the dark blotches of the center. **Trade pkt., 25c.; ½ oz., 45c.; ¼ oz., 75c.; oz., $2.60.**

Rosy Morn. A bright purplish crimson margined with a clear white edge. In early spring the color is very deep and rich; as the weather grows warmer, the color gradually turns a pleasing rosy carmine and the silver edge becomes wide. **Trade pkt., 25c.; ¼ oz., 60c.**

Marechal Niel. The flowers are very large, without any blotches or veins, and are of the same pleasing, delicate cream color as the rose whose name it bears. **Pkt., 10c.**

Siegfried. Of giant size, the flowers are borne on strong stems. They are mostly 5 spotted with a clear white margin. The colors are of rich brown shades such as are found in the English wall flowers. **Trade pkt., 25c.;**

Giant Volcano. Color, bright dark red, each petal being marked with a very large dark blotch. The flowers are of large size and good substance and the edges of the petals are curled like those of "Masterpiece," from which it is a selection. **Trade pkt., 25c.**

Orchid-Flowered. A most interesting type of Pansies of the Giant Flowered Class, containing a mixture of most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The ground color of nearly all the flowers is in light shades, the petals being marked with large brown or golden yellow blotches which diffuse into rays and veins toward the edge. The upper petals are upright and plaited, resembling orchids. The colors are terra cotta, flesh, orange, rose, pink and lilac. **Trade pkt., 25c.; ½ oz., 70c.; ¼ oz., $1.25; oz., $5.00.**

Vaughan's "Elite" Pansies. This is not a complete mixture like our International; it does not contain any pure white, yellow or any self colors. It is comprised of the cream of four Pansy specialists' choicest and most expensive mixtures, and such new and novel kinds as listed above. **Trade pkt., 50c.; ½ oz., $1.00.**

VAUGHAN'S "GIANT PANSY MIXTURE."

Embraces, besides all the above shades and colors, five special strains not listed elsewhere in this Catalogue and which can only be had in this and our International Pansy. This mixture includes the richest reds, coppers and bronzes, together with the most delicate rose and pink shadings, all the distinct colors of Trimardeau, the splendid Cassier strain with its delicate veinings. We have spared no expense to secure the newest, richest and finest sorts. **Price, ¼ lb., $14.00; oz., $4.00; ½ oz.,60c.; trade pkt., 25c.**

VAUGHAN'S PREMIUM PANSIES MIXED.

Embraces all the varieties of the Fancy German Sorts. We have sold this mixture for the past seventeen years, and it has given general satisfaction. **Per pkt., 25c.; ½ oz., 80c.; ¼ oz., $3.00; oz., $5.50.**

IMPROVED GERMAN MIXTURE.

This is a mixture of three strains from different German growers, and is made up mostly of separate colors, with a sufficiently large percentage of white and yellow. **Per large pkt., 10c.; ½ oz., 20c.; ¼ oz., 30c.; oz., $1.00.**

VAUGHAN'S INTERNATIONAL PANSIES.

THE WORLD'S BEST. This is a combination of as many separate colors, types, blendings and unique kinds as can be found in the world. It has been made up and sold by us for fourteen years; it **is the best general mixture in existence** and is most widely known and popular. It is used by most florists. It received the highest award at the Columbian Exposition and was awarded the gold medal at Omaha in 1898, and a medal at the Buffalo Exposition in 1901. It contains the cream of the Pansies listed on this page, and besides 8 different strains, the crack selections of noted Pansy specialists, which we purchase every year especially for this mixture, and which cannot be had in any other way. We beat the world on Pansies. **Price per oz., $10.00; ½ oz., $5.00; ¼ oz., $1.50; trade pkt., 50c.**

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. **Trade pkt., 35c.; ¼ oz., 60c.; ½ oz., $1.00; oz., $4.00.**

THE HOWARD STAR PETUNIA.

Their ground color is a dark, crimson maroon, with a rich velvety texture Showing through the ground color are violet veinings. From the center starts the points of a five-rayed star, which broadens half-way up, narrowing to a point at the margin of the flower. The plants are free growers, branching freely and attaining an average height of 18 inches by 24 inches in diameter. They are remarkably prolific bloomers, single plants often having 50 fully expanded flowers at a time. **Trade pkt., 20c.; oz., $1.00.**

PETUNIA ROSY MORN.

This new Petunia is one of the most effective and valuable of the small-flowering class, which class has gained a well-merited reputation not only for its rich and lasting florescence but for its easy culture and adaptability either to pot plants, indoor decoration or outdoor bedding. The plants grow thick and spreading like a bush and remain fairly dwarf. The pretty flowers, thickly covering the full-grown plant, are brilliant rose color, with large white throat and white center. **Trade pkt., 20c.**

NEW GIANT-FLOWERED PETUNIAS.

The Petunia is one of the best plants for the summer flower garden, being always in bloom. The large flowered strains are very beautiful.

Queen Louise. Flowers of immense size, 6 inches and over in diameter, of a rich velvety crimson color with broad, white margin and deep yellow throat. A very striking sort. **Pkt., 25c.**

German Empress. Flowers of gigantic proportions, color light lavender with veins of a rich velvety purple. A magnificent sort. **Pkt., 25c.**

Quadricolor. Very large; the color is a most pleasing rose. The flowers are veined for two-thirds of their surface with a network of lustrous carmine, which merges into a deep blood-red towards the expansive throat. A large proportion of the flowers have 5 spatulate graceful markings of a decided yellow, radiating from the center of the flower in the form of a five-pointed star. **Pkt., 25c.**

Rose Queen. Mammoth sized flower, beautifully marbled rose on white ground with a most striking veining of the deepest crimson in the wide-open throat. **Pkt., 25c.**

PRIMULA OBCONICA GIGANTEA

PRIMULAS.

The finest strains from the very best sources in England. New seed to arrive for sowing early in the year.

PRIMULA SINENSIS.

New Duchess Hybrida, Red. The flowers are of a bright fiery red with deep crimson zone around the center.

Covent Garden, White. A most popular Primula; very robust, of extra fine habit; flowers the size of Giants. Very valuable.

Ruby Queen. A very beautiful red Primula. One of the best. Splendid habit.

True Blue. The best blue Primula. Giant blooms.

Chiswick, Red. Improved. Very fine market Primula.

PRIMULA STELLATA.

Giant White Star. The grandest White Star yet introduced. Pure white massive blooms of giant form produced in great abundance, admirably relieved by very dark foliage, retaining the true character of the Star Primula.

Salmon Pink. A most charming companion to the above White Star. For conservatory and table decoration it is indispensable.

Blue Star Improved. By careful selection of large blooms for stock we have produced a strain of really Giant Blue Star Primula with much darker blooms; the dark blue flowers harmonize with the pale green foliage. A most valuable Star Primula.

Crimson Star. The grandest colored Star Primula yet introduced; the rich crimson blooms, which are as dark as Crimson King Sinensis contrasts beautifully with the dark green foliage.

PRIMULA OBCONICA GIGANTEA.

The thick, leathery, dark-green leaves of this new giant-flowered sort are roundish, their edges wavy and 2 inches across. The flower stalks are very strong, almost as thick as a pencil, and like the leaf stalks are covered with curly hair. The well-formed flowers, lilac, rose and purple in color, are ½ inch in diameter and clusters 1½ inches across. With good culture this Primula attains giant dimensions and is equally valuable for pots and cut flowers. Certificated by Royal Horticultural Society. **Trade pkt. (500 seeds), 50c.**

SCHIZANTHUS WISETONENSIS.

This wonderfully showy plant deserves to be widely known and cultivated. Attaining a height of about 16 inches, branching freely and yet of compact pyramidal form, it throws well above its charming feathery foliage a multitude of large panicles of beautiful blossoms. Its ground color is mostly white dotted with delicate rose, while the upper lip is adorned in the center by a spot varying in shade between golden yellow, carmine, rose and bright brown. These lovely Schizanthus, literally covered as they are with their dainty little flowers, make excellent pot and market plants. If planted in the open they require a somewhat shaded position. **Trade pkt., 50c.**

Knowledge of the Needs of Market Gardeners

We Make a Specialty of Seeds for Market Gardeners and Florists

Since 1877 when the President of this Company solicited personally the Market Gardeners trade of Chicago and learned their wants, we have not only watched for every new or improved vegetable, but we have paid the highest wholesale prices to growers for fancy strains of garden seeds.

We have represented these seeds as they are. If eastern grown Onion seed was wanted and cost more, we have paid the price and furnished it and have not substituted a cheaper grade. We have done the same with other seeds. We stil intend to supply our customers with Vaughan's Seeds with the understanding that they are as nearly what we represent them as human training and care can make them.

We must say this further, Vaughan's Seeds are as cheap as the best market garden quality can be sold.

When ordering be sure that we understand exactly the kind of vegetables that your market or your particular trade requires, and we will supply the same. Market gardeners know that every city has favorite varieties in most leading vegetables. One market needs a scarlet Radish, another a white tip variety: one a curled Lettuce, another a smooth leaf; one a dark red Globe Onion, another a round yellow Globe Danvers and so on through the list.

BONVALLET'S GIANT ASPARAGUS.

New Asparagus, BONVALLET'S GIANT

This new Asparagus brings the highest prices in the Chicago market, and is in great demand for its flavor and its great size and whiteness. Its superior qualities are: **EARLY BEARING** of extra long spears, which are tender and of fine flavor. **LASTING QUALITY.** Since the crown does not devide it yields large shoots for a longer time than any of the older kinds. **RESISTANCE TO THE ASPARAGUS RUST,** which has been so disastrous to many asparagus beds.

SEED. Oz., 15c; ¼ lb., 40c; lb., $1.50.

TWO YEAR OLD SELECTED ROOTS. Per 100, $1.75; per 1000, $12.00.

NOTICE:—Our Bonvallet's Giant runs very even in color, our gardeners claim the entire crop is nearly uniform and the cut shoots can be bunched without sorting, and make good selling bunches.

Use Truck Manure No. 2 for Asparagus. See page 27.

VAUGHAN'S IMPROVED LATE FLAT DUTCH.

DANISH BALLHEAD.

EARLY ALLHEAD OR FAULTLESS.

CABBAGE

VAUGHAN'S SURE HEADING SEED

IMPROVED Early Spring

"New Early Flat Head"

Also known as the Eureka Early. This is a cross between Jersey Wakefield and Succession, and its mixed blood is plainly shown in the stock, the leaves indicating the Wakefield growth. By careful selection for five years we have secured an early flat heading variety, having the thick leathery leaves of the Wakefield and producing slightly rounded heads at practically the same date as the pointed Wakefield. The plant is of robust habit, dwarf growing and with but few outside leaves. A very reliable header of best quality. We have great faith in this variety as a truly valuable acquisition for the market gardener's list, and it is giving satisfaction wherever planted by them. **Pkt., 10c.; ½ oz., 15c.; oz., 25c.; 2 oz., 40c.; ¼ lb., 60c.; lb., $2.10**

Early "Allhead" or Faultless

Our seed is grown on Long Island by the originator. If a gardener or amateur were to plant but **one** variety of cabbage he could get none that would answer all purposes as well as the **Early "Allhead."** For uniformity, reliability of heading, size, earliness and quality it has no equal. It is also very profitable, since the outer leaves are so few, a close planting can be made, and 1,000 more cabbages per acre be grown than from seed of other sorts. **5 lbs. (by express) $9.00; per lb., $2.00; ¼ lb., 60c.; 2 oz., 35c.; oz., 20c.; ½ oz., 15c.; pkt., 5c.; postpaid.**

EARLY JERSEY WAKEFIELD — VAUGHAN'S SELECTED

The best early Cabbage in cultivation. It forms fine solid heads of good size, conical in shape, with very few outside leaves, and of the best quality. We offer this as the earliest strain of this standard variety. **Grown only from selected heads.** Our strain is remarkably pure; warranted to give satisfaction.

Large or Charleston Wakefield

This sort forms uniform solid heads, considerably larger than the Early Wakefield, and matures only a few days later; on clay ground it will mature just as early. Largely planted by gardeners in the South.

The Best Bunching Carrot.

This is the best early Carrot in existence, one which market gardeners should plant for their main early crop. The Carrots grow about six inches long, are stump rooted, very smooth, deep red, fine grained, sweet and sugary, and not apt to crack open while growing. An excellent table sort and a heavy cropper. Our seed is most carefully selected. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.; 5 lbs., $2.75.**

GUERANDE, OR OXHEART

It is tender, of good flavor and of a deep red color, and is a variety we can recommend to all market gardeners. **Oz., 10c.; ¼ lb., 20c.; lb., 60c.; 5 lbs., $2.75.**

Vaughan's Selected Danvers

The Best Carrot for every purpose

For over 20 years have we sold this selected stock, and we never have enough seed to supply the demand. All the gardeners in Chicago know it, and plant no other if they can get ours. It is the most uniform in existence, always of good color, a splendid yielder and of excellent flavor. It is one of the easiest Carrots to harvest, will yield more tons to the acre than any other. We are proud of being the owners and distributors of this Carrot. It is one of the specialties which has made Vaughan's Seeds synonymous with "Best Seeds." **Oz., 10c.; ¼ lb., 25c.; lb., 85c.; 5 lbs., $4.00.**

The best strain of this famous sort

CAULIFLOWER, VAUGHAN'S EARLIEST DWARF ERFURT.

VAUGHAN'S EARLIEST DWARF ERFURT

Vaughan's Earliest Dwarf Erfurt combines all pedigree points—earliness, purity of color, dwarf habit, fine grain. This seed will produce cauliflowers worth the highest market price. It cannot be sold cheap for above reasons; but the shrewdest gardeners find it the most profitable. **Lb., $30.00; ¼ lb., $8.00; oz., $2.00; ¼ oz., 65c; Pkt., 25c.**

Danish Snowball This is a grand second early. It is the result of long, careful selection, and uniformly produces even, regular heads. CAULIFLOWER, VAUGHAN'S NEW SNOWBALL.

CAULIFLOWER

Vaughan's New Snowball

The Best for Early and Late Summer and Fall Crops Always Sure to Make a Solid White Head.

We know of no better type of this variety—**very early, smoothly rounded heads,** fine grained, compact, even in size. This variety while a first early, is better adapted generally to fall use than the large late sorts commonly used for that purpose. **We stake our reputation on its merits against all comers.** All we want is that our customers try it—everyone who uses cauliflower, according to his needs—from packets to pounds. The habit of the plant is close growing and compact, and plants can be set closely together, from 18 to 21 inches. Every plant which did not produce a **perfect head** was discarded when selecting our stock plants for seed. Our customers have found it, by careful tests, fully equal to the best Cauliflower which they have ever grown. "Vaughan's New Snowball" is put up in packages as follows: Pkts., ¼ oz., ½ oz., 1 oz., and ¼ lb., sealed with our trade-mark and with distinctive paper and printing. **Price, pkt., 25c.; ¼ oz., 65c.; ½ oz, $1.25; oz., $2.00; ¼ lb., $8.00; lb., $32.00.**

WHITE PLUME, VAUGHAN'S SELECTED STOCK.

Vaughan's Celery Manual The only practical and complete guide to **Celery Culture** ever published. By a practical grower of 20 years' experience; revised and published by J. C. Vaughan. **Price, postpaid, 50c.** This treatise will be sent free with a Celery Seed order of $3.00, or with any general order for other seeds amounting to $5.00, if requested.

For 10 years I have purchased my main supply of seeds from you and I have never had a single failure with your seeds. **They have always been satisfactory and just as represented.** O. G. BISHOP, Pontiac, Michigan.

CELERY

"Winter Queen" This is without doubt the most valuable variety of Celery for Winter and Spring use. It is also much stouter, thicker and heavier, with **double the amount of heart of any known Celery.** The plant is of close habit and blanches to a beautiful cream white. Ribs perfectly solid, crisp and of a delicious nutty flavor. Grow Winter Queen once and you will always grow it. **½ oz., 12c.; oz., 20c.; ¼ lb 50c; lb., $2.00.**

Vaughan's Giant Golden Heart **The best Celery for Winter storage.** Ever since we introduced this Celery it has gained in public favor and rightly so, for it is not only the best keeper, but **it is large, solid, as sweet as a walnut and of a beautiful golden color.** It is a selection from the Dwarf Golden Heart; grows much larger than its parent. **Lb., $2.00; ¼ lb., 50c.; 2 ozs., 30c.; oz., 20c.; ½ oz., 12c.**

White Plume, Self-Blanching—Vaughan's Selected Stock We have not yet found a Celery that is as early and of as good a flavor, as crisp and tender, as our selection of this sort. We sell large quantities of this seed to market gardeners, who find it **uniformly white and free from green or hollow stalks.** It is not a good keeper, but it is excellent for Fall and early Winter use. **Lb., $2.00; ¼ lb., 50c.; 2 ozs., 30c.; oz., 20c.; ½ oz., 12c.**

WHITE PLUME—Regular Stock. Lb., $1.50; ¼ lb., 40c.; 2 ozs., 25c.; oz., 15c.; ½ oz., 10c.

Golden Self-Blanching—Vaughan's Selected Stock **This is the best Celery for early use.** The stalks are much broader and heavier than those of the **White Plume,** and greatly superior in quality. It is ready for use nearly as early, producing dwarfer and much larger bunches of broad, heavy stalks, blanching to a **deep golden yellow.** The handsome color, crispness, tenderness, freedom from stringiness and nutty flavor of this variety make it only necessary to be tried in order to establish it as the **standard of excellence as an early sort. Lb., $3.50; ¼ lb., $1.00; 2 ozs., 60c.; oz., 35c.; ½ oz., 20c.**

Vaughan's Extra Selected

SWEET CORN.

Please Note: Our Sweet Corn, like all our Garden Seeds, is grown from specially selected pedigree stock seed, and our prices must not be compared to those of "picked up" stock, raised by inexperienced growers who do not understand or practice such selection or isolation of the kinds.

MAMMOTH WHITE CORY.

Mammoth White Cory. One of the largest and best extra early varieties. Each stalk furnishes two or more large, fine shaped ears, which are fit for use before those of any other sort. The ears are twelve-rowed, very symmetrical and handsome, with no opening between the rows at the base. The grain is large, broad, very white, and of remarkably good quality for such an early sort. The size and beauty of this variety gives it ready sale even when the market is well stocked. **Qt., 20c; ½ pk., 40c; pk., 75c; bu., $3.00.**

Improved Early Champion. **The Earliest Large Sweet Corn.** Produces ears 12 in. long in 60 days. This new variety is without question the earliest large Sweet Corn yet introduced, being only a few days later than the first early small sorts. Ears nearly as large as the Mammoth 12 rowed; pure white kernels, with medium sized white cob; very sweet, tender and full of milk; yielding two and three ears to the stalk. The best kind for early and late planting. **Qt., 20c; ½ pk., 40c; pk., 75c; bu., $3.00.**

MUSK MELONS

Two Ounces to 100 Yards of Row, Four Pounds to the Acre.

Special Prices on 5, 10 and 20 Pound Lots.

Vaughan's Original Osage

This famous Melon is our own introduction, and we take special pride in maintaining the quality and superiority of our stock. We pay many times the prices given ordinary seed growers to get our seed raised in the best locality and then selected from merchantable early Melons. Seed obtained from culls left in the field after marketing is over can be bought cheaply, but is high at any price. However seed taken from early choice market melons must bring a high price, though really a hundred times cheaper than the other. Salmon flesh, high table quality; during the last season was the best Melon on the Chicago Market. Our strain is dark skinned, but moderately netted.

Vaughan's Selected Stock—Lb., $2.50; ¼ lb., 75c.; 2 oz., 45c.; oz., 25c.

Ordinary Seed—Entire field grown for seed, but seed not chosen from special Melons. **Lb., $1.15; ¼ lb., 35c.; oz., 10c.; 10 lbs., $10.00.**

Special Shipping Osage Slightly more netted than original type; especially selected for shipping. **Lb., $1.60; ¼ lb., 50c.; oz., 15c.**

Netted Gem—Rocky Ford.—Selected Stock This seed is carefully grown selected and saved at Rocky Ford under the care and supervision of one of the most careful shippers. It is well known that much seed offered as Rocky Ford stock has been saved by local growers from surplus or cull Melons by men who know nothing of the responsibility of the seed business. Careful planters should avoid this kind of stock.

VAUGHAN'S SELECTED STOCK—From best melons in field. **Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., $1.25.**

ORDINARY STOCK—Seed from entire field planted only for seed. **Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 60c.**

Oval Gem. Our regular stock of this at the following prices is first-class, carefully selected seed, such as no gardener need hesitate to plant. **Pkt., 5c; oz., 10c; ¼ lb., 20c; lb., 70c.**

Benton Harbor Gem. This is a selection made by the best growers in the Michigan melon district. **Pkt., 10c; oz., 15; ¼ lb., 30c; lb., $1.00; 5 lbs., $4.00.**

It is a yellow fleshed Melon of the very best quality; every Melon produced, big or little, early or late in the season, is a good one. They are sweet, juicy of finest flavor, eatable to the very rind. It is a strong grower and a heavy yielder and of handsome appearance. **Lb., $1.00; ¼ lb., 30c.; oz., 10c.**

Hackensack. **Lb., 90c.; ¼ lb., 30c.; 2 ozs., 15c.; oz., 10c.**

Vaughan's Paul Rose, or Petoskey

The best and most uniformly high quality table Melon introduced in ten years. No other seeds of Paul Rose Melons can equal our selection in quality, appearance, and evenness of type, because other growers have not the same knowledge or painstaking interest in perfecting the type. We say for Paul Rose Melon Seed come to headquarters. It will pay you. "This is a cross of the Osage with the Netted Gem, and combines the sweetness of the former with the fine netting of the Gem. It has also the firmness of meat and cheesy structure peculiar to the Osage. In this respect it is superior to any Melon in existence, because of this thick, solid flesh, free from stringiness, which does not become watery or 'break down' in keeping, retaining its form twice as long as any other shipping Melon. Ripens about 10 days earlier than the Osage. Flesh, reddish-salmon; outside green, netted like Gem." **Price:** Originator's Selected Stock Seed (Northern Michigan grown), **per lb., $1.35; ¼ lb., 40c.; 2 oz., 25c.; oz., 15c.**

Mushrooms

The increase in the demand for this rich flavored Agrarius is wonderful, and yet the prices are not only maintained, but increased. We have been most successful in supplying with satisfaction our Imported English Spawn (Vaughan's Special) to market growers. For this purpose and to have a fresh supply always on hand, we make five importations yearly. We now supply annually, East and West, scores of wholesale Mushroom caves, sheds or greenhouses with their entire planting stocks of spawn.

English Mushroom Spawn Our spawn is manufactured by the largest and most successful maker of spawn in the world. He has made spawn for some thirty years and has kept up on all the new methods of manufacture. Our spawn is made by the famous tissue method from selected specimens. It has been found that English Spawn as a rule does not bear so quickly as the American pure culture, but it, however, lasts much longer in bearing.

English Mushroom Spawn (VAUGHAN'S SPECIAL). **Price, per brick, 25c.; 5 lbs., $1.00, postpaid. By express or freight, per brick, 15c.; 2 for 25c.; 8 bricks, $1.00; 25 lbs., $2.00; 100 lbs., $6.50; if shipped from New York, $6.00. Special prices on ½ ton lots and upward.**

Pure Culture "Garden City" Spawn **The best spawn for beginners.** The highest development in the art of spawn making. This spawn is made from tissue cultures from select specimens produced by spore (seed) culture. The bricks are inoculated with tiny threads from a young specimen fruit, so that special sorts or strains are produced, true to type. By this selection of varieties the inferior yielding kinds are avoided. We carry the Cream Brown or Bohemia variety, which has proven the best yielder. We can, however, supply the Pure White, Brown, Alaska or Columbia pure culture spawn. **Price per brick, 35c.; 2 bricks for 60c., postpaid; by express or freight, 5 bricks for $1.00; 10 bricks, $1.75; 25 bricks, $3.50; 100 bricks, $12.00.**

Water Melon

Kleckley's Sweet A large, oblong Melon, 20 inches in length by 10 to 12 inches in diameter, somewhat tapering at the ends. The skin is dark green, flesh bright scarlet, ripening close to the skin, the rind being only about one-half inch in thickness. The large, solid heart does not crack open when ripe. The flesh is sweet and sugary. The Melon is better for home use than for shipping, and we believe it is the best Table Melon to-day. Monte Cristo is identical. **5 lbs., $2.50; lb., 60c.; ¼ lb., 20c.; oz., 10c.**

McIver's Wonderful This is one of the sweetest Water Melons of all. The Melons attain a great weight, are of a very handsome appearance, **never crack** or lose their fine flavor in the wettest season. **Oz., 10c.; lb., 60c; ¼ lb., 20c.; 5 lbs., $2.50.**

Cole's Early This is the best **Early Water Melon** for the home market to-day. For sweetness and delicate texture of flesh it has no equal. The rind is thin but brittle, and therefore not suitable for shipping; for the home market we know of none better. Extreme earliness is its great merit. **5 lbs., $2.65; lb., 60c.; ¼ lb., 20c.; oz., 10c.**

Improved Kolb's Gem The seed of this is saved from large, smooth melons of a darker mottled green than the Kolb's Gem. The melons show a yellow blotch on the bottom. It is fully a week earlier in ripening, besides growing larger and a heavier yielder. **10 lbs., $3.25; 5 lbs., $1.75; lb., 40c.; ¼ lb., 15c.; oz., 10c.**

Triumph It is a cross between Duke Jones and Kolb's Gem. It has the handsome appearance of the former and the shipping qualities of Gem; **very early,** very prolific, deliciously sweet, and of enormous size. It possesses all the qualities that go to make up a desirable melon. **Lb., 50c.; ¼ lb., 20c.; oz., 10c.**

SWEETHEART. **Lb., 60c.; ¼ lb., 15c.; oz., 10c.**

Vaughan's Black Diamond A cross between Kolb's Gem and Hoosier King. Its prominent points of merit are its **extreme size and productiveness. Melons weighing 75 to 90 pounds** are frequent. **It is the most prolific Water Melon.** Its color is a rich, dark green, almost black. Of uniform symmetrical shape, roundish to bluntly oval, and this similarity of shape running through the whole field. **Oz., 10c.; ¼ lb., 20c.; lb., 50c.; 5 lbs., $2.00; 10 lbs., $3.50.**

The Dixie We can recommend it as one of the **best shipping melons** grown. Of very fine appearance, being darker than Kolb's Gem and more beautifully striped; unexcelled for eating. **Lb., 50c.; ¼ lb., 15c.; oz., 10c.; in 5 and 10 lb. lots, 45c. per lb.**

True Ice Cream **The great Home Market Melon.** It has too thin a rind for shipping unless packed in straw. Few, if any, surpass a **True Ice Cream** for quality and productiveness. **Lb., 50c.; ¼ lb., 15c.; oz., 10c.**

Winter Water Melon (Novelty) This Melon is early, earlier than Sweetheart and a very prolific bearer. The flesh is red, of extreme firmness, in fact almost as hard as citron, very brittle and deliciously sweet. In color it is very light green, almost white. The firmness of the flesh causes it to be the longest keeper of the Water Melon family. Placed in a cool place it will keep as long as a Hubbard Squash and still retain its delicious sweetness and flavor. **½ oz., 15c.; oz., 25c.; 2 oz., 40c.; ¼ lb., 60c.; lb., $1.80**

COLE'S EARLY.

OHIO YELLOW GLOBE.

Nitrate of Soda vs. Farm Yard Manure.

Market gardeners are in the habit of using from 50 to 150 tons of stable manure every year. They will tell us [illegible] they will continue to use year after year such enormous quantities of manure containing no ready formed nitrio [illegible] If they receive the manure for nothing, the labor of hauling it, handling and distributing it costs more than the amount of nitric acid which it naturally yields by decomposition in the soil could be purchased for in the form of nitrate of soda, and in these market gardens the soil is so charged with carbonic acid that it excludes the oxygen and decomposition proceeds very slowly, and to produce the necessary quantity of nitric acid more and more manure must be used. Try nitrate of soda. It acts like magic; it will pay ten times over.

Southport Blood-Red Globe. Our Blood-red Globe is of a beautiful crimson red, and a better lot of seed cannot be found. Southport Yellow Globe. A main crop, late, large, round Onion. It is sure to satisfy the one who buys a packet or the one who sows 50 pounds for carload shipments. A truly grand Onion whose large golden yellow spheres make a beautiful appearance, sacked or barreled for the market. Finest of all yellow Onions for keeping.

Price: Eastern Grown, oz., 25c; ¼ lb., 70c; lb., $2.75; 5 lbs., $13.50; 10 lbs., $26.50.
Price: Western Seed, oz., 20c; ¼ lb., 65c; lb., $2.50; 5 lbs., $12.25; 10 lbs., $24.00.

Vaughan's Ideal White Globe. This is the handsomest of all Onions. **Our genuine Connecticut Grown stock** is of the true globe form; pure white, hard, small necked, ripening very early and evenly, a good keeper. We supply the largest market gardeners in Chicago and the west. No market gardener or Onion grower can afford to plant inferior stock, with only cheapness of price to recommend it when seed like ours is to be had, the results of a few ounces often paying twice the first cost of the best seed.

Price: Eastern Grown, oz., 30c; ¼ lb., $1.00; lb., $4.00; 5 lbs., $19.75; 10 lbs., $39.
Price: Western Seed, oz., 25c; ¼ lb., 85c; lb., $3.25; 5 lbs., $16.00; 10 lbs., $31.50.

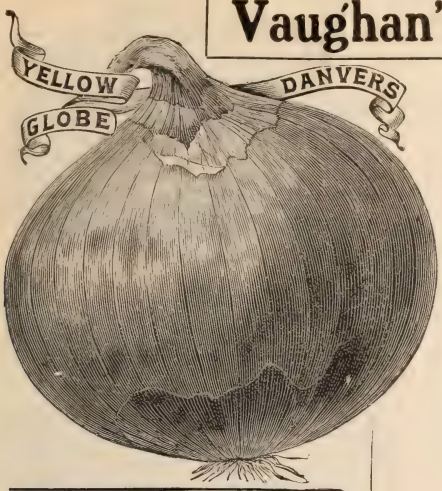
Ohio Yellow Globe. **Vaughan's Special Ohio Grown Seed, finest shaped, best colored and largest cropper of any yellow Onion.** This is an extra fine selection of the best colored, finest shape and heaviest yielding bulbs, entirely distinct from the old type Yellow Globe Danvers. It is earlier, has a smaller neck, is of perfect globe shape and uniform in size and color. **Oz., 25c; 2 ozs., 45c; ¼ lb., 70c; lb., $2.75. By express, 5 lbs., $13.50; 10 lbs., $26.50.**

Vaughan's Apple-Shaped Red Globe. **This is the most perfect market type of Red Globe Onion.** Ideal for enclosing the most bulk in the most compact shape. Its color is **absolutely the darkest blood-red.** Its size is equal to any of the largest types of Red Globe. Fifteen years ago this Onion was first planted in the West, under the name of Extra Early Red Globe. Since that time, grown on rich land, carefully selected for size, shape and color, it has been improved a little each year, until we believe it now the very best of its class. ☞This Onion (our seed) produced in 1905 the best crops ever raised in the famous Racine, Wis., onion district. **Oz., 20c; ¼ lb., 75c; lb., $3.00.**

Extra Early Australian Brown Globe. Medium size, excellent keeper and very early. **Oz., 15c; ¼ lb., 50c; lb., $2.00.**

Prizetaker. **Vaughan's Selected Stock.** An excellent keeper, of finest flavor, handsome shape and enormous size, many single Onions having been raised to weigh five pounds and over from seed the first year. The **Prizetaker** grows always to a perfect globe shape, with a bright straw-colored skin; the necks are very small and the Onions always ripen up hard. Ours is American-grown seed. **Oz., 15c; ¼ lb., 50c; lb., $1.60; 5 lbs., $7.75; 10 lbs., $15.00.**

White Bermuda. **True Teneriffe Grown.** These are the first early Onions which are shipped north in large quantities, both in Bermuda and our southern states, and imported to our northern markets in the early spring. In the southern part of the United States as well as Bermuda our imported Teneriffe Seed gives the best results. In our northern climate the bulbs are much smaller, but mature early, and retain much of the mild sweet flavor of the imported ones. While these are called White, the Onions are actually of a light straw colored skin, but pearly white, very mild flesh. Shape flat.



We offer seed imported direct from the best growers. **Oz., 15c; ¼ lb., 50c; lb., $1.60.**

Mammoth Silver King. This mammoth variety is one of the largest in existence, often weighing from 2¾ to 4 pounds each. It matures early and is of uniformly large size and fine shape, being flattened, but thick. The skin is of a beautiful silver-white, clear, showy and tender, of mild, sweet flavor. Its striking size and handsome appearance, as well as mild flavor, recommend it for the fancy market. **Oz., 15c; 2 oz., 25c; ¼ lb., 45c; lb., $1.60; 5 lbs., $7.50.**

SOMETHING NEW.

Early White Welsh Onion. **For Green Onions.** This kind does not form a bulb, but is one of the best kinds for "Green Onions." The plants are perennial and can remain in the ground for years. This is the sweetest of all Onions. **Oz., 25c; 2 oz., 40c; ¼ lb., 75c; lb., $2.00.**

Vaughan's Pedigree Onion Seed.

"FANCY" YELLOW GLOBE DANVERS.

The shape is uniformly round; color, a fine brown, orange yellow. The entire crop ripens down at one time and winters well. No gardener can afford to experiment with doubtful seed. **Oz., 20c; 2 ozs., 35c; ¼ lb., 65c; lb., $2.50; 5 lbs., $12.25; 10 lbs., $24.00.**

Yellow Globe Danvers. This strain of Globe Danvers is equal to any usually sold, and may be relied upon as a first-class cropper. **Oz., 15c; ¼ lb., 60c; lb., $2.25; 5 lbs., $11.00; 10 lbs., $21.50.**

Yellow Danvers. A fine, productive variety of medium size; skin copperyyellow; flesh white, comparatively mild and well flavored. **Oz., 15c; ¼ lb., 50c; lb., $1.90; 5 lbs., $9.25; 10 lbs., $18.00.**

LARGE RED WETHERSFIELD.

This is the Standard Red Variety and a favorite onion in the east, where immense crops are grown for shipment. Large; skin, deep purplish-red; form round, somewhat flattened; flesh, purplish-white; moderately fine grained, and stronger flavored than any of the other kinds. Very productive, **the best keeper and one of the most popular for general cultivation.** It is more inclined to form large necks, if planted on unsuitable soil, than the Danvers, but it is the best variety on poor or dry soils. **Oz., 15c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.25; 10 lbs., $14.00.**

Large Yellow Dutch, or Strasburg. The best Yellow for sets. We sell hundreds of pounds for that purpose. Flat; flesh white, fine grained, mild and well flavored. **Oz., 15c; ¼ lb., 45c; lb., $1.75; 5 lbs., $8.50; 10 lbs., $16.50.**

New Crystal White Wax. The most popular Onion in the Texas Onion Section. Large, pure white and flat. Does well in the north. It grows to a good size, is very early, and is the mildest and sweetest of all. **The best slicing Onion. Pkt., 10c; ½ oz., 15c; oz., 30c; ¼ lb., $1.15.**

White Portugal or Silverskin.

A large, flat Onion of mild flavor and great beauty, its clear white skin glistening like silver. A favorite with many for use when young as a salad or bunching onion, and for pickles; it is also a good keeper and fine for fall and early winter use. An excellent sort for gardeners who do not plant more than one variety. **Oz., 15c; ¼ lb., 55c; lb., $2.00; 5 lbs., $9.50.**

Philadelphia Silverskin. Special strain of White Portugal. **Oz., 15c; ¼ lb., 50c; lb., $2.00; 5 lbs., $9.50.**

The Early Yellow Cracker. The earliest of all our yellow sorts, and is an excellent kind to raise where the seasons are short. It is the best of all the yellow Onions in quality, but needs to be harvested as soon as it dies down and handled carefully. **Oz., 15c; ¼ lb., 45c; lb., $1.75; 5 lbs., $8.50; 10 lbs., $16.50.**

EARLY RED CRACKER. Like above, except in color. Price, **oz., 15c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.25; 10 lbs., $14.00.**

Extra Early Flat Australian. A fine keeping sort. Good also for sets. **Oz., 15c; ¼ lb., 40c; lb., $1.60; 5 lbs., $7.75.**

Extra Early Red. Very early; sometimes used for sets. **Oz., 15c; ¼ lb., 40c; lb., $1.50; 5 lbs., $7.25; 10 lbs., $14.00.**

WHY PLANT ONION SETS? Because they produce directly an Onion ready for market or the household from **four to six weeks earlier** than can be done by the sowing of the seed, and the product of the set is identical with that of the seed. This gives the market gardener ample time to **sell his entire crop** at a high price, besides enabling him to sow for another crop the same year.

Vaughan's Pickling. This is a uniformly early, small, round, hard, crisp, tender and very handsome variety, with an opaque white skin, which does not turn green upon exposure to the sun. An excellent sort for use in bunching for pickles or grown larger for cooking. **Oz., 15c; 2 oz., 25c; ¼ lb., 45c; lb., $1.75; 5 lbs., $8.50.**

White Queen. Remarkable for its earliness and very mild flavor; it is small and white skinned. Every family should sow an ounce or two for pickling in jars; a fine table relish. **½ oz., 12c; oz., 15c; ¼ lb., 45c; lb., $1.50; 5 lbs., $7.00; 10 lbs., $13.00.**

WHITE BARLETTA. It is a beautiful waxy-white color, much admired by housewives. Price, same as that of White Queen.

Egyptian, or Perennial Onion. This variety never forms a large bulb; their value lies wholly in their **special adaptability for producing Green Onions for spring or fall use.** They are perfectly hardy and stay in the ground all the time. **Top Sets, by express, peck, 50c; bushel (28 lbs.), $1.75.**

Shallots, or Yellow Multipliers. ½ peck, 60c; peck, $1.00; bushel (32 lbs.), $3.50.

They are of a pure silvery-white color, **enormously productive,** frequently producing as **many as twenty bulbs in a single cluster** from one bulb planted; of excellent quality and size for bunching. **Their keeping qualities are remarkable,** having kept perfectly sound for a year, but their most important quality is **extreme earliness,** being ready for market **three to four weeks ahead of other Onion Sets.** ½ peck, 60c; peck, $1.00; bushel (32 lbs.), $3.50.

Vaughan's "Succession" Dwarf Peas

These can all be planted at the same time, and they will be ready for use in succession.

Nott's Excelsior Height, 15 inches. As hardy as the earliest market sorts, but in quality equal to the Little Gem. It outyields that variety and the American Wonder 20 to 30 per cent, and is as early as the latter. The pods are about 3 inches long and each pod contains from 6 to 8 large peas, which are tender and of unusual fine flavor. It not only yields more heavily in bulk of pods than other dwarf varieties of the same season, but also of shelled peas. **Price, by express or freight, at buyers' expense, qt., 30c.; ½ pk., 95c.; pk. $1.75; bu. $6.50.**

McLean's Advancer A great favorite and largely used by market gardeners, as the large, handsome, well-filled pods containing peas of finest quality for table use, are borne at the top of the stalk, and are easily gathered. Very vigorous in growth; height, 2 feet; seed green, very much wrinkled. About 10 days later than Nott's Excelsior. Our strain is remarkably pure and desirable. Very popular in some sections with canners. **Price: By express or freight, at buyers' express, qt., 20c.; ½ pk 60c; pk., 90c.; bu. $4.00.**

Heroine In every way worthy the great popularity it has already attained. Elegant habit of growth, luxuriant foliage, pods remarkably long and handsome, slightly curved, well filled with large, luscious peas of fine flavor. This fine variety, apparently as good as Stratagem for all purposes, is far superior to that in habit, growing remarkably even and true. Height, 2 feet; seed green and very much wrinkled. About a week later than Advancer. **Price: By express or freight at buyers' expense, qt., 20c.; ½ pk., 65c.; pk., $1.15; bu., $4.50.**

HALF PECK, each, above three, for $1.90; ONE PECK, each, these three, for $3.75.

VAUGHAN'S TRUE STOCK

New Surprise Pea

The Earliest of All the Sweet Wrinkled Peas

THIS remarkable sort is a cross of Earliest of All and American Wonder possessing the quality of the American Wonder and is as early as the Earliest of the [illegible] Peas. The vines grow 24 inches high and need no bushing; the pods are well filled, containing 6 or 7 peas. The peas are not as large as those of the American Wonder, but **Surprise** is a far better cropper and ready **days before it.** "It is the earliest Pea we have ever tried." The Editor of the "New England Farmer" writes: "Of 35 varieties on trial it was the first to yield and the first to dry down." **SURPRISE** has the habit of Earliest of All. It is a far better Pea, and cannot be recommended too highly. It is, ordinarily, **not subject to mildew,** and can therefore be planted again in August for a late crop, a point which market gardeners and private planters will appreciate. **Price: Qt., 20c.; 2 qts., 35c.; ½ pk., 65c.; pk., $1.25; bu., $5.00.**

Gradus or Prosperity

A great extra early wrinkled Pea. This remarkable Pea is not only large and of the best quality, but it is nearly or quite as early as the small round, extra early sorts. Gradus is a wrinkled pea with vine growing about 30 inches high. The pods are of a bright green color, and measure 4 inches or more in length, as large as a Telephone, and equally well-filled with luscious Peas—8 to 10 or more in a pod. The peas are of highest table quality, and retain in a remarkable manner their color and attractive appearance after cooking. It is a grand Pea in all respects. **Price: By express, at buyers' expense, qt., 30c; ½ pk., $1.10; pk., $2.15; bu., $8.50.**

GRADUS OR PROSPERITY.

Vaughan's Improved Telephone

MAGNUM BONUM PARSNIP.

CHAMPION MOSS CURLED PARSLEY.

Vaughan's Magnum Dulce Pepper

Decidedly superior to Chinese Giant or any other variety known to market in size and sweet quality. The result of many years' careful selection by a successful grower. It is fully as prolific as Ruby King, much stronger in growth and foliage as well as larger in fruit. The flesh runs from ½ to ¾ inch in thickness, and is exceptionally mild and pleasant in flavor. Fifteen fruits fill a bushel basket. **Pkt., 15c.; 2 Pkt., 10c.; 2 for 15c.; oz., 50c.**

If you want the best of all Peppers buy this. It was awarded a Certificate of Merit at the American Institute, September, 1903.

PARSLEY

The Champion is a prize-winning English variety, in appearance like a tuft of finely curled moss, and of a rich deep green color. It is slow to run to seed and very hardy; of easiest growth, a few seeds sown in onion rows use no space. Grows in window boxes. **Lb., 50c.; ¼ lb., 20c.; oz., 10c.**

Double Curled **Lb., 40c.; ¼ lb., 15c.; oz., 5c.**

Fern-Leaved **Lb., 65c.; ¼ lb., 20c.; oz., 10c.**

Plain **Lb., 40c.; ¼ lb., 15c.; oz., 5c.**

MARKET GARDENERS' STRAINS

Hamburg Rooted or German Parsley. The root resembles a small parsnip and is the edible part of this sort; extensively used for flavoring soups. **Lb., 50c.; ¼ lb., 15c.; oz., 5c.**

PARSNIP

Magnum Bonum A very fine and greatly improved strain of Hollow Crown Parsnip, which we can recommend to all marketmen as a **money-maker.** The roots are smooth, not so long as those of the standard sort, somewhat thicker in diameter and much more easily pulled. A very heavy cropper. **Lb., 40c.; ¼ lb., 15c.; oz., 10c.**

Improved Guernsey An improved strain, which has given general satisfaction. The roots do not grow so long as those of the Hollow Crown, but are of greater diameter and more easily gathered. Of excellent quality. **Lb., 35c.; ¼ lb., 15c.; oz., 7c.**

Hollow Crown, or Long Smooth (Abbot's Improved). Smooth, large, tender and sugary; one of the best. Our stock is very fine. **Lb., 35c.; ¼ lb., 15c.; oz., 7c.**

PEPPER

CULTURE: See "Vaughan's Vegetable Garden." A Copy Free to Buyers of Vaughan's Seeds.

Our Magnum Dulce Pepper (See Description Below)
Should be Grown by Every Gardener.

Vaughan's Improved Sweet Mountain It is a strong grower, very productive. The peppers when young are of a bright deep green color, without any shade of purple; when ripe they are of a very beautiful red; the flesh is thick, sweet and mild. They often grow 6 inches long by 4 inches through. Our strain has been selected with great care for over twenty years. **Lb., $2.00; ¼ lb., 60c.; oz., 20c.; ½ oz., 12c.**

Ruby King Grows 4½ to 6 inches long, by 3½ to 4 inches thick. The peppers are bright ruby red; one of the best for stuffed pickles. The meat or walls are quite thick, crisp and tender. **Lb., $2.00; ¼ lb., 50c.; oz., 20c.; ½ oz., 12c.**

Chinese Giant **Double the size of "Ruby King."** Not only is it early in ripening and productive for so large a pepper, but its size will cause it to sell most readily. The fruits are of thick blocky form and of glossy scarlet. They grow four or five inches broad at the top, and are of equal length. All uniformly large. The flesh is mild and unusually thick; it makes an excellent salad sliced and served like tomatoes. **Pkt., 10c.; ½ oz., 25c.; oz., 40c.**

Cayenne Pickling Of dwarf habit, and does not branch very much, but unlike the ordinary Cayenne, the peppers grow erect on the plant and are about 2½ inches long; just the right size for pickling. **Pkt., 10c.; ½ oz., 15c.; oz. 25c.**

Radish—Improved Early Scarlet Globe

VAUGHAN'S SELECTED STOCK

LITTLE SILVER, NEW JERSEY.—Send me another 5 lbs. of your selected stock of Scarlet Globe Forcing Radish for immediate use. I am now shipping radishes every day grown from this stock, and the crop is the most productive I have ever grown during my 20 years of gardening.
T. M. WHITE, Florist and Gardener

A desirable sort for hot-bed forcing and out doors; very early, mild and crisp, juicy and tender; top small; will stand heat without becoming pithy. One of the best selling and most attractive Radishes on account of its bright scarlet color and handsome shape; is ready in 28 days. **Our stock of this is the very best;** selected with special care as to size, shape, color and earliness, and market gardeners will find it a money-maker, as **it is just right in every respect.** Market gardeners who raise this (and other sorts, too, for that matter) can depend on the quality being right. We take the greatest pains to have it so. For family use this should be sown every ten days in order to always have a fresh supply.

PRICES: **VAUGHAN'S SCARLET GLOBE. Oz., 10c.; ¼ lb., 25c.; lb., 70c.; 5 lbs., $3.25; 10 lbs., $6.00. ORDINARY STOCK SCARLET GLOBE. Oz., 10c.; ¼ lb., 20c.; lb., 50c.; 5 lbs., $2.25; 10 lbs., $4.00.**

Scarlet Turnip, White Tip VAUGHAN'S SELECTED STOCK

For outdoor sowing this is the most important sort in the Chicago market, thousands of pounds being annually used. **Our stock of this is the best.** Some years ago we secured stock seed of just the kind that was wanted by the most critical hotel and grocery trade, and had it grown for us, paying an extra price for special and critical selection. This seed is raised from transplanted roots and is just right in color, size and shape. We have many customers who have large lots of tops always asking for "as good seed as they had last year."
Oz., 10c.; ¼ lb., 15c.; lb., 40c.; 100 lbs., $35.00.
SCARLET TURNIP, WHITE TIP, ordinary stock; lb., 30c.; ¼ lb., 12c.

Vaughan's Early Scarlet Globe, White Tip

The best and quickest of the White Tips. An extremely quick growing sort; bright scarlet with a white tip, short tops and thin tails, of excellent quality. **5 lbs., $2.80; lb., 60c.; ¼ lb., 20c.; oz., 10c.**

The "Icicle." The Best Long White Radish

Entirely distinct, long, slender, pure white, the earliest and finest long white. It is ready for use fully as early as the Long Scarlet Short Top, with less foliage, rendering it most desirable for forcing. In the open ground the roots continue brittle, crisp and mild, until they are fully as large as those of the Long Cardinal. It is superior to the finest red ones in quality. Roots pure snowy white, four inches in length and half an inch in diameter; they retain their crispness and fresh, mild flavor until fully six inches long and an inch in diameter. **Oz., 10c.; ¼ lb., 15c.; lb., 50c.**

Early Long Scarlet, Short Top

The standard long variety for market and home gardens. Root long, growing partly above ground; straight, smooth, rich scarlet color; very crisp and a quick grower. Our seed is specially selected. **5 lbs., $1.75; lb., 40c.; ¼ lb., 15c.; oz., 10c.**

MAMMOTH SANDWICH ISLAND SALSIFY.

Sandwich Island Mammoth Grows uniformly to an extra large size, averaging **fully double** the size and weight of the roots of the old variety. The roots, notwithstanding their size, are of superior quality and very delicate flavor. **Lb., $1.00; ¼ lb., 30c.; oz., 15c.**

LONG WHITE SALSIFY. **Lb., 70c.; ¼ lb., 20c.; oz., 10c.**

Scorzonera **(BLACK SALSIFY). Oz., 15c.; ¼ lb., 40c.**

SORREL.

Sorrel—Sauerampfer-Oseille

Of the easiest growth. Sorrel is cultivated for its leaves, which possess a very fine flavor; boiled and served like Spinach. It also makes a delicious soup. **Lb., $1.00; ¼ lb., 25c.; oz., 10c.**

SPINACH

Vaughan's Norfolk Savoy Spinach

This is the variety so highly prized by the large planters about Norfolk, Va. **The leaves, remarkably thick and blistered,** extremely hardy, do not settle in the barrel in shipping as do the other varieties. No seed has caused planters more dissatisfaction than spurious varieties of this, whole crops having been plowed under or abandoned because they were not of the proper kind. Our strain has secured the trade of the largest and best growers in the country. **Lb., 20c.; 5 lbs., 80c.; 10 lbs., $1.40; 25 lbs., $3.25; 100 lbs., $12.00.**

Swiss Chard—A Money Crop

Cut and Come Again Spinach Far superior to the common Beet for **greens and equal to Spinach.** Sown early in the Spring, in rows 16 ins. apart, and the seedlings afterward thinned out to 6 ins. in the rows, it makes rapid growth of leaves, and **is fit for use for greens sooner than any other variety.** For Summer use it is superior to Spinach, because it can be cut throughout the entire Summer and Fall, when no Spinach is to be had. It is of almost the same flavor and it is much easier to wash and prepare for the table. **Lb., 40c.; ¼ lb., 15c.** No vegetable requires less care than this, and it is safe to say that none yields as constantly as this Spinach, producing uninterruptedly from July until Fall.

CUT AND COME AGAIN SPINACH.

SQUASH.

CHICAGO WARTED HUBBARD SQUASH.

Chicago Warted Hubbard Squash

Our strain of the above will produce mainly the type shown in our photo-engraving, which we consider the **ideal Hubbard** for home or for market. For thirty or forty years this Squash has ranked first for a winter keeper. It is shipped thousands of miles in carload lots from west to east every year. With the growing of it in a large way, it was found that the largest, heaviest, dark, rough-skinned specimens are most valuable and most salable. Because of this our selection of Chicago Warted Hubbard has been made. **Lb., 70c.; ½ lb., 25c.; 2 ozs., 15c.; oz., 10c.; 5 lbs., $3.25; 10 lbs., $5.50.**

Hubbard An extra choice selection. None better in the market. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.; 5 lbs., $2.75; 10 lbs., $5.10.**

Red or Golden Hubbard A perfect type of the Green Hubbard, except in color, which is a bright, deep orange-yellow, very showy and attractive. Flesh deep golden yellow, much richer in color than Hubbard, fine grained, cooks very dry and is of excellent flavor. Its keeping qualities are fully equal to, while in productiveness it far excels the Green variety. **Lb., 80c.; ¼ lb., 25c.; oz., 10c.**

Delicious (fine quality). **¼ lb., 65c.; lb., $2.25.**

Vaughan's Summer Crookneck. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.**

Summer Crookneck. **Lb., 50c.; ¼ lb., 15c.; oz., 10c.**

Mammoth White Bush. A very select and profitable strain for market. **Lb., 50c.; ¼ lb., 15c.; oz., 10c.; 10 lbs., $4.50.**

White Bush Scalloped. **Lb., 50c.; ¼ lb., 15c.; oz., 10c.**

"Straight-Neck" Summer Squash

Market gardeners who ship early Squash to distant markets know the difficulty of packing the crook-necked variety in boxes to good advantage. In our "Straight-Neck" the bad feature of the crook has been overcome, and by continued selection the size has been increased, more uniformly in shape, improved quality. **Lb., 60c.; ¼ lb., 20c.; oz., 10c.**

VAUGHAN'S TOMATO SEED.

SEE ALSO NOVELTIES.

THE NEW STONE.

VAUGHAN'S IMPROVED STRAIN.

THE Tomato for a Main Crop. Choicest seed. We call this the king of the Livingston kinds, which are the best types of large, smooth, solid "beefy" tomatoes. If asked to select one **main crop, market sort,** we advise this. Color, fine scarlet, stem (calyx) set high, core small and shallow, so that but little is lost when it is taken out of the fruit before slicing. We want to make what we say of this kind definite, because there are very many good kinds, and a long list is confusing. If in doubt, buy the New Stone for market or home use for that matter. ½ oz., 15c.; oz., 25c.; ¼ lb., 60c.; lb., $2.00.

EARLIANA.

THE EARLIEST LARGE SMOOTH RED TOMATO.

This Tomato is not only remarkable for its earliness, but for its very large size, handsome shape and bright red color. Its solidity and fine quality are quite equal to the best medium and late sorts. In some growing sections it is now planted almost exclusively on account of its superiority in earliness, size, uniformity, smoothness and sure-setting of fruits. This is a money-getter and every market gardener should plant it. The growth is compact, fruits being borne in the center in large numbers. The earliest Tomatoes shipped from New Jersey to the New York market are of this variety. ½ oz., 15c.; oz., 25 c.; ¼ lb., 85c; lb., $3.25

THE TALL CHAMPION TOMATO.

One of the best for market gardeners

It is an unusually strong and rank grower and heavy bearer. The fruit is large, smooth, well formed and heavy; of "Acme" color. A fair average size of the fruit is 2¼ inches thick and 3½ broad. It is a first-class solid, showy tomato. It has no resemblance whatever to Dwarf Champion except in color of fruit. ½oz., 20c; oz., 30c; 2 ozs., 50c; ¼ lb., 80c; lb., $3.00.

Acme, Vaughan's Selected Stock. One of the most popular kinds on our list, giving entire satisfaction. A favorite everywhere; large, round, smooth; slight purple tint; **one of the best.** Our seed has been grown with particular care and **we know there is none better.** ½ oz., 12c; oz., 20c; ¼ lb., 60c; lb., $2.00.

The Dwarf Stone Tomato. The largest dwarf in existence. In habit of vine it resembles Dwarf Champion, but is of stronger growth and more erect. The fruit resembles that of the tall "Stone" in color, shape, and is practically same size. The Dwarf Stone is fully double the size of the Dwarf Champion and yet equally as early. The strong upright habit of growth of New Dwarf Stone admits planting at least a half closer each way than usual. The shape of the fruit is perfect, with a good skin, which is free from cracks about the stem end. **Oz., 35c; 2 oz., 60c; ¼ lb., $1.10. 1lb., $4.00**

Cream City. The First Large Tomato to Ripen. Remarkably prolific; flesh thick and solid. In this new Tomato we have a variety of exceptional merit, coming into use about a week earlier than Acme. It is perfectly smooth and always round and as large as Perfection. Color is purplish crimson. The Cream City is the most profitable Tomato for the market gardener and trucker, and is unsurpassed for canning purposes. ½ oz., 15c; oz., 25c; 2 oz., 40c; ¼ lb., 60c; lb., $2.40.

Early Michigan. There is no better variety than this for the general market or family use. Vines are large, with large, dark green leaves, vigorous and wonderfully productive. Fruit medium size to large. Color rich red. ½ oz., 15c; oz., 25c; 2 oz., 40c; ¼ lb., 60c; lb., $2.25

Sutton's Best of All. One of the very best for under glass culture. Productive. **Pkt., 10c; ½ oz., 25c; oz., 50c; 2 oz., 80c.**

Frogmore Selected Forcing. A free cropping, free setting medium sized variety. **Pkt., 15c; ½ oz., 25c; oz., 50c; 2 oz., 80c.**

VAUGHAN'S "ROSE-GROWER" BONE MEAL

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

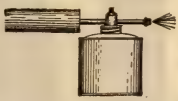
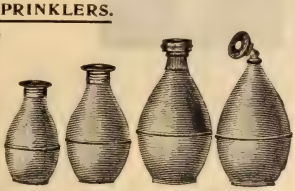
SPRAYERS.

THE FOUNTAIN. One of the best compressed air sprayers on the market. The tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Splendid for spraying pot plants in stores, etc. Always ready for use and never gets out of order. We have used one in our store for the past year and now find we cannot do without it. Price: Galvanized Tank, **$5.50**; brass tank, **$7.00.**



THE BRANDT. A new sprayer designed to overcome the many objections to the compressed air sprayers now on the market. Instead of pumping the air into the reservoir before starting to spray this sprayer is fitted with a pump which can be worked while you walk, thus controlling the pressure at will. Can be used for one or two rows. Reservoir holds 3 gallons of liquid, enough to spray a row a mile long, with only one filling. **Price,** Galvanized Steel Tank, **$5.00.**

THE LOWELL—For applying insecticides in the form of a mist or vapor. The reservoir of this sprayer is made of glass, which enables the operator to see ingredients mixing just how they are working. **Price, each, 75c; 3 for $2.**



AUTO SPRAY. Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. **Price:** Galvanized iron reservoir, **$4.50**; with copper reservoir, **$6.00**; with Auto Pop, **$7.00**; Brass Extension Rod, in 2-foot lengths, **each, 35c**; Galvanized Extension Rod, in 2-ft. lengths, **25c.** Auto Pop, **$5.50**; solid

PNEUMATIC SPRAYER. A compressed air hand-sprayer, the only one on the market we know of. This enables the operator to spray with one-half the labor the ordinary sprayer requires. Will throw a fine mist and can be used to advantage in applying insecticides, etc. One quart size. Galvanized Tank, **each, $1.00**; Brass Tank, **each, $1.75.**

PLANT STANDS.

THE SABIN. Best and simplest plant stands on the market. The stand is thirty inches high and can be raised to fifty-four inches in height and is strong enough to carry 200 pounds. Holder will take a six or ten-inch pot, as the sides are made of the best spring steel; plant can be tilted at any angle. Stand can be folded up so that fifteen will go under the seat of a palm wagon and will only weigh about one hundred pounds. **Each, $2.00; per doz., $18.00.**

THE WHITNALL. The special merits of this stand may be briefly enumerated as follows: The three feet cause it to stand firmly on a carpet or uneven floor. The upright is of three parts telescoped, being easily adjusted to various heights, fastened by means of thumb screws which are well made. The top flange will hold any ordinary pot upright, or by using the four-pronged crotch attachment, a pot can be placed on its side at two different angles; a very useful contrivance for temporary decoration. 1 stand, **$1.50**; 3 stands, **$4.00**; 6 stands, **$7.50**; 12 stands, **$14.00.**

ROLLING STANDS.

WHEELBARROWS.

VAUGHAN'S GREENHOUSE. We have had numerous calls for a wheelbarrow which could be used in greenhouses; the ordinary barrows being too wide for that purpose, and we had board boxes made to fit a special barrow which will fall right through doors 2 feet wide. It is strongly built, very neat in appearance, and the following dimensions:

Box, 14 in. wide at wheel end.
16 in. wide at handle end.
12 in. deep.

The bottom of the box is matched and glued together, and there is no crack against which a shovel might run. The wheel is of steel, 16 inches high, 3/16 inch tread, the rim to be 2 inches wide. The barrow is 26 inches wide over all, and is made of the very best material mostly painted and varnished. The legs are reinforced by iron straps. We consider it the very best barrow of the kind in existence. **Price, $4.50.**

THE GLOBE GARDEN. Measurement of box, 30 inches long, 18 inches wide at wheel, 14 inches at handles. **Price,** with steel wheel, **$3.00.**

VASES.

FLORISTS' GLAZED FIBRE. Furnished in deep, rich brown glaze; absolutely water-proof. Largely used for displaying cut flowers. Can be used for many purposes. More desirable than glass or earthen, because they are light, strong and will not break if dropped. They pay for themselves in a short time. These vases are shipped from Chicago. If wanted from New York add 10 per cent to prices below. These being made by a Western concern, we cannot furnish the sizes exactly as given if shipped from New York; but the variations are not important.

CLARA CEMETERY VASE. It is one of the most useful as well as handsome articles ever placed on the market. Of beautiful solid mounted glass, 12 inches high. It takes the place of all the old tin cans, bottles and like unsightly receptacles often used in the cemetery where only the attractive and ornamental should be seen. The lower end is sharp pointed so it can be embedded about six inches in ground and stand firm. It will hold sufficient water to keep the flowers fresh and sweet, and will accommodate flowers with long as well as short stems. The vase is bell-shaped and the top has a diameter of about five inches.

EUREKA. The best little hand weeder for loosening soil around plants that we know of. Thin forged steel fingers. Short handled, **25c; long handled, 35c.**

This new idea as a weeding device has made itself an immediate favorite with growers wherever it is tried. Does not cut or destroy the roots of plants. The pushing edge is thin enough to work easily through the soil, but is too dull to damage the stems of plants, should it come in contact with them. The inner edge is sharp. Takes out all the weeds; its oval shape permitting the operator to weed behind the plants while standing in front. Especially adapted for working among Carnations, Roses, etc. **Price, each, 35c.**

The No. 6 "Iron Age" Combined Double Wheel Hoe, Hill and Drill Seeder.

This tool is without question the most practical and complete combined garden tool ever offered the public—the ease and simplicity of adjustment, the lightness combined with great strength, the accuracy by which it drills or hills the seed, and the small amount of power required to operate it, are the important features. The wheel is made of steel, 16 inches high, the frame of pipe, coupled to malleable castings. In each form, whether a Seed Drill, a Double Wheel Hoe, or a Single Wheel Hoe, it is equal to any tool or tools made especially for the one purpose. It places the seed in drills or in hills as ab 4, 6, 8, 12 or 24 ins. apart. Complete as in cut. **Price, $11.**

No. 15 "IRON AGE" Combined Single Wheel Hoe, Hill and Drill Seeder.

Combined in this tool is the best Hill and Drill Seeder and Single Wheel Hoe ever offered the public. In combining these tools not a single advantage is lost of a separate Single Wheel Hoe or Seed Drill. As each they are in themselves complete. Changed from one form to another almost instantly, completely filling every desire both as to method of handling seed and soil. It places the seed in hills or drills. Price, **$10.00.** As a Hill and Drill Seeder only (No. 16), **$7.50.**

No. 17 "Iron Age" combined Single Wheel Hoe and Drill Seeder. Same as tool shown in cut except being furnished without hill dropping device. **Price, $9.**

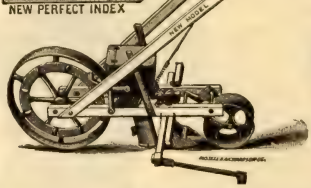
No. 12 "IRON AGE" Wheel Plow and Cultivator.

In the accompanying cut we show a tool of exceeding lightness but of great strength, which is designed to do a greater variety of work than any other tool of the same price, it will accomplish all the work in cultivating needed to be done in a small kitchen garden, plowing, furrowing, covering, hoeing, raking and cultivating. This tool is emphatically a friend of those who can afford only to invest a small amount of money in a garden tool, and whose moments in a garden must be devoted to "straight ahead" work. Price, **$3.25.**

Iron Age. No. 11, this tool with plow only. **Price, $2.25.**

No. 1 "IRON AGE" Double and Single Wheel Hoe.

Wheel Hoe form of the No. 6 opposite. One great advantage which this double Wheel Hoe possesses is, that it can be made into a practical Single Wheel Hoe in a moment's time. As a double wheel it may be used astride the row and thus cultivate both sides of the row at the same time. The wheels are 16 inches high, enabling the Wheel Hoe to run easily and without yielding to the inequalities of the soil as a low wheel will do. The frame being made of pipe coupled to malleable castings, gives great strength together with lightness. Price, complete, **$6.50.** A Seed Drill attachment may be applied for sowing in rows only, or sowing both in rows and hills, **$3.50** and **$4.50** respectively. This tool with side hoes only (Iron Age No. 3). Price, **$3.75.**



No. 20 "IRON AGE" Single Wheel Hoe.

The frame of this tool, as all the Iron Age, combined tools, is made of pipe coupled to malleable castings, thus rendering them light and strong. A pair of side hoes, a set of cultivator teeth, a pair of rakes and a land side plow are furnished with this tool. Price complete, **$5.50,** as with the No. 1 a seeder attachment may be added at any time. No. 21 plain (Hoes only). Price, **$3.50.**

No. 8 "IRON AGE" Hill and Drill Seeder.

The hopper is low, and delivers the seeds close to the ground and very carefully. It holds four quarts. The feeding is distributed by the revolving brush, and is accurate and even without injuring the seed. The distance between hills is very easily changed and regulated. It will drop 4, 6, 8, 12 and 24 inches apart. It will not clog under any circumstances. By hooking out the small lever the same is changed from a hill dropper to a sowing drill. **Price, $10.00.**

Price, $17.00.

This tool applies the fertilizer in connection with the seed, just where it will do its greatest good; or, by the use of the same tool in its other form (without seeder), by applying quick acting fertilizers to growing plants.

The opening plows are immediately followed by the coverers which draw the soil over the fertilizer just deposited. The Fertilizer Distributor contains a force feed device which prevents stoppage by small lumps. The Seed Sowing Device is the same as used on Nos. 6 and 15 Combined Seed Drills. The seed may be sown in rows or dropped in hills.

VAUGHAN'S COMBINED CULTIVATOR AND HARROW.

L. LONGIFLORUM GIGANTEUM.

LILIUM LONGIFLORUM JAPAN GROWN.

MULTIFLORUM TYPE.

The true variety under this name will produce more flowers per bulb than other types, but it is difficult to secure true stock of this unmixed with other grades. Our Japan growers promise that our stock shall contain 80 per cent true type.

While ordinarily considered later than other varieties of Longiflorum, it has proven with our customers as early as any, and when shipped and planted fairly late has formed fine plants even in growth and fairly early in season. It is a well known fact that there is only one section in Holland where these bulbs can be grown properly, and we provide for all of our stock in this section, contracting for the output of one large grower. In this way we secure the pick of the crop, and can supply bulbs that will be equal to, or better than those delivered by any other dealer. Our double nose bulbs are especially fine, and will throw from two to three first-class flowers, especially recommended for growing in pans.

VAUGHAN'S LONDON MARKET BRAND.

COLD STORAGE VALLEY PIPS.

London Market Brand. All shipments go by express. Our Cold Storage Valley gives excellent satisfaction, giving strong spikes of bloom with from 12 to 14 bells and and plenty of foliage.

When orders are placed with us for cold storage stock, we set same aside, but can not be responsible for not being able to produce the pips if same have been destroyed by fire any other cause beyond our control. We accept no responsibility whatsover for results in forcing.

PRICE.—August to December shipment, per 100 and less than 500, $2.00; 500, $8.00; 1,000, $15.00; 2,000, $28.00.

KING HUMBERT—Best of all Cannas.

There is no other *Best Canna* to-day. None other can compare with it. This Canna has become known very generally during the past two years, but it remained for the S. A. F. Convention to see it at Dayton last summer; since which event the merit and popularity of this variety has been settled in this country.

Its giant flowers, orange scarlet in color, the very broad rubber-like bronze leaves, altogether make up a plant so distinctly in advance of any other Canna that the demand for and use of it must be universal.

These New Carnations to be disseminated in 1908. Book your order now to secure early delivery. All orders will be filled in rotation and of best cuttings which the growers send out.

AFTERGLOW. (*Witterstaetter.*)

This is sure to prove a winner. Color is a bright cerise, very close to Lawson in tint. A grand and easy doer. Has been on trial for five years and no weak spots found. Won the S. A. F. Medal and scored above 90 points.

WINONA. (*Dorner.*)

A beautiful pink, the shade so greatly in demand, but not found in our standard sorts. A pure pink without salmon or cerise in its shadings

DEFIANCE. (*Rudd.*)

Color bright scarlet. Size two and three-quarter inches. Stems long and stiff. Habit upright with no superfluous grass. Growth strong and clean, with no tendency to disease. An early free and continuous bloomer; believed to be a first class commercial scarlet.

SARAH HILL. (*Knopf.*)

Probably the largest, free-flowering white variety extant. The form is beautiful and displays the size to the very best advantage; color very pure, texture excellent. A startlingly beautiful novelty, producing its flowers with great freedom.

ANDREW CARNEGIE. (*C. Carn. Co.*)

A pure-toned, bright scarlet sport from Harlowarden, with all the good qualities of the parent variety. The numerous localities where Harlowarden succeeds so admirably will have a warm welcome for Andrew Carnegie.

SINCERITY. (*Rudd.*)

Color deep Daybreak shade. Hot sun deepens instead of fading it; size easily three inches. Stem like that of Enchantress. An early, free and continuous bloomer.

Price of any of the above new Carnations, rooted cuttings, January delivery. Per doz., $2.00; per 100, $12.00; per 1,000, $100.00.

We have five houses full of this most popular Fern in all sizes from 2½-inch to 12-inch pots. All our plants are pot-grown, bushy stock; well furnished with fronds from the pot up, and cannot be compared with the cheap long-drawn-up lifted stock from the bench.

These popular ***Nephrolepis Ferns*** (Bostoniensis and Elegantissima) have proved the best decorative plants of recent introduction. They are all rapid growers, work up fast and are good sellers. Every florist should grow these ferns. We have the finest stock in the West.

NEW NEPHROLEPIS WHITMANI.

The Improved Tarrytown Fern.

In this we have unquestionably the most valuable Nephrolepis of the Ostrich Plume type yet introduced. Not only is it of dwarfer and more compact habit than the N. Elegantissima, but the pinnae being more deeply divided gives the plant a much more graceful appearance, while another important point in its favor is the fact that not a single frond has ever reverted to the common Boston Fern.

NEPHROLEPIS WHITMANI.

BOSTON FERN.

NEPHROPLEPIS AMERPOHLI.

This is the latest addition to the Ostrich Plume type and is certain to prove a welcome and popular variety, holding for delicacy and gracefulness the same position among the Nephrolepis that Adiantum Gracillimum does among the Maiden Hair Ferns. The pinnae is so finely divided that it reminds one of a piece of fine lace. The fronds are broad and of a depth which gives them a cushion-like appearance. It forms a beautiful specimen and is admired by every one who sees it. We are now booking orders for September delivery. ***50 cts. each; $3.50 per doz.; $25.00 per 100.***

NEPHROLEPIS ELEGANTISSIMA.

A sport from the Piersoni Fern, but is much more beautiful. It is as different from Piersonii Fern as that is from Boston. The small side pinnae are again subdivided, producing an exquisite and beautiful effect.

NEW HARDY HYDRANGEA "SNOWBALL."

(***Arborescens Alba Grandiflora.***)

This new American Hydrangea was found growing wild some years ago in the woods of Ohio and bids fair to become the most beautiful hardy flowering shrub introduced during the last twenty years. Its greatest value, aside from its wonderful beauty, being that it comes into bloom just after the flowering time of the Lilacs, Syringas, Viburnum and Spring-flowering Spiraeas, and furthur it continues on into August. The panicle is more like a Snowball in form and size than Paniculata Grandiflora (hence the name), and is a pure white. It seems to thrive well in various soils and when fully exposed to the sun as well as in partial shade. NEW ROSE "RED KAISERIN."

(Mme. Jules Grolez.)

The more we see of this grand Rose the better we like it. Having planted a bench of it this Spring the plants have given us grand flowers to cut all Summer on long strong stems. Kaiserin Augusta Victoria is well known and admitedly the best white Summer-blooming Rose.

In this new Rose we offer a red Kaiserin Augusta Victoria. It is similar to the white in foliage, habit, shape and size of bloom, but the color of the flowers is a beautiful cherry red.

A First-Class Novelty—"Tausendschon."

A New Climbing Rose.

Raised by several crossings between the well known Crimson Rambler, Tea and Polyantha Roses. This beautiful novelty surpasses all other climbing roses of this section, both in growth, foliage and beauty of blooms. The flowers appear in large clusters from the beginning of June till end of July. Each individual flower measures about 2 inches across, and is of a beautiful soft pink, same color as Clothilde Soupert; later on changing into rosy carmine. The plant is of strong, vigorous growth, absolutely hardy and a most excellent variety to plant wherever a strong climber is desired. Very agreeable, as it is nearly thornless.

Florists will do well to force this grand rose in for Easter.

Strong plants, 4-inch pots, ***each, 30 cts.; doz., $3.00; per 100, $20.00.***

One-year dormant grafted plants, ***each, 25 cts.; doz., $2.50; per 100, $15.00.***

ANNY MULLER.

(Pink Baby Rambler.)

This Rose is the result of a cross between Crimson Rambler and George Pernet. The freely branching plants attain a height of 18 inches and all in growth somewhat similar to the Red Baby Rambler. The showy brilliant rose-colored flowers are produced in large clusters from June until frost. Each individual flower measures about 2 inches in diameter. Semi-double. Petals are somewhat twisted.

Florists will find this Rose valuable for Easter blooming, also for out-of-door bedding.

BABY RAMBLER ROSE.

The Everblooming Dwarf Crimson Rambler.

This new Rose, which was sent out by the name of Mme. Norbert Levavasseur, is a cross between Crimson Rambler and Glory of Polyanthus, retaining the color of the former with the exceedingly free flowering habit of the latter, as well as its dwarf growth.

The plants are very vigorous and grow to a height of about 24 inches. The foliage is dark, glossy, profuse and remarkably free from insects and fungus.

The flowers are borne in clusters, 30, 40 and 50 to a cluster. They are in every way just like those of the Climbing Crimson Rambler and are produced perpetually.

We have an immense quantity of ornamental Shrubs in all the best kinds and standard sizes, also in fine specimens. Send us your list of wants for special quotations.

Perennials for Fall Planting.

We have a very large stock of all the best perennials, all pot plants, 3 and 4 in. pots, well established and much better than field roots. Write us for our Special Perennial List.

PEONIAS.

The kinds offered below are absolutely true to name, all having been grown by us in our Nurseries at Western Springs and tested for the past three and four years.

Peony plants are much surer to bloom and be much stronger if planted in September and October, so that new rootletts may be formed before cold weather. This giving a great advantage to home grown stock over imported plants, which invariably come too late and often not true to name.

We offer the roots in strong 3 to 5 eyes each at prices quoted. We can also, if required, furnish large size up to 4 and 5-year-old with 10 to 20 eyes at reasonable rates.

NEW ANNUAL HOLLYHOCKS.

Bloom from Seed in 4 Months.

This new strain possesses all the virtues of the double old-fashioned Hollyhocks, with the additional advantage of **blooming from the seed the first year.** Sow in March. The plants branch out freely, grow to a respectable height, and are not so easily attacked by the Hollyhock fungus and therefore retain their fresh, bright green leaves until late. The flowers are double, semi-double or single. Last year we sowed some of this seed in the open ground May 19th, and the plants bloomed from the end of August until frost. SWEET PEAS.

Any of the following, per oz., 5c, except where noted.

Dorothy Eckford. "The grandest pure white. In addition to its pureness it is a grand, robust flower, also robust in growth and stem, with no tendency whatever to tinge or go pink; the plant is very short jointed, and grows an enormous mass of bloom." ¼ lb., 10c; lb., 30c; 5 lbs., $1.25.

Florence Fraser. An improved Blanche Ferry. Color, pink and white; flower stems 12 to 14 inches long and very stout, bearing three or four large blooms. A strong vigorous grower and a free early bloomer. It surpasses Blanche Ferry in vigor, flower and stem, freedom and earliness. ¼ lb., 15c; lb., 40c.

Flora Norton. It is a very bright blue, quite different from Countess of Radnor and kindred varieties, being a brighter blue and clearer color. ¼ lb., 15c; lb., 40c.

Mrs. Geo. Higginson, Jr. A clear, delicate light blue, showing practically no tint of mauve. It is a thing our growers have been working for for years, and while it is not any larger than the old Countess of Radnor, it is a particular fine shade. It is especially valuable for florists and is a decided novelty. ¼ lb., 15c; lb., 40c.

Countess Spencer Hybrids, the new Orchid-Flowering Sweet Pea. The type and form of these is a complete departure from anything yet introduced. Both the wings and standard are very large, and its graceful form, together with the immense size, makes it by far the most attractive variety in existence. There are five or six distinct shades contained in this mixture, but all are of the large flowering type and of the same form. ¼ lb., 15c; lb., 50c.

King Edward VII. A true giant flowering variety, with strong stems and growth, with no inclination to burn in the sun. A fine variety, much brighter than either Mars or Salopian. ¼ lb., 15c; lb., 40c.

VAUGHAN'S "ROSE-GROWER" BONE MEAL

This is a special brand we have put up for our trade. It is ground fine, hence acts quickly. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" Bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. A finely ground bone can also be more evenly distributed through the soil. Analysis.—Ammonia, 4½ to 5½ per cent; total phosphoric acid, 22 to 25 per cent; total bone phosphate, 48 to 54 per cent.

SPRAYERS.

THE FOUNTAIN. One of the best compressed air sprayers on the market. This tank has a capacity of 3 gallons and is tested to an air pressure of 50 lbs. to the square inch, which obviates any danger of bursting. Splendid for spraying pot plants in stores, etc. Always ready for use and never gets out of order. We have used one in our store for the past year and now find we cannot do without it. Price: Galvanized Tank, **$5.50**; brass tank, **$7.00.**

THE BRANDT. A new sprayer designed to overcome the many objections to the compressed air sprayers now on the market. Instead of pumping the air into the reservoir before starting to spray this sprayer is fitted with a pump which can be worked while you walk, thus controlling the pressure at will. Can be used for one or two rows. Reservoir holds 3 gallons of liquid, enough to spray a row a mile long, with only one filling. **Price,** Galvanized Steel Tank, **$5.00.**

THE LOWELL—For applying insecticides in the form of a mist or vapor. The reservoir of this sprayer is made of glass, which enables the operator to see ingredients mixing just how they are working. **Price, each, 75c; 3 for $2.**

AUTO SPRAY. Eight to ten strokes of the plunger in air chamber will compress enough air to discharge the entire contents and make a continuous spray for nine minutes. The "Auto Spray" has been improved this season by the addition of the "Auto Pop," shown in illustration. Briefly described, the "Auto Pop" is an automatic valve, which is closed by the air pressure used to operate the "Auto Spray." In operation a lever is moved by simply closing the hand, thus opening the valve and allowing an instantaneous discharge of spray. By releasing the lever it closes itself automatically; hence the spray is in perfect control. **Price:** Galvanized iron reservoir, **$4.50**; with Auto Pop, **$5.50**; solid copper reservoir, **$6.00**; with Auto Pop, **$7.00**; Brass Extension Rod, in 2-foot lengths, **each, 35c**; Galvanized Extension Rod, in 2-ft. lengths, **25c.**

PNEUMATIC SPRAYER. A compressed air **hand-sprayer,** the only one on the market we know of. This enables the operator to spray with one-half the labor the ordinary sprayer requires. Will throw a fine mist and can be used to advantage in applying insecticides, etc. One quart size. Galvanized Tank, **each, $1.00**; Brass Tank, **each, $1.75.**

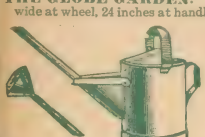
WHEELBARROWS.

VAUGHAN'S GREENHOUSE.



We have had numerous calls for a wheelbarrow which could be used in greenhouses; the ordinary barrow being too wide for that purpose, and we had built for us a special barrow which will fill this want to perfection. It is strongly built, very neat affair, of the following dimensions. Box, 14 in. wide at wheel end.
16 in. wide at handle end.
12 in. deep.

The bottom of the box is matched and glued together, and there is no crack against which a shovel might run. The wheel is of steel, 17 inches high, with a 2½-inch tread; the axle is 15 inches wide. The barrow is 20 inches wide over all, and is made of the very best material, nicely painted and varnished. The legs are reinforced by iron straps. We consider it the very best barrow of the kind in existence. **Price, $4 50.**

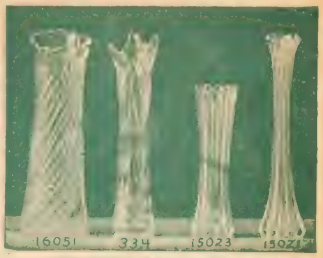
FLORISTS' GLAZED FIBRE.



Furnished in deep, rich brown glaze; absolutely water-proof. Largely used for displaying cut-flowers. Can be used for many purposes. If wanted from New York add 10 per cent. to prices below. These being made by a Western concern, we cannot furnish the sizes exactly as given if shipped from New York; but the variations are not important.

VAUGHAN'S CANNAS

Our Canna fields at Western Springs when in bloom in August and September make a grand showing. They attract thousands of visitors, both professional and amateurs. We grow all of the standard kinds, all of the novelties, and discard the inferior ones every year as the improved merits of the newer ones are proven. We have won highest awards at four great expositions, Chicago, Omaha, Buffalo and St. Louis. The Grand Prize, one of the seven only awarded to American exhibitors in horticulture, was awarded to us at St. Louis. If you wish for the best and most complete assortment of Cannas write us. You will find them catalogued here.

KING HUMBERT

KING HUMBERT

The Best of all Cannas.

There is no other **Best Canna** today. None can compare with it. This remarkable "Gold Medal" Canna has been the sensation of the past three years. Of all the wonderful flowering and foliage plants introduced, this one takes the lead for size, color and habit. It is a cross between the Orchid flowering and the French or Crozy type, combining the best features of both, the large flowers of one with the free blooming character of the other; the handsome leathery foliage with a strong noble habit. 4½ feet in height.

Its giant flowers, orange scarlet in color, the very broad, rubber-like, bronze leaves, altogether make up a plant so distinctly in advance of any other Canna that the demand for and use of it must be universal.

Price 2½ inch pot plants, Each 20c; Doz., $2.00 Per 100, $15.00 Price 3 inch pot plants, Each 30c; Doz., $3.00 Per 100, $20.00

VAUGHAN'S BEST BEDDING CANNAS.

Our Experience with Cannas. For over 18 years we have made the culture of Cannas one of our main specialties. We grew, last year in our place at Western Springs **over 10 acres** of standard sorts and novelties, besides 3,000 seedlings. We ought to know something about Cannas. We know that a great many so-called novelties are being sent out every year whose only claim for existence in many instances is a **new name.** We also know, and had to pay dearly for this knowledge, that ignorant and unscrupulous growers give most any name to their stock of Cannas, as long as the color is somewhere near correct. To them **any** red is a Chicago, **any** yellow a Florence Vaughan, etc. **Our Cannas are true to name,** and furthermore, the stock we use for propagation has been specially selected on points of vigor, true type, color, evenness of height and size of flowers.

Choice and Standard Sorts for Spring, 1908.

Prices quoted are for both Dormant 1-2 Eyed Bulbs and 3-inch pot plants. Dormant Roots are offered up to April 1st, and while stock lasts, after which pot plants are ready. 25 of any one kind at the 100 rate.

STRONG ROOTED CUTTINGS FOR DELIVERY NOW.

NEW CARNATIONS OF THIS YEAR'S INTRODUCTION

We guarantee all cuttings to be well rooted and satisfactory, as carefully selected as when sent from the introducers themselves. They guarantee ours to be their A1 stock. If any are not so, advise **at once,** and we will make them right; but **late claims** cannot be allowed.

AFTERGLOW. (Witterstaetter.)

This is sure to prove a winner. Color is bright cerise, very close to Lawson in tint. A grand and easy doer. Has been on trial for five years and no weak spots found. Won the S. A. F. Medal and scored above 90 points.

WINONA. (Dorner.)

A beautiful pink, the shade so greatly in demand, but not found in our standard sorts. A pure pink without salmon or cerise in its shadings.

DEFIANCE. (Rudd.)

Color bright scarlet. Size two and three-quarter inches. Stems long and stiff. Habit upright with no superfluous grass. Growth strong and clean, with no tendency to disease. An early, free and continuous bloomer; believed to be a first class commercial scarlet.

SARAH HILL. (Knopf.)

Probably the largest, free-flowering white variety extant. The form is beautiful and displays the size to the very best advantage; color very pure, texture excellent. A startlingly beautiful novelty, producing its flowers with great freedom.

ANDREW CARNEGIE. (C. Carn. Co.)

A pure-toned, bright scarlet sport from Harlowarden, with all the good qualities of the parent variety. The numerous localities where Harlowarden succeeds so admirably will have a warm welcome for Andrew Carnegie.

Price of any of the above new Carnations, rooted cuttings, January delivery. Per doz., $2.00; per 100, $12.00; per 1,000, $100.00.

Four Grand Pink Carnations.

WINSOR. This is sure to prove a winner. Nothing approaches it in color which is a clear silvery pink—a shade between Enchantress and Mrs. Thos. W. Lawson—and much more beautiful than either. The color will make it sell in any market. The stem is just right. The flowers are considerably larger than Lawson, and much better shaped. As a grower it is everything that can be desired. **Per 100, $6.00; per 1000, $50.00.**

ROSE PINK ENCHANTRESS. A sport of the popular variety, Enchantress. A pure, clear pink, of the color of the Bridesmaid Rose. A solid color with no streaks or spots of a deeper shade. Just the pink color wanted. Habit of growth, freedom of blooming, and all other qualities identical to Enchantress. **Per 100, $4.00; per 1000, $30.00.**

MELODY, or Daybreak sport of Mrs. Lawson of which it is identical except in color which is a light pink. Same shade as old Daybreak. **Per 100, $3.00; Per 1000, $25.00.**

Five Grand White Carnations.

WHITE ENCHANTRESS. A sport of the popular variety Enchantress. Habit of growth, freedom of blooming and all other qualities identical to Enchantress. WHITE PERFECTION. In our opinion this is the ideal White Carnation. It wins all the prizes on the Exhibition table for best white. The flowers are 3½ inches. Form perfect. Substance of the very best, habit ideal. Strong, clean, upright growth; breaks freely and every shoot produces a flower. Early. **Per 100, $3.50; per 1000, $30.00.**

VAUGHAN'S FERNS . . .

BOSTON FERNS

NEPHROLEPIS EXALTATA BOSTONIENSIS.

BOSTON FERN

We have five houses full of this most popular Fern in all sizes from 2½-inch to 12-inch pots. All our plants are pot-grown, bushy stock, well furnished with fronds from the pot up, and cannot be compared with the cheap long-drawn-up lifted stock from the bench.

These popular **Nephrolepis Ferns** (Bostoniensis and Elegantissima) have proven the best decorative plants of recent introduction. They are all rapid growers, work up fast and are good sellers. Every florist should grow these ferns. We have the finest stock in the West.

NEPHROLEPIS WHITMANI.

The Ostrich Plume Fern.

In this we have unquestionably the most valuable Nephrolepis of the Ostrich Plume type yet introduced. Not only is it of dwarfer and more compact habit than the N. Elegantissima, but the pinnae being more deeply divided gives the plant a much more graceful appearance, while another important point in its favor is the fact very few fronds have ever reverted to the common Boston Fern.

NEPHROLEPIS AMERPOHLI

NEW NEPHROLEPIS-AMERPOHLI.

The Philadelphia Lace Fern.

This is the latest addition to the Ostrich Plume type and is certain to prove a welcome and popular variety, holding for delicacy and gracefulness the same position among the Nephrolepis that Adiantum Gracillimum does among the Maiden Hair Ferns. The pinnae are so finely divided that it reminds one of a piece of fine lace. The fronds are broad and of a depth which gives them a cushion-like appearance. It forms a beautiful specimen and is admired by every one who sees it.

The picture of the plant shown on this page gives a very good idea of the beautiful feathery and compact habit.

NEW NEPHROLEPIS-TODEAOIDES.

Todea or Filmy Fern-Like Nephrolepis.

This is an English introduction that has received a first-class certificate both from the Royal Horticultural Society and from the Royal Botanic Society of London, and is likely to become a most important commercial variety. While in a general way it reminds one of an exceptionally well-grown plant of N. Elegantissima, it is entirely distinct from this and all others, in its strong yet compact growth and its bold heavy foliage, which is distinctly tripinnate or three times divided. Specimen plants which we now have growing are admired by every one and we have great faith in its future.

NEW NEPHROLEPIS SUPERBISSIMA.

The fronds are very heavily imbricated, the pinnae overlapping, making the fronds very dense and compact. In color also it is different, being of a richer, darker green. The plant is very sturdy in its habit, the fronds never breaking down. It makes a much more dwarf and compact growth, the fronds being very dense, firm and rigid, it will stand more knocking around than any other fern of its type.
